

Instructions for Terrorism Risk Insurance Program (TRIP) 2019 Data Call Alien Surplus Lines Insurers

Form Overview

This reporting form is for Alien Surplus Lines Insurers that are not affiliated with a group that is otherwise required to complete the reporting template for either Insurer (Non-Small) Groups or Companies, or Small Insurers.

- If the Alien Surplus Lines Insurer is affiliated with a group, the experience of the Alien Surplus Lines insurer should be reported with that group on either the *Insurer (Non-Small) Groups or Companies* or *Small Insurers* template.
- If the Alien Surplus Lines Insurer is not affiliated with a group, it should complete this *Alien Surplus Lines Insurers* template.
- In addition, Federally Approved Insurers [see 31 CFR 50.4(o)(1)(i)(C)] should complete this form, subject to the specific instructions identified herein.

General Guidelines

- All information should be reported on a consolidated insurer group basis, unless reporting for a single insurer.
- When providing premium on a jurisdictional basis, premium should be allocated in the same fashion that it is for state reporting and premium tax purposes. Accordingly, coverage written on a non-admitted, surplus lines basis may be allocated in full to the home state of the policyholder, as defined by the Nonadmitted and Reinsurance Reform Act.
 - **Note:** This allocation method should not be applied on the Geographic Exposures worksheet, which seeks information based upon the location of the exposure, regardless of the manner in which the premium may have been allocated.
- For Federally Approved Insurers that do not report or charge premium in the conventional sense, provide anticipated Total Call figures as issued for the year in question to represent the relative premium for the insurance provided.
- When providing premium on a jurisdictional basis, for premium which is otherwise not allocable to a particular jurisdiction (e.g.: certain Ocean Marine, Inland Marine, and Aviation coverages; or coverages based upon foreign operations with a U.S. nexus), report this premium under "Other/Not Subject to Allocation in a Particular Jurisdiction."
- DEP should be included in this calculation to the extent that commercial property and casualty coverage is issued for losses occurring at the following locations: (1) Within the United States; (2) With respect to an air carrier (as defined in section 40102 of title 49, United States Code), or a United States flag vessel (or a vessel based principally in the United States, on which United States income tax is paid and whose insurance coverage is subject to regulation in the United States); and (3) At the premises of any U.S. mission.
- TRIP-eligible lines to be included in DEP calculations generally correspond to NAIC lines (as reported on the *NAIC Exhibit of Premiums and Losses*, commonly known as Statutory Page 14). Alien Surplus Lines Insurers completing this form are permitted to report using identified reporting lines that they otherwise typically employ in their operations. The information reported

on this worksheet should only include TRIP-eligible DEP. Any amounts otherwise reported for other purposes by Alien Surplus Lines Insurers in connection with the lines identified on the reporting template that are not within the scope of TRIP-eligible lines as defined by the Program regulations should not be reported here. Specifically:

- “Fire and Other Damage to Property” should not include federal crop insurance or any other type of crop insurance privately issued or reinsured.
- “General Liability” should not include Professional Errors and Omissions Liability Insurance [see 31 CFR 50.4(t)].
- Information is sought concerning policies that will or would have responded to “certified acts of terrorism” during the reporting period. The fact that the policy did **not** in fact make payments for claims associated with any certified acts of terrorism is not relevant to the obligation to report information.
- Policy count should be calculated based on the number of policies incepting in 2018 (or in effect for the entire year). For reporting other elements apart from DEP, where the reporting of information (e.g., exposures) under policies in effect during 2018 would result in double counting for the year as a whole, utilize a reporting date of December 31, 2018.
- Information subject to reporting under the Standalone Terrorism (Nationwide) Worksheet and Cyber (Nationwide) Worksheet should be considered a subset of an insurer’s TRIP-eligible policies, and should also be reported on additional worksheets, as appropriate.
- All exposure information should be reported gross of any private reinsurance, except where otherwise indicated.
- Questions on the Reinsurance (Nationwide) Worksheet are limited to reinsurance purchased from unaffiliated third-party companies, and do not include reinsurance transactions within a group of affiliated insurers.
- Blacked out cells indicate that no data will be reportable for that particular cell.
- Hypothetical policy situations demonstrating proper data completion are available on the TRIP website (https://www.treasury.gov/resource-center/fin-mkts/Pages/TRIP_data.aspx).

Section	Field Name	Comments
B3-B30	Region	This field shows the specified metropolitan regions of the United States (Cells B3-B28) for which exposure information should be recorded. • Locations not listed in the identified metropolitan areas (including territories) should be listed in Row 29. • Policies for which location information is not available should be recorded in Row 30. • Although information is sought on other worksheets by where the premium is allocated for state reporting and tax purposes, the information sought in this sheet should be reported based upon where the exposures are actually located.
C3-C30	Description	This field outlines locations (by ZIP code) in the metropolitan regions listed in Cells B3-B28. • The descriptions are based upon definitions currently in use by private rating agencies. • To the extent the insurance group or company does not track its data in this fashion, report the information by the closest approximation of the U.S. county and city jurisdictions involved. • A complete listing of ZIP codes, counties, and regions is available on the TRIP website (https://www.treasury.gov/resource-center/fin-mkts/Pages/TRIP_data.aspx).
D3-D30	Total 2018 Payroll for TRIP-Eligible Primary WC Policies (Terrorism Risk Coverage Provided)	For each corresponding region listed in Cells B3-B30, provide total 2018 payroll for primary workers' compensation coverage.

G3-G30	Total 2018 TRIP-Eligible Property Exposure (Terrorism Risk Coverage Declined)	For each corresponding region listed in Cells B3-B30, provide total 2018 property insurance exposure, where terrorism risk coverage was not obtained by the policyholder. • Include exposure amounts in this column only if a policy did not provide any coverage subject to TRIP.
C35-C39	ZIP Code of Top 5 Largest Accumulated Exposure Locations by Payroll (Metropolitan Areas)	For each corresponding region, provide the ZIP codes for the top 5 aggregations of payroll exposure within the metropolitan areas included in Rows 3-28. • ZIP codes entered into this field will not necessarily correspond to 5 different regions (an insurer could conceivably have its top 5 aggregations by ZIP code within the same city).

Instructions for Reinsurance (Nationwide) Worksheet

Note: This Worksheet is set up as a questionnaire, with certain amounts requested, yes or no answers sought, and associated explanation to the extent necessary. As a result, and unlike the other worksheets, the data sought may be more easily obtainable from an individual with knowledge of the reinsurance arrangements of the reporting entity, as distinguished from the mechanism of data queries to existing systems. The questions are limited to reinsurance purchased from unaffiliated third-party companies, and do not include reinsurance transactions within a group of affiliated insurers. Figures should include only purchased treaty reinsurance, and not purchased facultative reinsurance.

Lines 27-36	Loss to Group or Company within TRIP Deductible, Private Reinsurance Recovery, Deductible/Retention of Insureds, Claim under TRIP, Co-Pay Obligation	The last series of questions seeks information as to how a particular defined loss event (Line 27) would likely affect the responding insurer group or reporting insurer, in terms of the total projected loss it would likely sustain (Line 30), with that amount divided into six categories: • Deductible or retention obligation of insureds under triggered policies (Line 31); • Net loss to group or company within TRIP deductible, net of policyholder obligations or private reinsurance (Line 32); • Any private reinsurance recovery of amounts within the reporting insurer's deductible (Line 33); • Projected claims under TRIP (Line 34); • The net loss of the insurer group or reporting individual insurer above its deductible within the co-pay obligation (Line 35); and • Any private reinsurance recovery of amounts above the reporting insurer's deductible within the co-pay obligation (Line 36). • Use the definitions, instructions and assumptions found in the Worksheet at Line 27. • Use the blast size within the 5-6 ton range that the insurer typically uses in connection with internal modeling projections. • If the insurer does not typically employ such scenarios, provide estimates using the parameters identified in Line 27. • If the insurer's exposure arises from a layered insurance program involving multiple carriers, in which the reporting insurer has assumed only a portion of the total loss sustained by the policyholder pro-rate the response amounts (including the deductible or retention obligations of the policyholder as requested in Line 31) based on the insurer's level of involvement in the layered program. • Not all reporting insurers will anticipate losses under the stated scenario. • Because the total projected loss (Line 30) is meant to be the sum of the various components identified in Lines 30-34, the figures entered in C30 must equal the sum of the figures entered in C30-C36.
