PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to a petition filed on June 28, 2017, by The Timken Company, North Canton, Ohio. Antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2017/tapered_roller_bearings_korea/preliminary.htm.

Tapered roller bearings (TRBs) covered by these investigations are all tapered roller bearings with an outside cup diameter of eight inches and under, regardless of type of steel, whether of inch or metric size, and whether made of through-hardened steel or case hardened (case-carburized) steel. Tapered roller bearings include: finished cup and cone assemblies entering as a set, finished cone assemblies entering separately, and finished parts (cups, cones, and tapered rollers). Tapered roller bearings are sold individually as sets (cup and cone assembly), as a cone assembly, as a finished cup, or packaged as a kit with one or several tapered roller bearings, a seal, and grease. The scope of the petition includes finished rollers and finished cones that have not been assembled with rollers and a cage. Tapered roller bearings can be a single row or multiple rows (e.g., two- or four-row), and a cup can handle a single cone assembly or multiple cone assemblies. Included in the scope are thrust bearings. The scope of this investigation does not include unfinished parts of tapered roller bearings (cups, cones, and tapered rollers) and does not include cages, whether finished or unfinished. The scope does not include tapered roller bearing wheel hub units, rail bearings, and other housed tapered roller bearings (flange, take up cartridges, and hanger units incorporating tapered rollers). Tapered roller bearings that have an outer cup diameter of eight inches and under that are used in wheel hub units, rail bearings, or other housed bearings, but entered separately, are included in the scope to the same extent as described above. All tapered roller bearings meeting the written description above are included, regardless of coating.

Tapered roller bearings subject to this investigation are primarily classifiable under subheadings 8482.20.0040, 8482.20.0061, 8482.20.0070, 8482.20.0081, 8482.91.0050, 8482.99.1550, and 8482.99.1580 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Parts may also enter under 8482.99.4500. While the HTSUS subheadings are provided for convenience and for customs purposes, the written description of the subject merchandise is dispositive.

Reporting of information.-- If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. In addition, if your firm is a U.S. producer, the information you provide on your production and imports of TRBs and your responses to the questions in Part I of the producer questionnaire will be provided to the U.S. Department of Commerce, upon its request, for use in connection with (and only in connection with) its requirement pursuant to section 702(c)(4)/732(c)(4) of the Act (19 U.S.C. § 1671a(c)(4)/1673a(c)(4)) to make a determination concerning the extent of industry support for the petition requesting this proceeding. Any information provided to Commerce will be transmitted under the confidentiality and release guidelines set forth above. Your response to these questions constitutes your consent that such information be provided to Commerce under the conditions described above.

Include only parts and subassemblies essentially equivalent to a complete bearing, such as sets consisting of cups and cone assemblies or, if cups and cone assemblies are sold separately, the equivalent of sets. For the purposes of reporting quantity data, please treat an assembly or a cup as one half (i.e., ½) of a completed bearing. So for example if your firm produces and sells 400 cups for use in a completed TRB, report those quantity data in this grid as a quantity of 200 bearing equivalents. **Any other in-scope parts that cannot be converted into "bearing equivalents" (e.g., parts other than assemblies and cups) should be reported on the following table (question II-9).**

RECONCILIATION OF SHIPMENTS, PRODUCTION, AND INVENTORY.--Generally, the data reported for the end-of-period inventories (i.e., line L) should be equal to the beginning-of-period inventories (i.e., line B), plus production (i.e., line C), less total shipments (i.e., lines D, F, H, and J). Please ensure that any differences are not due to data entry errors in completing this form, but rather reflect your firm's actual records; and, also provide explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

II-10. **Employment data.**--Report your firm's employment-related data related to the production of TRBs and provide an explanation for any trends in these data.

Include only parts and subassemblies essentially equivalent to a complete bearing, such as sets consisting of cups and cone assemblies or, if cups and cone assemblies are sold separately, the equivalent of sets.

"Production and Related Workers" (PRWs) includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations. Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12. For the January to March periods, calculate similarly and divide by 3.

"Hours worked" includes time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight time hours.

"Wages paid" --Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

II-11. **Related firms.**--If your firm reported transfers to related firms in question II-7, please indicate the nature of the relationship between your firm and the related firms (e.g., joint venture, wholly owned subsidiary), whether the transfers were priced at market value or by a non-market formula, whether your firm retained marketing rights to all transfers, and whether the related firms also processed inputs from sources other than your firm.

II-12. **Purchases.**--Other than direct imports, has your firm otherwise purchased TRBs since January 1, 2014?

"Purchase" – A transaction to buy product from a U.S. corporate entity such as another U.S. producer, a U.S. distributor, or a U.S. firm that has imported the product.

"Import" –A transaction to buy from a foreign supplier where your firm is the importer of record.

III-9b. **Operations on other in-scope parts.**--Report the revenue and related cost information requested below on the TRB parts (those that cannot be reported on a bearing equivalent basis) operations of your firm's U.S. establishment(s).¹ Do not report resales of products. Note that internal consumption and transfers to related firms must be valued at fair market value. Input purchases from related suppliers should be consistent with and based on information in the firm's accounting books and records. Provide data for your firm's three most recently completed fiscal years, and for the specified interim periods. If your firm was involved in tolling operations (either as the toller or as the tollee), please contact Charles Yost at (202) 205-3432 before completing this section of the questionnaire.

Report your firm's revenue and related cost information on other parts of TRBs that cannot be converted into bearing equivalent quantities.¹ Do not report here (i.e., double-count) any parts that were reported in question III-9a including when embodied in an assembly, cup, or complete TRB that is being reported in III-9a (i.e., do NOT report "internal consumption" here for merchandise reported in a more finalized form in III-9a).

III-9c. **Financial data reconciliation.**--The calculable line items from question III-9a and III-9b (i.e., total net sales quantities and values, total COGS, gross profit (or loss), total SG&A, and net income (or loss)) have been calculated from the data submitted in the other line items. Do the calculated fields return the correct data according to your firm's financial records ignoring non-material differences that may arise due to rounding?

Yes No--If the calculated fields do not show the correct data, please double check the feeder data for data entry errors and revise.

Also, check signs accorded to the post operating income line items; the two expense line items should report positive numbers (i.e., expenses are positive and incomes or reversals are negative--instances of the latter should be rare in those lines) while the income line item also in most instances should have its value be a positive number (i.e., income is positive, expenses or reversals are negative).

If after reviewing and potentially revising the feeder data your firm has provided, the differences between your records and the calculated fields persist please identify and discuss the differences in the space below.

III-10. **Nonrecurring items (charges and gains) included in the subject product financial results.**--For each annual and interim period for which financial results are reported in question III-9a, please specify all material (significant) nonrecurring items (charges and gains) in the schedule below, the specific question III-9a line item where the nonrecurring items are included, a brief description of the relevant nonrecurring items, and the associated values (*in \$1,000*), as reflected in question III-9a; i.e., if an aggregate nonrecurring item has been allocated to question III-9a, only the allocated value amount included in question III-9a should be reported in the schedule below. Note: The Commission's objective here is to gather information only on material (significant) nonrecurring items which impacted the reported financial results of the subject product in question III-9a.

III-12. **Asset values.**--Report the total assets (i.e., both current and long-term assets) associated with the production, warehousing, and sale of TRBs. If your firm does not maintain some or all of the specific asset information necessary to calculate total assets for TRBs in the normal course of business, please estimate this information based upon a method (such as production, sales, or costs) that is consistent with relevant cost allocations in question III-9a. Provide data as of the end of your firm's three most recently completed fiscal years.

Note: Total assets should reflect net assets after any accumulated depreciation and allowances deducted.

Total assets should be allocated to the subject products if these assets are also related to other products. Please provide a brief explanation if there are any substantial changes in total asset value during the period; e.g., due to asset write-offs, revaluation, and major purchases.

If the calculated fields below return values other than zero (i.e., "0") and both are being reported on a calendar basis, please explain the discrepancy below.*

PART V.--ALTERNATIVE PRODUCT INFORMATION

Further information on this part of the questionnaire can be obtained from Keysha Martinez (202-205-2136, keysha.martinez@usitc.gov).

In-scope TRBs.--As defined on page 2. TRBs with an outside cup diameter of eight inches and under, regardless of type of steel, whether of inch or metric size, and whether made of through-hardened steel or case hardened (case-carburized) steel. TRBs include: finished cup and cone assemblies entering as a set, finished cone assemblies entering separately, and finished parts (cups, cones, and tapered rollers). TRBs are sold individually as sets (cup and cone assembly), as a cone assembly, as a finished cup, or packaged as a kit with one or several TRBs, a seal, and grease. The scope of the petition includes finished rollers and finished cones that have not been assembled with rollers and a cage. TRBs can be a single row or multiple rows (e.g., two- or four-row), and a cup can handle a single cone assembly or multiple cone assemblies. Included in the scope are thrust bearings. The scope of this investigation does not include unfinished parts of TRBs (cups, cones, and tapered rollers) and does not include cages, whether finished or unfinished. The scope does not include tapered roller bearing wheel hub units, rail bearings, and other housed TRBs (flange, take up cartridges, and hanger units incorporating tapered rollers). TRBs that have an outer cup diameter of eight inches and under that are used in wheel hub units, rail bearings, or other housed bearings, but entered separately, are included in the scope to the same extent as described above. All TRBs meeting the written description above are included, regardless of coating.

Out-of-scope TRBs. TRBs with an outside cup diameter over eight inches, as well as unfinished parts of TRBs (cups, cones, and tapered rollers), and cages, whether finished or unfinished. This also includes wheel hub units, rail bearings, and other housed TRBs (flange, take up cartridges, and hanger units incorporating tapered rollers). Out-of-scope TRBs include:

- **Large OD TRBs.**--Complete TRBs with an outer diameter greater than 8 inches, as well as the same semi-finished bearing components included in "in-scope TRBs" but for the larger outer diameter TRBs, e.g., finished cup and cone assemblies entering as a set, finished cone assemblies entering separately, and finished parts (cups, cones, and tapered rollers).
- **Unfinished parts.**--Other parts used to create either in-scope TRBs (e.g., 8 inches OD and smaller) or large OD TRBs (e.g., greater than 8 inches OD) that are not part of the scope of this investigation (or their equivalent for large OD TRBs). This would include unfinished parts of tapered roller bearings, regardless of outer diameter size, (e.g., cups, cones, and tapered rollers) as well as cages, whether finished or unfinished.
- **Further manufactured TRBs.**--These are products that include TRBs, but have been further processed towards a specific end use, including wheel hub units, wheel hub assemblies, rail bearings, and other housed TRBs (flange, take up cartridges, and hanger units incorporating tapered rollers).

All TRBs combined.--TRBs and parts thereof, finished and unfinished, including wheel hub assemblies; flange, take up cartridge, and hanger units incorporating TRBs; and tapered roller housings (except pillow blocks) incorporating tapered rollers, with or without spindles, whether or not for automotive use. This definition should represent the definition of TRBs used in Inv. 731-TA-344 (Third Review): TRBs from China.

$$\text{All TRBs} = \text{In-scope TRBs} + \text{Large OD TRBs} + \text{Unfinished parts} + \text{Further manufactured TRBs}$$

Note.--The alternative product comparison question (i.e., V-1 below) is being asked in multiple questionnaire types (U.S. producers' and U.S. importers' questionnaires). If your firm is completing more than one of these questionnaire types in relation to this proceeding, please only respond to the alternative product comparisons question in only **one questionnaire type**. In general, your firm should make these comparisons in the questionnaire type that is most relevant to your firm's role in the market. **Data tables, however, in the "alternative production information" section should be completed in all relevant questionnaire types.**

V-1. **Comparability of in-scope TRBs and out-of-scope TRBs.**--For each of the following indicate whether in-scope TRBs and out-of-scope TRBs are: fully comparable or the same, *i.e.*, have no differentiation between them; mostly comparable or similar; somewhat comparable or similar; never or not-at-all comparable or similar; or no familiarity with products.

- F: fully comparable or the same, *i.e.*, have no differentiation between them;

RECONCILIATION OF SHIPMENTS, PRODUCTION, AND INVENTORY.--Generally, the data reported for the end-of-period inventories (i.e., line L) should be equal to the beginning-of-period inventories (i.e., line B), plus production (i.e., line C), less total shipments (i.e., lines D, F, H, and J). Please ensure that any differences are not due to data entry errors in completing this form, but rather reflect your firm's actual records; and, also provide explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

³ Identify your firm's principal export markets: _____.

V-6. **Employment data.**--Report your firm's employment-related data related to the production of all TRBs combined and provide an explanation for any trends in these data.

"Production and Related Workers" (PRWs) includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations.

Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12. For the January to March periods, calculate similarly and divide by 3.

"Hours worked" includes time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight time hours.

"Wages paid" --Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

Provide data for your firm's three most recently completed fiscal years, and for the specified interim periods. If your firm was involved in tolling operations (either as the toller or as the tollee), please contact Charles Yost at (202) 205-3432 before completing this section of the questionnaire.

Report your firm's revenue and related cost information on other parts of TRBs that cannot be converted into bearing equivalent quantities.¹ Do not report here (i.e., double-count) any parts that were reported in question V-7 including when embodied in an assembly, cup, or complete TRB or further processed TRB such a wheel hub that is already reported in V-7 (i.e., do NOT report "internal consumption" here for merchandise reported in a more finalized form in V-7).

V-9. Reconciliation of trade and financials.

RECONCILIATION OF TRADE VS FINANCIAL DATA.--Please ensure that the quantities and values reported for total shipments in V-2 equal the quantities and values reported total net sales in V-7 in each time period and that the values reported for total shipments in V-5 equal the values reported total net sales in V-8 in each time period unless the financial data are reported on a calendar year basis, in which case only the interim periods must reconcile perfectly. If the calculated fields below return values other than zero (i.e., "0") and both are being reported on a calendar basis, please explain the discrepancy below.

If your firm does not maintain some or all of the specific asset information necessary to calculate total assets for all TRBs combined in the normal course of business, please estimate this information based upon a method (such as production, sales, or costs) that is consistent with relevant cost allocations in question V-7. Provide data as of the end of the specified three calendar years.

Note: Total assets should reflect net assets after any accumulated depreciation and allowances deducted.

Total assets should be allocated to the subject products if these assets are also related to other products. Please provide a brief explanation if there are any substantial changes in total asset value during the period; e.g., due to asset write-offs, revaluation, and major purchases.
