Form Date

Question

Answer

1 OPDIV:

2 PIA Unique Identifier:

2a Name:

3 The subject of this PIA is which of the following?

- General Support System (GSS)
 Major Application
 Minor Application (stand-alone)
 Minor Application (child)
 Electronic Information Collection
 Unknown

3a Identify the Enterprise Performance Lifecycle Phase of the system.

3b Is this a FISMA-Reportable system?

- Yes
 No

4 Does the system include a Website or online application available to and for the use of the general public?

- Yes
 No

5 Identify the operator.

- Agency
 Contractor

6 Point of Contact (POC):

POC Title POC Name POC Organization POC Email POC Phone

7 Is this a new or existing system?

- New
 Existing

8 Does the system have Security Authorization (SA)?

- Yes
 No

8b Planned Date of Security Authorization

 Not Applicable

8c	Briefly explain why security authorization is not required	The exposure study will utilize several CDC authorized systems for data collection, storage, and processing.
10	Describe in further detail any changes to the system that have occurred since the last PIA.	N/A
11	Describe the purpose of the system.	<p>The purpose of this Generic ICR is to respond to state and local areas that request assistance with assessing potential exposure to contaminants in drinking water from private wells in their jurisdiction.</p> <p>An example of a prior study conducted by CDC that has yielded information used to reduce exposures is the Navajo study where NCEH provided technical assistance (OMB approval was not needed) to assess the health risks associated with drinking water from various sources used by the Navajo Nation (2007-2011). The investigation identified contaminants, including uranium, in these drinking water sources. Based on this information, the Navajo Nation Environmental Protection Agency (NNEPA) and Navajo Nation Division of Health (NNDOH) collaborated to develop a consumer awareness campaign to help people understand sources of drinking water contamination, learn where to get safe drinking water, and learn how to protect the quality of water stored at home.</p> <p>Having a generic mechanism in place will facilitate a faster processing and clearance of information collection approvals requested by NCEH and partners.</p> <p>This is an extension GenICR which is needed to continue the work conducted during the original ICR approval period. During the approval period, one GenIC has been generated to respond to three state health department (New Hampshire, New Mexico, and Connecticut) requests in assisting with assessing potential exposure to arsenic and uranium in residential private wells used for drinking water.</p>

12

Describe the type of information the system will collect, maintain (store), or share. (Subsequent questions will identify if this information is PII and ask about the specific data elements.)

The study will collect, maintain, and store the information below:

- Participant Contact Information (name, mailing address, email, phone number)
- De-identified Demographic Data (date of birth, sex, height, weight)
- Laboratory Results (creatinine concentrations in urine, arsenic and uranium in urine, arsenic and uranium in water)
- Surveys (diet, drinking water, bathing, employment, lifestyle factors, and recreational activities)
- Other (StudyID)

All information in the system will be stored for at least six years, but no longer than ten years after the end of the study depending on the program need for scientific, legal or business reference.

The study will be sharing de-identified data with the requesting agency in areas in which the study is being conducted. The requesting agency will use the data to support response activities.

Users will be authenticated via CDC's Secure Access Management System (SAMS) and CDC's Active Directory (AD). SAMS and AD are both authorized CDC information systems.

13 Provide an overview of the system and describe the information it will collect, maintain (store), or share, either permanently or temporarily.

The study will enroll participants with potential exposure to drinking water contaminants in private wells. Participants will be members of the general public in affected areas that are at least 18 years of age, use private wells for drinking water, willing to receive and return a tap water sampling kit and urine specimen kit or to provide a blood specimen, and willing to answer survey questions. They will be enrolled from the geographic area of concern as defined by the requesting agency. The types of information that will be collected and maintained about these participants are participant contact information, demographic information, laboratory results, surveys and study ID. Any information shared about the participants with the requesting agency or other external entities will be de-identified. Information in the system will be regularly retrieved by the participant's name when participants contact the study for follow up appointments, at those appointments, or for the status of their labs.

Users will be authenticated via CDC's Secure Access Management System (SAMS) and CDC's Active Directory (AD). SAMS and AD are both authorized CDC information systems.

The study will collect, maintain, and store the information below:

Participant Contact Information (name, mailing address, email, phone number)

De-identified Demographic Data (date of birth, sex, height, weight)

Laboratory Results (creatinine concentrations in urine, arsenic and uranium in urine, arsenic and uranium in water)

Surveys (diet, drinking water, bathing, employment, lifestyle factors, and recreational activities)

Other (StudyID)

14 Does the system collect, maintain, use or share PII?

Yes

No

<p>15 Indicate the type of PII that the system will collect or maintain.</p>	<table border="0"> <tr> <td><input type="checkbox"/> Social Security Number</td> <td><input checked="" type="checkbox"/> Date of Birth</td> </tr> <tr> <td><input checked="" type="checkbox"/> Name</td> <td><input type="checkbox"/> Photographic Identifiers</td> </tr> <tr> <td><input type="checkbox"/> Driver's License Number</td> <td><input type="checkbox"/> Biometric Identifiers</td> </tr> <tr> <td><input type="checkbox"/> Mother's Maiden Name</td> <td><input type="checkbox"/> Vehicle Identifiers</td> </tr> <tr> <td><input checked="" type="checkbox"/> E-Mail Address</td> <td><input checked="" type="checkbox"/> Mailing Address</td> </tr> <tr> <td><input checked="" type="checkbox"/> Phone Numbers</td> <td><input type="checkbox"/> Medical Records Number</td> </tr> <tr> <td><input checked="" type="checkbox"/> Medical Notes</td> <td><input type="checkbox"/> Financial Account Info</td> </tr> <tr> <td><input type="checkbox"/> Certificates</td> <td><input type="checkbox"/> Legal Documents</td> </tr> <tr> <td><input type="checkbox"/> Education Records</td> <td><input type="checkbox"/> Device Identifiers</td> </tr> <tr> <td><input type="checkbox"/> Military Status</td> <td><input type="checkbox"/> Employment Status</td> </tr> <tr> <td><input type="checkbox"/> Foreign Activities</td> <td><input type="checkbox"/> Passport Number</td> </tr> <tr> <td><input type="checkbox"/> Taxpayer ID</td> <td><input type="text" value="Other..."/></td> </tr> <tr> <td><input type="text" value="Surveys"/></td> <td><input type="text" value="Other..."/></td> </tr> <tr> <td><input type="text" value="Lab results included in medical notes"/></td> <td><input type="text" value="Other..."/></td> </tr> </table>	<input type="checkbox"/> Social Security Number	<input checked="" type="checkbox"/> Date of Birth	<input checked="" type="checkbox"/> Name	<input type="checkbox"/> Photographic Identifiers	<input type="checkbox"/> Driver's License Number	<input type="checkbox"/> Biometric Identifiers	<input type="checkbox"/> Mother's Maiden Name	<input type="checkbox"/> Vehicle Identifiers	<input checked="" type="checkbox"/> E-Mail Address	<input checked="" type="checkbox"/> Mailing Address	<input checked="" type="checkbox"/> Phone Numbers	<input type="checkbox"/> Medical Records Number	<input checked="" type="checkbox"/> Medical Notes	<input type="checkbox"/> Financial Account Info	<input type="checkbox"/> Certificates	<input type="checkbox"/> Legal Documents	<input type="checkbox"/> Education Records	<input type="checkbox"/> Device Identifiers	<input type="checkbox"/> Military Status	<input type="checkbox"/> Employment Status	<input type="checkbox"/> Foreign Activities	<input type="checkbox"/> Passport Number	<input type="checkbox"/> Taxpayer ID	<input type="text" value="Other..."/>	<input type="text" value="Surveys"/>	<input type="text" value="Other..."/>	<input type="text" value="Lab results included in medical notes"/>	<input type="text" value="Other..."/>
<input type="checkbox"/> Social Security Number	<input checked="" type="checkbox"/> Date of Birth

Published:

In Progress

23 Identify the sources of PII in the system.

Directly from an individual about whom the information pertains

- In-Person
- Hard Copy: Mail/Fax
- Email
- Online
- Other

Government Sources

- Within the OPDIV
- Other HHS OPDIV
- State/Local/Tribal
- Foreign
- Other Federal Entities
- Other

Non-Government Sources

- Members of the Public
- Commercial Data Broker
- Public Media/Internet
- Private Sector
- Other

23a Identify the OMB information collection approval number and expiration date.

24 Is the PII shared with other organizations?

Yes

No

24a Identify with whom the PII is shared or disclosed and for what purpose.

- Within HHS
- Other Federal Agency/Agencies
- State or Local Agency/Agencies
- Private Sector

24b Describe any agreements in place that authorizes the information sharing or disclosure (e.g. Computer Matching Agreement, Memorandum of Understanding (MOU), or Information Sharing Agreement (ISA)).

<p>24c Describe the procedures for accounting for disclosures</p>	<p>Procedures for accounting for disclosures are detailed in the study's manual of procedures. Typically, this will be a manual process where the program keeps track of disclosures in a spreadsheet.</p>	
<p>25 Describe the process in place to notify individuals that their personal information will be collected. If no prior notice is given, explain the reason.</p>	<p>Participants sign a consent form on order to participate in the study. The consent form notifies the individual that their information will be collected, for what purpose, and information they will receive back from the study.</p>	
<p>26 Is the submission of PII by individuals voluntary or mandatory?</p>	<p><input checked="" type="radio"/> Voluntary <input type="radio"/> Mandatory</p>	
<p>27 Describe the method for individuals to opt-out of the collection or use of their PII. If there is no option to object to the information collection, provide a reason.</p>	<p>Individuals who wish to opt out may decline taking part in the study.</p>	
<p>28 Describe the process to notify and obtain consent from the individuals whose PII is in the system when major changes occur to the system (e.g., disclosure and/or data uses have changed since the notice at the time of original collection). Alternatively, describe why they cannot be notified or have their consent obtained.</p>	<p>NCEH will contact the study principal investigator (PI) (per consent form) via email, telephone, and/or mail when major changes to the study occur to obtain consent from the study participants.</p>	
<p>29 Describe the process in place to resolve an individual's concerns when they believe their PII has been inappropriately obtained, used, or disclosed, or that the PII is inaccurate. If no process exists, explain why not.</p>	<p>Individuals that have a concern that their PII has been inappropriately used, obtained, or disclosed, OR that their PII is inaccurate should contact the study PI and data manager using contact information in the study's SORN or consent form.</p> <p>The individual may be directed to contact the PI or data manager to identify the record and specify the information being contested, the corrective action sought, and the reasons for requesting the correction, along with supporting information to show how the record is inaccurate, incomplete, untimely, or irrelevant. If an incident has occurred, the PI or data manager will report the potential incident to the CDC Security Incident Response Team and the Privacy Officer. The data manager will serve as the POC to resolve the individual's concerns.</p>	
<p>30 Describe the process in place for periodic reviews of PII contained in the system to ensure the data's integrity, availability, accuracy and relevancy. If no processes are in place, explain why not.</p>	<p>There is no process in place for periodic reviews of the PII. Once laboratory results are reported to the study participants, data will be de-identified and used for analysis.</p>	
<p>31 Identify who will have access to the PII in the system and the reason why they require access.</p>	<p><input checked="" type="checkbox"/> Users <input checked="" type="checkbox"/> Administrators <input type="checkbox"/> Developers <input type="checkbox"/> Contractors <input type="checkbox"/> Others</p>	<p>To contact study participants during study activities and to provide</p> <p>To provide access to users as needed.</p> <p></p> <p></p> <p></p>

32	Describe the procedures in place to determine which system users (administrators, developers, contractors, etc.) may access PII.	The study PI will determine the level of access for each user depending on their role in the study.
33	Describe the methods in place to allow those with access to PII to only access the minimum amount of information necessary to perform their job.	Due to the small number of study participants, all users with access to PII will have access to all study participants' PII.
34	Identify training and awareness provided to personnel (system owners, managers, operators, contractors and/or program managers) using the system to make them aware of their responsibilities for protecting the information being collected and maintained.	Study staff will all go through annual security awareness training.
35	Describe training system users receive (above and beyond general security and privacy awareness training).	We will provide instructions to users about how to manage data security and privacy protections and will require all study staff and direct contractors to receive training on their roles and responsibilities, as outlined in the study's Manual of Procedures. The study's Rules of Behavior will be signed and reviewed by all research staff.
36	Do contracts include Federal Acquisition Regulation and other appropriate clauses ensuring adherence to privacy provisions and practices?	<input checked="" type="radio"/> Yes <input type="radio"/> No
37	Describe the process and guidelines in place with regard to the retention and destruction of PII. Cite specific records retention schedules.	Retention and destruction of PII in the study is determined using Records Control Schedule CDC RG-0442, Scientific and Research Project Records, Minor Research Records Authorized Disposition: Maintain at least six years, but no longer than ten years after the retirement of the system depending on the program need for scientific, legal or business reference, then delete/destroy.
38	Describe, briefly but with specificity, how the PII will be secured in the system using administrative, technical, and physical controls.	<p>PII will be secured using the following administrative controls: Rules of Behavior, Manual of Procedures, NDAs, and DUAs.</p> <p>PII will be secured using the following technical controls: file level and whole disk encryption, e-Auth Level 3, and access control lists in multiple authorized CDC IT systems.</p> <p>PII will be secured using the following physical controls: controlled physical access, guards, key card access, and locked rooms.</p>

REVIEWER QUESTIONS: The following section contains Reviewer Questions which are not to be filled out unless the user is an OPDIV Senior Officer for Privacy.

	Reviewer Questions	Answer
1	Are the questions on the PIA answered correctly, accurately, and completely?	<input type="radio"/> Yes <input type="radio"/> No
<i>Reviewer Notes</i>		
2	Does the PIA appropriately communicate the purpose of PII in the system and is the purpose justified by appropriate legal authorities?	<input type="radio"/> Yes <input type="radio"/> No
<i>Reviewer Notes</i>		

Reviewer Questions		Answer
3	Do system owners demonstrate appropriate understanding of the impact of the PII in the system and provide sufficient oversight to employees and contractors?	<input type="radio"/> Yes <input type="radio"/> No
Reviewer Notes	<input type="text"/>	
4	Does the PIA appropriately describe the PII quality and integrity of the data?	<input type="radio"/> Yes <input type="radio"/> No
Reviewer Notes	<input type="text"/>	
5	Is this a candidate for PII minimization?	<input type="radio"/> Yes <input type="radio"/> No
Reviewer Notes	<input type="text"/>	
6	Does the PIA accurately identify data retention procedures and records retention schedules?	<input type="radio"/> Yes <input type="radio"/> No
Reviewer Notes	<input type="text"/>	
7	Are the individuals whose PII is in the system provided appropriate participation?	<input type="radio"/> Yes <input type="radio"/> No
Reviewer Notes	<input type="text"/>	
8	Does the PIA raise any concerns about the security of the PII?	<input type="radio"/> Yes <input type="radio"/> No
Reviewer Notes	<input type="text"/>	
9	Is applicability of the Privacy Act captured correctly and is a SORN published or does it need to be?	<input type="radio"/> Yes <input type="radio"/> No
Reviewer Notes	<input type="text"/>	
10	Is the PII appropriately limited for use internally and with third parties?	<input type="radio"/> Yes <input type="radio"/> No
Reviewer Notes	<input type="text"/>	
11	Does the PIA demonstrate compliance with all Web privacy requirements?	<input type="radio"/> Yes <input type="radio"/> No
Reviewer Notes	<input type="text"/>	
12	Were any changes made to the system because of the completion of this PIA?	<input type="radio"/> Yes <input type="radio"/> No
Reviewer Notes	<input type="text"/>
