PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to petitions filed on March 6, 2019, by the American Kitchen Cabinet Alliance. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce (“Commerce”) makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://usitc.gov/investigations/701731/2019/wooden_cabinets_and_vanities_china/final.htm

Wooden cabinets and vanities covered by these investigations are wooden cabinets and vanities that are for permanent installation (including floor mounted, wall mounted, ceiling hung or by attachment of plumbing), and wooden components thereof. Wooden cabinets and vanities and wooden components are made substantially of wood products, including solid wood and engineered wood products (including those made from wood particles, fibers, or other wooden materials such as plywood, strand board, block board, particle board, or fiberboard), or bamboo. Wooden cabinets and vanities consist of a cabinet box (which typically includes a top, bottom, sides, back, base blockers, ends/end panels, stretcher rails, toe kicks, and/or shelves) and may or may not include a frame, door, drawers and/or shelves. Subject merchandise includes wooden cabinets and vanities with or without wood veneers, wood, paper or other overlays, or laminates, with or without non-wood components or trim such as metal, marble, glass, plastic, or other resins, whether or not surface finished or unfinished, and whether or not completed.

Wooden cabinets and vanities are covered by the investigation whether or not they are imported attached to, or in conjunction with, faucets, metal plumbing, sinks and/or sink bowls, or countertops. If wooden cabinets or vanities are imported attached to, or in conjunction with, such merchandise, only the wooden cabinet or vanity is covered by the scope.

Subject merchandise includes the following wooden component parts of cabinets and vanities: (1) wooden cabinet and vanity frames (2) wooden cabinet and vanity boxes (which typically include a top, bottom, sides, back, base blockers, ends/end panels, stretcher rails, toe kicks, and/or shelves), (3) wooden cabinet or vanity doors, (4) wooden cabinet or vanity drawers and drawer components (which typically include sides, backs, bottoms, and faces), (5) back panels and end panels, (6) and desks, shelves, and tables that are attached to or incorporated in the subject merchandise.

Subject merchandise includes all unassembled, assembled and/or “ready to assemble” (RTA) wooden cabinets and vanities, also commonly known as “flat packs,” except to the extent such merchandise is already covered by the scope of antidumping and countervailing duty orders on Hardwood Plywood from the People's Republic of China. See *Certain Hardwood Plywood Products from the People's Republic of China: Amended Final Determination of Sales at Less Than Fair Value, and Antidumping Duty Order*, 83 FR 504 (January 4, 2018); *Certain Hardwood Plywood Products from the People's Republic of China: Countervailing Duty Order*, 83 FR 513 (January 4, 2018). RTA wooden cabinets and vanities are defined as cabinets or vanities packaged so that at the time of importation they may include: (1) wooden components required to assemble a cabinet or vanity (including drawer faces and doors); and (2) parts (e.g., screws, washers, dowels, nails, handles, knobs, adhesive glues) required to assemble a cabinet or vanity. RTAs may enter the United States in one or in multiple packages.

Subject merchandise also includes wooden cabinets and vanities and in-scope components that have been further processed in a third country, including but not limited to one or more of the following: trimming, cutting, notching, punching, drilling, painting, staining, finishing, assembly, or any other

processing that would not otherwise remove the merchandise from the scope of the investigation if performed in the country of manufacture of the in-scope product.

Excluded from the scope of this investigation, if entered separate from a wooden cabinet or vanity are:

(1) Aftermarket accessory items which may be added to or installed into an interior of a cabinet and which are not considered a structural or core component of a wooden cabinet or vanity. Aftermarket accessory items may be made of wood, metal, plastic, composite material, or a combination thereof that can be inserted into a cabinet and which are utilized in the function of organization/accessibility on the interior of a cabinet; and include:

- Inserts or dividers which are placed into drawer boxes with the purpose of organizing or dividing the internal portion of the drawer into multiple areas for the purpose of containing smaller items such as cutlery, utensils, bathroom essentials, etc.
- Round or oblong inserts that rotate internally in a cabinet for the purpose of accessibility to foodstuffs, dishware, general supplies, etc.

(2) Solid wooden accessories including corbels and rosettes, which serve the primary purpose of decoration and personalization.

(3) Non-wooden cabinet hardware components including metal hinges, brackets, catches, locks, drawer slides, fasteners (nails, screws, tacks, staples), handles, and knobs.

(4) Medicine cabinets that meet all of the following five criteria are excluded from the scope: (1) wall mounted; (2) assembled at the time of entry into the United States; (3) contain one or more mirrors; (4) be packaged for retail sale at time of entry; and (5) have a maximum depth of seven inches.

Also excluded from the scope of this investigation are:

(1) All products covered by the scope of the antidumping duty order on Wooden Bedroom Furniture from the People's Republic of China. See Notice of Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order: Wooden Bedroom Furniture from the People's Republic of China, 70 FR 329 (January 4, 2005).

(2) All products covered by the scope of the antidumping and countervailing duty orders on Hardwood Plywood from the People's Republic of China. See *Certain Hardwood Plywood Products from the People's Republic of China: Amended Final Determination of Sales at Less Than Fair Value, and Antidumping Duty Order*, 83 FR 504 (January 4, 2018); *Certain Hardwood Plywood Products from the People's Republic of China: Countervailing Duty Order*, 83 FR. 513 (January 4, 2018).

Imports of subject merchandise are classified under Harmonized Tariff Schedule of the United States (HTSUS) statistical numbers 9403.40.9060 and 9403.60.8081. The subject component parts of wooden cabinets and vanities may be entered into the United States under HTSUS statistical number 9403.90.7080. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of this investigation is dispositive.

Cabinets consist of a cabinet box (which typically includes a top, bottom, sides, back, base blockers, ends/end panels, stretcher rails, toe kicks, and/or shelves) and may or may not include a frame, door, drawers and/or shelves that are usually found in the kitchen.

Vanities consist of a cabinet box (which typically includes a top, bottom, sides, back, base blockers, ends/end panels, stretcher rails, toe kicks, and/or shelves) and may or may not include a frame, door, drawers and/or shelves that are usually found in the bathroom.

Full units are (1) fully assembled wooden cabinets and vanities and/or (2) RTA "flat packs" of wooden cabinets and vanities containing all the necessary components for fully assembled wooden cabinets or vanities.

Components are specifically the parts of cabinets and vanities such as: wooden cabinet and vanity frames; the cabinet box; wooden cabinet or vanity doors; and wooden cabinet or vanity drawer and drawer components. This does not include any accessories that are excluded from the scope of these investigations (e.g., moldings and carven wooden accessories).

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, purchaser and/or foreign producer questionnaire), you need not respond to duplicated questions.

Confidentiality.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. §1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

Verification.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

Valid number error messages.--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from **Calvin Chang** (202-205-3062, calvin.chang@usitc.gov).

II-11. **Other explanations.**--If your firm would like to further explain a response to a question in Part II for which a narrative box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

Correcting Valid number error messages.--If you are completing a Commission questionnaire in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The US International Trade Commission's questionnaires are set-up in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Format tab
- Change the Format from your existing one (e.g. "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the USITC foreign producer questionnaire form. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a “fillable” form in MS Word format on the Commission’s website at:

https://usitc.gov/investigations/701731/2019/wooden_cabinets_and_vanities_china/final.htm

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

- **Upload via Secure Drop Box.**—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission’s secure upload facility:

Web address: <https://dropbox.usitc.gov/oinv/> **Pin:** **CABN**

- **E-mail.**—E-mail your questionnaire to calvin.chang@usitc.gov; include a scanned copy of the signed certification page (page 1). *Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm’s nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.*

If your firm did not produce or export this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

Parties to this proceeding.—If your firm is a party to this proceeding, you are required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (*see* 19 CFR § 207.7). A list of such parties may be obtained from the Commission’s Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (*see* 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
