

Attachment 12: CIRP HERI Freshman Survey

Public reporting burden for this collection of information is estimated to average 45 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. **An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.** Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0747). Do not return the completed form to this address.

THE CIRP FRESHMAN SURVEY INFORMATION SHEET

PURPOSE OF THE STUDY

You are asked to complete this survey as part of the Enhance Diversity Study, a national study on student experiences and career choices. Your school is part of this study, conducted by the Diversity Program Consortium (Co-Principal Investigator: Keith Norris, MD, PhD, Teresa Seeman, PhD, and Steven P. Wallace, PhD) in partnership with the Higher Education Research Institute (HERI) at the University of California, Los Angeles. This study is designed to determine what happens to students when they attend college. Since 1966, over 15 million students at over 1,900 colleges and universities have participated in this research. The data gathered are used in studies designed to better understand student learning and development and to help improve the quality of college education.

PROCEDURES

To participate in this study, please complete and submit the attached survey. Most respondents complete this questionnaire in about 25 minutes, although individual progress will vary by how quickly you move through the questions.

By taking this survey, you are giving permission for your school to share information from your student record such as demographics, the courses you take and the grades you receive in your courses with the UCLA team (for information on item details, visit http://stembuild.umbc.edu/DPC_Survey_Details/). You are also giving the UCLA team permission to share the information you provide on the survey with your institution for their review of local programs and to allow UCLA to contact you every year or so for follow-up surveys to understand your career choices after you leave your school. You may decide not to complete the survey for any reason at any time without consequence of any kind.

POTENTIAL BENEFITS TO SUBJECTS AND/OR SOCIETY

You will receive a \$5 Amazon card by email if you complete the survey. You may have the opportunity to reflect on your prior academic experiences and your expectations for college as you complete the survey, which may enhance self-understanding. Your responses to the survey also will be directly beneficial to your college or university, and may benefit future generations of college students as well.

POTENTIAL RISKS AND DISCOMFORTS

There could be survey items that you are uncomfortable answering or to which you would simply prefer not to respond. Your participation in this study is strictly voluntary, and you will be under no obligation whatsoever to answer any questions that you are not inclined to answer. You may choose not to answer any specific questions you do not want to answer and still remain in the study.

CONFIDENTIALITY

Please note that your responses will be used for research purposes only and will be strictly confidential. Any information that is obtained in connection with this study and that can be identified with you will remain confidential. Your identified responses will be returned to your institution for institutional assessment purposes. Your responses will also be shared with members of the Diversity Program Consortium to understand how well students are prepared for and succeeding in biomedical research careers.

Information about you is protected by a federal Certificate of Confidentiality. This means that we cannot be forced to release information about you for any legal proceeding, even if a court of law asks.

The Certificate allows us to use information about you for purposes of this research, or to disclose it for other research when allowed by law. The Certificate requires other researchers to also protect information we share with them.

There are limits to this protection. The Certificate does not protect your information when:

- You or your family voluntarily release information about yourselves.

- You consent to release of information (for example, the uses described in this form, or if you sign release forms for employment, insurance or medical care).
- A federal agency audits or evaluates research that it funds.
