****Please view in Rich Text or HTML****

Welcome [REDACTED],

You are receiving this notification because you have an account or have requested an account in one or more of the training applications and resources hosted by the Defense Acquisition University (DAU). These applications include the Virtual Campus (learn.dau.mil), communities of practice hosted on Acquisition Community Connection (acc.dau.mil), and other knowledge sharing resources like the Defense Acquisition Portal (dap.dau.mil).

DAU is in the process of implementing a Single Sign-On (SSO) capability which will allow users to authenticate once and have access to multiple applications within DAU for which they have privileges. SSO will be deployed in a phased roll out over the next 6 weeks.

Please retain this email as it contains your single sign-on username. We request that you access the single sign-on application to setup your profile in advance of the roll out of the individual applications while you have this email in hand.

Step 1: Go to DAU Identity Management page. <https://identity.dau.mil/>

Step 2: Login using your username and temporary password (e-mailed separately).

User Name: [REDACTED]
DAUID: [REDACTED]

The system will prompt you to change your password and setup security questions. It should take only a few minutes to setup your profile. Taking the time now to complete this step will expedite your access to single sign-on once we have deployed the capability to the individual systems.

Frequently Asked Questions: www.dau.mil/faq

You will receive additional email notifications that will inform you when the individual systems (e.g., Virtual Campus, ACC, DAP) have implemented the single sign-on capability.

Please continue to access these DAU systems as you normally do until you receive a notification that single sign-on has been implemented for that system.

Contact DAU Help Desk if you have any questions at [REDACTED] (toll free), [REDACTED] (commercial), or [REDACTED] (DSN).
