

1218–0266. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL–OSHA.

Title of Collection: Respirable Crystalline Silica Standards for General Industry, Maritime (29 CFR 1910.1053) and Construction (29 CFR 1926.1053).

OMB Control Number: 1218–0266.

Affected Public: Private Sector: Businesses or other for-profits.

Total Estimated Number of Respondents: 682,581.

Total Estimated Number of Responses: 17,858,154.

Total Estimated Annual Time Burden: 12,468,266 hours.

Total Estimated Annual Other Costs Burden: \$393,789,550.

Authority: 44 U.S.C. 3507(a)(1)(D).

Dated: January 22, 2020.

Frederick Licari,

Departmental Clearance Officer.

BILLING CODE 4510–26–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–277 and 50–278; NRC–2018–0130]

Exelon Generation Company, LLC; Peach Bottom Atomic Power Station, Units 2 and 3

AGENCY: Nuclear Regulatory Commission.

ACTION: Final supplemental environmental impact statement.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has published a final plant-specific supplement, Supplement 10, Second Renewal, to the Generic Environmental Impact Statement (GEIS)

for License Renewal of Nuclear Plants, NUREG–1437, regarding the subsequent renewal of Facility Operating License Nos. DPR–44 and DPR–56 for an additional 20 years of operation for Peach Bottom Atomic Power Station, Units 2 and 3, respectively (Peach Bottom). Peach Bottom is located in York County, Pennsylvania.

DATES: The final Supplement 10, Second Renewal to the GEIS is available as of January 24, 2020.

ADDRESSES: Please refer to Docket ID NRC–2018–0130 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov/> and search for Docket ID NRC–2018–0130. Address questions about NRC docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301–287–9127; email: Jennifer.Borges@nrc.gov. For technical questions contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may access publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The final Supplement 10, Second Renewal is available in ADAMS under Accession No. ML20023A937.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

- *Library:* A copy of the final Supplement 10, Second Renewal to the GEIS for License Renewal of Nuclear Plants, NUREG–1437, is available at the Hartford County Public Library, Whiteford Branch, 2407 Whiteford Road, Whiteford, MD 21160.

FOR FURTHER INFORMATION CONTACT: Lois M. James, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–3306, email: Lois.James@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with section 51.118 of title 10 of the *Code of Federal Regulations* (10 CFR), the NRC is

making available final Supplement 10, Second Renewal to NUREG–1437, regarding the renewal of Exelon Generation Company, LLC. (Exelon), operating licenses DPR–44 and DPR–56 for an additional 20 years of operation for Peach Bottom Atomic Power Station, Units 2 and 3 (Peach Bottom). A Notice of Availability of Draft Supplement 10, Second Renewal to NUREG–1437 was published in the **Federal Register** on August 9, 2019 (84 FR 39296), by the Environmental Protection Agency. The public comment period on draft Supplement 10, Second Renewal to NUREG–1437 ended on September 23, 2019, and the comments received are addressed in final Supplement 10, Second Renewal to NUREG–1437.

II. Discussion

As discussed in Chapter 5 of final Supplement 10, Second Renewal to NUREG–1437, the NRC staff determined that the adverse environmental impacts of subsequent license renewal for Peach Bottom are not so great that preserving the option of subsequent license renewal for energy-planning decisionmakers would be unreasonable. This recommendation is based on: (1) The analysis and findings in the GEIS; (2) information provided in the environmental report and other documents submitted by Exelon; (3) consultation with Federal, State, local, and Tribal agencies; (4) the NRC staff's independent environmental review; and (5) consideration of public comments received during the scoping process and on the Draft Supplemental Environmental Impact Statement.

Dated at Rockville, Maryland, this 27th day of January, 2020.

For the Nuclear Regulatory Commission.

Robert B. Elliott,

Chief, Environmental Review License Renewal Branch, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590–01–P

OFFICE OF SPECIAL COUNSEL

[OMB Control No. 3255–0005]

Submission for Review: OSC Form-14

AGENCY: Office of Special Counsel (OSC)

ACTION: 30-Day notice and request for comments.

SUMMARY: OSC is providing 30 additional days for individuals to comment on OSC Form-14, the form used to file complaints and disclosures with OSC.

DATES: Comments are encouraged and will be accepted until March 2, 2020.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503, Attention: Desk Officer for the Office of Special Counsel or sent via electronic mail to oir_submission@omb.eop.gov or faxed to (202) 395-6974.

FOR FURTHER INFORMATION CONTACT: A copy of this ICR, with applicable supporting documentation, may be obtained by contacting the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503, Attention: Desk Officer for the Office of Special Counsel or sent via electronic mail to oir_submission@omb.eop.gov or faxed to (202) 395-6974.

SUPPLEMENTARY INFORMATION: OSC is a permanent independent federal investigative and prosecutorial agency. OSC's basic authorities come from four federal statutes: The Civil Service Reform Act, the Whistleblower Protection Act, the Hatch Act, and the Uniformed Services Employment & Reemployment Rights Act. OSC's primary mission is to safeguard the merit system by protecting federal employees and applicants from prohibited personnel practices, especially reprisal for whistleblowing, and to serve as a safe channel for allegations of wrongdoing.

OSC offers the general public and other Federal agencies the opportunity to comment on an existing information collection request (ICR) Reference Number 201907-3255-002. As required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. chapter 35), OSC is soliciting comments for this collection. In particular, OSC and the Office of Management and Budget are interested in comments on this information collection request that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and minimize the burden of the collection of information on those who are to respond, including through

the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

This information collection was previously published in the **Federal Register** at 84 FR 55188 allowing for a 60-day public comment period. One (1) commenter responded to the notice and provided two (2) suggestions. One suggestion was to add capability for additional interactive "platforms" complainants could use to submit OSC Form-14. OSC's technical team considered the comment but decided not to add platforms because implementing new capabilities at this time would take additional time, resources, and budget. The current platform is a dynamic fillable Adobe PDF form which allows users to file without having to log into a system and gives them the ability to keep a copy of the file they submitted. Adobe Acrobat Reader DC software is the free global standard for reliably viewing, printing, and commenting on PDF documents. OSC will continue to consider updating capabilities in the future. The other suggestion was to combine retaliation claims alleging unlawful reprisal for engaging in whistleblowing or engaging in protected activity under 5 U.S.C. 2302(b)(8) and (b)(9), arguing that the separate boxes would be "confusing" to pro se complainants. OSC does not adopt the proposed suggestion, first, because the separate categories are precisely defined at the beginning of the document, and also because the second category, protected activity, includes a more expansive list of protected activities such as pursuing an appeals process or refusing to obey an order that the employee reasonably believes is contrary to law, rule, or regulation, that may not involve whistleblowing. Because the legal ramifications for whistleblower retaliation claims are different from most of the claims alleging retaliation for engaging in protected activity, OSC needs to maintain two distinct allegation boxes.

Analysis

Agency: U.S. Office of Special Counsel.

Title: OSC Form-14: Electronic Submission of Allegations and Disclosures.

OMB Control No.: 3255-0005.

Frequency of Use of Updated OSC Form-14: Daily.

Affected Public: Current and former Federal employees, applicants for Federal employment, state and local

government employees, and their representatives, and the general public.

Number of Respondents: 6000 (estimate based on a review of recent OSC Annual Reports and Congressional Budget Justifications, and trends).

Estimated Average Amount of Time for a Person to Respond Using OSC Form-14: For prohibited personnel practice and other prohibited activities allegations, one hour and 15 minutes; for whistleblower disclosures, one hour; and for Hatch Act allegations, 30 minutes to complete the form. OSC based these estimates on testing completed by OSC employees during the development of the collection form.

Estimated Annual Burden for Filing OSC Form-14: 6917.5 hours.

Abstract: The electronic form must be used to submit allegations of possible prohibited personnel practices or other prohibited activity for investigation and possible prosecution by OSC, and to file disclosures of covered wrongdoing for review and possible referral to heads of agencies. The form may also be used by individuals to file complaints under the Hatch Act.

Dated: January 27, 2020.

Travis Millsaps,

Deputy Special Counsel for Public Policy.
