

Exploring Analgesic Properties of Minor Cannabinoids & Terpenes

Registration Form Screenshots – September 3, 2020

http://nccih_cbd_workshop.eventbrite.com/

The screenshot shows an Eventbrite event page. At the top, the Eventbrite logo is on the left, and navigation links for 'Browse Events', 'Create Event', 'Help', and 'Sign In' are on the right. Below the navigation is a search bar. The main event banner features a green and blue background with a stylized leaf and a circular graphic. The text on the banner includes the NIH logo, 'National Center for Complementary and Integrative Health', and the event title 'Cannabinoids/ Terpenes and Pain'. To the right of the banner, the date 'OCT 23' is displayed, followed by the event title 'Exploring Analgesic Properties of Minor Cannabinoids & Terpenes' and the organizer 'by National Center for Complementary and Integrative Health'. A 'Follow' button is present. Below the banner, a green 'Register' button is visible. The event details section includes the full title 'NCCIH Workshop 2020: Exploring the Mechanisms Underlying Analgesic Properties of Minor Cannabinoids and Terpenes', the date and time 'Fri, October 23, 2020 9:45 AM - 3:00 PM EDT', and the location 'Online Event'. The 'About this Event' section describes the workshop's goals and alignment with NCCIH's mission. The 'Agenda' section lists the schedule from 9:45 AM to 1:00 PM, including welcome, overview, data blitz presentations, Q&A sessions, and a lunch break.

Location
Online Event

About this Event

The overall goals of this workshop are two folds—one is to convene principal investigators funded by NCCIH on the topic of the analgesic properties of minor cannabinoids and terpenes from natural products and the underlying mechanisms; and the other is to discuss current research barriers and opportunities on this topic. This workshop is aligned with NCCIH's mission to support research on the fundamental science, safety, and usefulness of complementary and integrative health approaches. Specifically, minor cannabinoids and terpenes from natural products are part of complementary interventions supported by NCCIH. The workshop is also aligned with NCCIH's strategic goals of advancing understanding of basic biological mechanisms of action of natural products and improving care for hard-to-manage symptoms, such as pain.

Agenda

9:45-9:50 | Welcome from NCCIH

- Dr. Helene Langevin and Dr. David Shurtleff

9:50-10:00 | Meeting Overview and Goals

- Dr. Emmeline Edwards

10:00-11:00 | Data blitz presentations on the non-clinical studies funded by NCCIH Cannabinoid & Pain FOA

- 5-min presentations by Drs. Ward, Ding, Ellington, Quave, Sarlah, Wiley, He

Q & A session on non-clinical studies

Moderator: Dr. Inna Belfer

General topic: achievements in pre-clinical research

11:00-11:15 | Break

11:15-12:00 | Data blitz presentations on the clinical studies funded by NCCIH Cannabinoid & Pain FOA

- 5-min presentations by Drs. Radhakrishnan, Yurgelun-Todd, Hellman, Cooper, Harris

Q & A session on clinical studies

Moderator: Dr. Angela Arensdorf

General topic: gaps and opportunities for clinical research

12:00-1:00 | Lunch Break

Exploring Analgesic Properties of Minor Cannabinoids & Terpenes Registration Form Screenshots – September 3, 2020

http://nccih_cbd_workshop.eventbrite.com/

1:00-1:30 | Keynote presentation: Overview on cannabis & pain research in Canada: how researchers in Canada navigate the landscape of legislation and regulatory hurdles. Best practices in evaluation of the risks and potential benefits of cannabinoids for analgesia

- Dr. Mark Ware, Canada

Introduction by Dr. David Shurtleff

1:30-1:45 | Q & A session for keynote speaker

Moderator: Dr. Emmeline Edwards

1:45-2:30 | Panel on remaining gaps in knowledge and future directions in the science of cannabis and pain & co-morbid conditions; follow-up on 2018 ACNP Cannabinoid Policy and Research discussions

Panelists & discussion topics:

- Dr. Inna Belfer (NCCIH): NCCIH perspective on cannabinoid research: current and future program priorities
- NIDA, NCI, NIAAA, NINDS, NIMH presentations: each IC perspective on cannabinoid research: balancing the need for federal regulation and research
- FDA presentation: FDA perspective on cannabinoid research: supporting academic scientists and industry start-ups
- DEA presentation: DEA perspective on cannabinoid research in light of legislation changes
- NIDA Drug Supply Program presentation: Availability of the resources for cannabinoid research (supply, new formulations, technologies)

2:30-3:00 | Q & A session for the panelists

Moderator: Dr. David Shurtleff

3:00 | Adjournment

OMB No.: 0925-0740

Expiration Date: 07/31/2022

Public reporting burden for this collection of information is estimated to average 10 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0740). Do not return the completed form to this address.
