INSTRUCTIONS FOR FORM CMS-3427

PART I – DOCUMENTATION NEEDED TO PROCESS FACILITY APPLICATION/NOTIFICATION TO BE COMPLETED BY APPLICANT

A completed request for approval as a supplier of End Stage Renal Disease (ESRD) services in the Medicare program (Part I – Form CMS-3427) must include a copy of the Certificate of Need approval, if such approval is required by the state.

TYPE OF APPLICATION (ITEM 1)

Check appropriate category. A "change of service" refers to an addition or deletion of services, e.g. home dialysis, dialysis in LTC, dialyzer reuse, in-center nocturnal HD, in-center PD, etc. "Expansion" refers to addition of in-center stations. If you relocate one of your services to a different physical location, you may be required to obtain a separate CCN for that service at the new location.

IDENTIFYING INFORMATION (ITEMS 2-19)

Enter the name and address (actual physical location) of the dialysis facility where the services are performed. If the mailing address is different, show the mailing address in Remarks (Item 33). Check the applicable blocks (Item 17 and Item 18) to indicate the dialysis facility's hospital and/or SNF/NF affiliation, if any. If so, enter the CCN of the hospital and/or SNF/NF. Check whether the dialysis facility is owned and/or managed by a "multi-facility" organization (Item 19) and provide the name and address of the parent organization. A "multi-facility organization" is defined as a corporation or a LLC that owns more than one dialysis facility.

TYPES OF MODALITIES/SERVICES, DIALYSIS STATIONS, AND DAYS/HOURSOF OPERATION (ITEMS 20-29)

Check the modalities/services that are already offered ("current modalities/services") by a dialysis facility requesting recertification (*Item 20*). Check N/A or check each <u>NEW</u> modality/service for which you are requesting approval. Any new modality/service must be requested on the CMS-3427 and filed with the State agency. At the time of survey, one permanent patient must be on the dialysis facility's census in-center or in training/trained by the facility for each modality requested (*Item 21*). Note that dialysis facilities providing home therapies must provide both training and support. If you are requesting to offer home training and support and support program (*Item 21*), you must have a functional plan/arrangement to provide backup dialysis as needed. If you request <u>any</u> home training and support program (*Item 21*), you must also indicate "Yes" for a training room (only count stations for in-center dialysis, not for home training) (*Item 24*). If you currently provide or support home dialysis within one or more LTC facilities (SNF/NF), complete *Item 22* and list for all LTCs: name, CCN, staffing provided by, and number of dialysis patients treated by modality under Remarks (*Item 33*). Notifications of any agreement initiated between the facility and a LTC facility for providing home dialysis to residents within any LTC facility require completion of *Item 22* (and 33 if applicable) and submission of this form to the State agency. You must answer *Yes* (*Item 22*) and have at least one LTC dialysis resident for addition of services for home dialysis in LTC. Enter the number of additional in-center stations for which you are asking approval (*Item 25*). Provide information on isolation (*Items 26-27*). Dialysis facilities not existing prior to October 14, 2008 which do not have an isolation room must attach evidence of CMS waiver and written agreement with geographically proximal facility with isolation room. Provide current information on all days and start time for the first shift and end time for

STAFFING (ITEM 30)

"Other" includes non-certified patient care technicians, administrative personnel, etc. To calculate the number of full-time equivalents of any discipline (*Item 30*), add the total number of hours that all members of that discipline work at this dialysis facility and enter that number in the numerator. Enter into the denominator the number of hours that facility policy defines as full-time work for that discipline. Report FTEs in 0.25 increments only. Example: An RD works 20 hours a week at Facility A. Facility A defines full time work as 40 hours/week. To calculate FTEs for the RD, divide 20 by 40. The RD works 0.50 FTE at Facility A.

LICENSING AND CERTIFICATE OF NEED, IF APPLICABLE (Items 31-32)

If your state requires licensing for ESRD facilities, include your current license number in Item 31. If your state requires a Certificate of Need (CON) for an initial ESRD or for the change you are requesting, mark the applicable box in Item 32 and include a copy of the documentation of the CON approval.

REMARKS (ITEM 33)

You may use this block for explanatory statements related to Items 1-32.

The administrator/medical director signs and dates. Upon completion, forward a copy of form CMS-3427 (Part I) to the State agency.

PART II - TO BE COMPLETED BY STATE AGENCY

The surveyor should review and verify the information in Part I with administrator or medical director and complete Part II of this form.

Recognize that CMS cannot issue a CCN for an initial survey until all required steps are complete, including recommended approval of the CMS-855A by the applicable MAC. Complete the Statement of Deficiencies (CMS Form 2567) in ASPEN. Complete the CMS-1539 in ASPEN entering recommended action(s). All required information must be entered in ASPEN and uploaded in order for the survey to be counted in the state workload.
