

strengthening the highway network, this proposed action is intended to stimulate economic growth in Southern Indiana by enhancing access to existing centers of economic activity and creating new opportunities where possible.

The FHWA is using a *tiered* EIS to focus on issues in an organized manner as discussed in the Council of Environmental Quality (CEQ) regulations at 40 CFR 1502.20. The Tier 1 document will include in-depth analysis of environmental, transportation, and economic impacts, as well as cost estimates. This document will provide the basis for FHWA to grant location approval for a specific corridor.

The Tier 2 environmental documents will result from a series of smaller studies for individual sections of the corridor. Within each section of the corridor, specific alignments would be identified and evaluated based upon their social, economic and environmental impacts. The Tier 2 documents would be more closely tailored to address transportation needs within each project section.

A scoping meeting will be held for the regulatory agencies. There also will be several public scoping meetings held at various locations in the project area. Early coordination letters describing the proposed action and soliciting comments will be sent to appropriate Federal, State, and local agencies. As part of the process, public hearings will also be held. Public notice will be given as to the time and place of the meetings and hearings. The public hearings will be held after the draft EIS is available for review.

To ensure that the full range of issues related to this proposed action is addressed and any significant impacts are identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and this Tier 1 EIS should be directed to the FHWA or the INDOT at the address provided above.

Title: Department of Veterans Affairs (VA) Post-Separation Transition Assistance Program (TAP) Assessment Longitudinal Survey.

OMB Control Number: 2900-0864.

Type of Review: New collection.

Abstract: This collection effort is the second phase of the PSTAP and participants are respondents of the original collection under the subject control number approved on 4 Apr 19. The PSTAP Longitudinal Survey will be implemented by VA to assess how the TAP training for Transitioning Servicemembers (TSMs) prepares Veterans for civilian life and its effects on long-term Veteran outcomes. The survey population will include servicemembers who participated in the cross-sectional survey and voluntarily agreed to participate in the longitudinal survey. VA will use email, other electronic communications and mail methods to administer the survey, limiting the burden on respondents. The survey will be administered to gauge the long-term effectiveness of the Transition Assistance Program (TAP) by: (1) Examining the relationship between attendance in TAP courses and the use of VA Benefits; (2) analyzing the effect of participation in TAP courses on the long-term outcomes of Veterans in the broad life domains of employment, education, health and social relationships, financial, social connectivity and overall satisfaction and well-being, and; (3) identifying areas of improvement for TAP and the broader transition process to guide training and/or operational activities aimed at enhancing the quality of service provided to transitioning service members, Veterans, their families and caregivers.

Affected Public: Individuals.

Estimated Annual Burden: 1,478 hours.
Estimated Average Burden per Respondent: 18.5 minutes.
Frequency of Response: Annual.
