OMB #0925-0747 EXP. 11/2019

Attachment 11: NRMN Logic Model Phase I

National Research Mentoring Network (NRMN) Simplified Logic Model, Key Outcomes, Most Important Outcomes, and Evaluation/Research Questions Being Addressed Phase I

Mission: To promote and provide mentoring to diversify the biomedical workforce

Overarching Goal: To significantly contribute to national efforts of increasing the size, quality, diversity, and research productivity of the biomedical workforce trained to improve human health

Program Components, Goals, & Outputs		Key Outcomes and Impacts	R	esearch and Evaluation Questions NRMN Will Address		
Key Program Outputs	Phase I Participants (estimated)	Key Outcomes *Most Important Outcome (MIO)		**Requires coordinated NRMN and CEC data		
MATCHING/ LINKING						
# participants registered on NRMNet.net	5,597	 A national network for diverse mentors and mentees who connect virtually and face-to-face* Greater career persistence in biomedical sciences among under-represented groups. Greater self-efficacy in ability to succeed in biomedical careers. 	t	Do mentees who register for NRMNet and access additional mentors through the NRMN Network self-report increased self-efficacy in their		
# mentees and mentors engaged in relationships initiated or supported in any way across all NRMN programs	7,500		t • [ability to succeed in a biomedical career and go on to persist in biomedical science?** Do mentees who engage in the NRMN Virtual Guided Mentorship Program or My NRMN activities (e.g. individual networks, groups functions) self-report increased access to mentors and an expanded mentoring network? **		
# mentors and mentees actively networking in MyNRMN	1,000					
# mentors and mentees matched through a Virtual Guided Mentorship Program	316					
TRAINING						
# early career faculty trained in grant writing	coaching for early career faculty*coaching self-report increased skills, knowledge, and self grant writing and subsequently submit and receive more (compared to the rates in the Ginther report)? (**after 2)	Do early career faculty who engage in intensive grantsmanship coaching self-report increased skills, knowledge, and self-efficacy in grant writing and subsequently submit and receive more grants (compared to the rates in the Ginther report)? (**after 18 months)				
		disciplines*	0	Do mentors who engage in training through NRMN (and in some cases certified) self-report increased knowledge, skills and self- efficacy in their ability to maximize their mentoring relationships in a		
# mentors trained	2,700		culturally responsive manner? Do these increases correlate with			
# individuals certified as NRMN or NRMN Master mentors	200					

National Research Mentoring Network (NRMN) Simplified Logic Model, Key Outcomes, Most Important Outcomes, and Evaluation/Research Questions Being Addressed Phase I

# mentees trained	700	 maintaining effectiveness of mentoring relationships. Greater advocacy for mentorship Increased commitment to cultural awareness in promoting diversity in biomedical research. 	 Do mentees who engage in training through NRMN self-report increased knowledge, skills and self-efficacy in their ability to maximize their mentoring relationships? Do mentees rate their relationships with NRMN trained mentors as more effective than mentees working with mentors not NRMN trained mentors?**
		REFERRING	
 # organizations and institutions actively partnering with NRMN # unique resources made widely available on the NRMNet # of access hits across resources on NRMNet 	40 45 3,300 page views per week	 Resources for mentors and mentees across career stages and disciplines* Increased pool of high quality, audience-valued, targeted resources available to diverse individuals across career stages pursuing biomedical careers* 	 Do mentees who register on NRMNet and access additional resources through the NRMN Network of organizations and partnering institutions self-report increased self-efficacy in their ability to succeed in a biomedical career and persist in biomedical science?** Do mentors and institutional officials who engage in trainingthrough NRMN self-report increased efficacy in navigating and referring scholars to mentoring resources on NRMNet?**
		PROMOTING	
 # faculty trained as grant writing coaches # facilitators trained to implement mentor and 	100 500	100 A national organization with a core infrastructure advancing the science of	 Do grantsmanship coaches report increased knowledge, skills and self-efficacy in teaching others to be more effective grant writers? Do these coaches expand the impact of NRMN through implementation of their skills within their own institutions/ organizations and beyond? Do mentor/mentee training facilitators report increased knowledge, skills and self-efficacy in teaching others to be more effective mentors/mentees? Do these facilitators expand the impact of NRMN through implementation of their skills within their own institutions/ organizations and beyond? Do these facilitators expand the impact of NRMN through implementation of their skills within their own institutions/ organizations and beyond? Does effectiveness of their training and extent of their impact correlate with level/ type of facilitator training, critical mass of facilitators in their institution/ organization and perceived institutional/ organizational barriers? Do institutional change agents (e.g. AAMP Pioneers, Mentoring Academy participants, master facilitators) engage in activities, which increase the attention to/ support for mentoring program at their institution/ organization?
