Instrument 3 -- Continuum of Care Survey

Addressing the Housing Needs of Youth Who Age Out of Foster Care

(CoC)

A team of researchers from the Urban Institute and Chapin Hall at the University of Chicago is working with the U.S. Department of Health and Human Services, Administration for Children and Families (ACF), in cooperation with the U.S. Department of Housing and Urban Development (HUD), to learn about how communities are using the Family Unification Program (FUP) to serve youth who were in foster care. We are not evaluating your CoC or its programs. This information will be used to inform efforts by ACF and the US Department of Housing and Urban Development (HUD) to improve the administration of FUP. Participation in this information collection is voluntary. Responses will be kept private to the extent permitted by law.

As part of this project, the research team is conducting a web-based survey of Continuums of Care (CoC), public housing agencies (PHAs), and public child welfare agencies (PCWA) in communities that provide FUP vouchers to youth who were in foster care.

The purpose of this survey is to learn how FUP vouchers are being used to address the housing needs of those youth and to identify any unique benefits or challenges your CoC has experienced serving this population in partnership with your local PHA and PCWA. In this survey, we will ask questions about your implementation of FUP, your CoC's collaboration with the PCWA and PHA, how your CoC identifies and refers FUP-eligible youth, housing options for youth who age out of foster care, your experiences providing services for FUP-eligible youth, and your perspectives on FUP-related policies and practices.

If your agency has contracted with separate organizations to provide supportive services to youth with FUP vouchers, please note that some questions may be better addressed by that organization. You may wish to ask that organization to complete those sections (by sharing your log-in information) or provide you with the relevant information.

This survey should take about 35 minutes to (complete. If you cai	nnot complete the	survey in one sitting,
you may save your place in the survey and fin	nish it at a later time	e. Please note, how	ever, that the survey
needs to be completed by	_•		

Thank you in advance for responding to this survey. Your responses will help the Administration for Children and Families and HUD better understand how communities are using FUP vouchers to address the housing needs of youth who age out of care.

Please contact XXX, (XXX) XXX-XXXX or XXXX@urban.org, at the Urban Institute with any questions about the survey.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number for this information collection is 0970-0XXX and the expiration date is XX/XX/XXXX.
