

Attachment 1e. Third Reminder Email for Landscape Assessment Survey

Subject line: 3rd Reminder: Please complete the CDC's National Diabetes Prevention Program Introductory Session Landscape Assessment

Dear [Name of Point-of-Contact],

We recently sent you an email asking you to participate in a survey (the **Introductory Session Landscape Assessment**) about your CDC-recognized National Diabetes Prevention Program (DPP) lifestyle change program (e.g., introductory session characteristics, recruitment strategies) and characteristics of your community.

The survey will take only a few minutes of your time and will help provide the CDC with a better understanding of the types of introductory sessions (also known as "session zeros") being offered as a recruitment strategy to increase enrollment in the National DPP lifestyle change program.

[Click Here to Start the Survey](#) {full unique link}

Your unique link will allow you to save your responses in case you need to complete the survey in more than one sitting. Your responses will be kept confidential. Names of individuals or organizations will not be released, and your survey results will only be reported in combination with all other responses. Choosing not to participate will not have any effect on your CDC Diabetes Prevention Recognition Program (DPRP) recognition or CDC grantee status. If you experience any challenges accessing the survey, please contact [name] at [email or phone].

Sincerely,

Deborah Porterfield, MD, MPH, Project Director
