INTRODUCTION

Introduction:

My name is [NAME], I work at Mathematica. The U.S. Department of Health and Human Services, Administration for Children and Families has contracted with Mathematica to conduct this study to Assess the Implementation and Cost of High Quality Early Care Education (ECE-ICHQ). Thank you for agreeing to participate in our study. This study will produce measures of implementation and costs that help us better understand how early childhood programs use their resources to make a difference for children's early childhood experiences and development. This interview collects information on what your center is doing to provide early care and education services for children ages 0-5. The information we gather through this interview will be used to help estimate the implementation activities that a center does to support quality.

Do you have any questions for me before we get started?

We have several questions for you about:

1. Center resources
2. Instructional planning, coordination, and child assessment
3. Instruction and caregiving
4. Workforce development
5. Center administration and planning and
6. Child and family support

We have scheduled this interview in two, one and a half hour sessions. We expect that it will take 3 hours to complete this interview. If you prefer to break the interview up into more than two sessions, we will work to accommodate your schedule.

Taking part in ECE-ICHQ is voluntary. The information in this study will be used only for research purposes and in ways that will not reveal who you are or identify your center. Federal or state laws may require us to show information to government officials (or sponsors) who are responsible for monitoring the safety of this study. Neither you or your center will be identified in any publication from this study.

Is it okay with you if I record this conversation to ensure that I capture your response accurately?

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB number for this information collection is 0970-0499 and the expiration date is 11/30/2022.

INTERVIEWER: IF YOU HAVE NOT GOTTEN THROUGH SECTION N. STAFFING AT 1 HOUR AND 10 MINUTES INTO THE FIRST INTERVIEW CALL, PLEASE SKIP AHEAD TO THAT SECTION OF QUESTIONS. IF THE RESPONDENT IS NOT ABLE TO ANSWER THE QUESTIONS ABOUT STAFF QUALIFICATIONS DURING THE CALL, IT WILL BE NECESSARY TO FOLLOW-UP WITH AN EMAIL (AFTER THE FIRST INTERVIEW AND BEFORE THE SECOND) TO COLLECT THIS INFORMATION.

First, we would like information on the sources of financial support for your center.

A5. We are interested in learning about all the various sources of financial support to your center.

INTERVIEWER: NOTE THAT INFORMATION IN THE NEXT QUESTION (A5a) WAS COLLECTED DURING CENTER RECRUITMENT TO ASSESS CENTER CHARACTERISTICS PRIOR TO DATA COLLECTION. REVIEW THIS INFORMATION PRIOR TO THE CALL AND DOUBLE CHECK IT WITH THE RESPONDENT DURING THE CALL. THIS WILL ALSO HELP TO GENERATE DISCUSSION ABOUT CENTER FUNDING ASKED IN QUESTIONS A5b AND A5c.

Therapeutic services

AD7. Does the center support access to or provide therapeutic services? If yes, what types of therapeutic services does the center support access to or provide?

PROBES (IF NEEDED):

Therapeutic services refers to services provided to children (or family members) who have a diagnosed condition, often arising as a barrier to a child's (or family member's) development.

Speech and language or auditory therapy services are focused on improving speech, communication, processing of language, and feeding skills.

Occupational therapy (OT) services are focused on promoting normal development and (age-appropriate) daily living skills. OT involves interventions to address delays or difficulties with motor skills, play skills, and sensory processing skills, attention, or behavior.

Physical therapy (PT) services are focused on restoring mobility, promoting function and healing, and providing education and consultation to children and families. PT focuses on improving gross motor skills.

Cognitive and/or behavioral therapy services are designed for children with autism or conditions that affect their behavior (OCD, ADHD). These services may include Cognitive Behavioral Therapy (CBT) and Applied Behavioral Analysis (ABA).

Nutrition involves dieticians counseling children and their families on a variety of nutritional issues, such as failure to thrive, feeding tube adjustments, weight management, food allergies, and therapeutic diets.
