

Baseline survey

Form Approved

OMB No. 0920-New

Expiration Date: XX/XX/XXXX

**Web-based Approaches to reach black or African American and
Hispanic/Latino MSM for HIV Testing and Prevention Services**

Attachment 3c

Baseline survey

Public reporting burden of this collection of information is estimated to average 20 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer; 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; Attn: OMB-PRA (0920-New)

Contents

Thank you for your interest in our study. Please take note of the following information:

1. Your answers are private: the information you provide us will be kept secure and known only to study staff. This information will not be shared or used for any other research purposes.
2. This survey includes some personal questions about your sexual behaviors and HIV testing practices. You may choose to not answer any questions that make you feel uncomfortable.
3. We appreciate your willingness to be part of this study. Your participation will help us learn more about ways to get people tested. The results of this study will be used to improve HIV testing programs in the United States.
4. If you have any questions or comments, you may contact the Principal Investigator, Dr. Patrick Sullivan of Emory University, at (404) 727-2038.

Emory University, the University of Michigan, and the University of North Carolina are conducting the study, which is funded by the Centers for Disease Control and Prevention (CDC).

Confirmation

1. What is your birthdate? *Enter the month, day, and year.* _____ *
(Required)

[DOB]

Source: ATN Data Harmonization 2017

[using form validation, if provided date is today or in the future reject entry and prompt user correction with: "The date that you entered for your birthdate is in the future. Please correct this."]

2. What state do you live in? _____ * (Required)

[STATE]

3. What county do you live in? _____ * (Required)

[COUNTY]

4. What is the 5-digit ZIP Code for the location where you primarily live? _____ *
(Required)

[ZIPCODE]

Source: ATN Data Harmonization 2017

[using form validation, if provided ZIP Code does not have 5 digits, reject entry and prompt user correction with: "You must provide a valid, 5-digit ZIP Code to participate in our study."]

Demographics

We will now ask you some questions about your background.

5. Which of the following best represents how you think of yourself?

- (1) Gay
- (2) Straight, this is not gay
- (3) Bisexual
- (4) Something else
- (5) I don't know the answer

[ORIENT]

Source: HHS/NHIS SOGI Measures

6. Have you been employed at any time in the past 12 months?

- (0) No
- (1) Yes

[EMPLOY_P12MO]

Source: Kristin Wall

7. What best describes your current employment status? Are you:

- (1) Employed full-time
- (2) Employed part-time
- (3) A student (full- or part-time)
- (4) Unemployed

[EMPLOYED]

Source: EngageMENT 2016/NHBS Round 4 (edited)

8. What was your household income last year from all sources before taxes? *That is, the total amount of money earned and shared by all people living in your household*

- (1) \$0 to \$9,999 annually (\$0 to \$833 monthly)
- (2) \$10,000 to \$19,999 annually (\$834 to \$1667 monthly)
- (3) \$20,000 to \$34,999 annually (\$1668 to \$3333 monthly)

Baseline survey

- (4) \$40,000 to \$74,999 annually (\$3334 to \$6250 monthly)
- (5) \$75,000 or more annually (\$6251 or more monthly)

[INCOME]

Source: AMIS 2016 (edited)

9. Including yourself, how many people depend on this income? *Number of people (Must be at least 1):* _____

[DEPEND]

Source: NHBS

10. What is the highest level of school that you have completed?

- (1) Less than a high school diploma
- (2) High school diploma, certificate or GED
- (3) Some college, technical school, or an associate's degree
- (4) A bachelor's degree, a master's degree, or a doctoral degree

[EDUCATION]

Source: ATN Data Harmonization 2017 (edited)

11. What kind of health insurance or health care coverage do you currently have?. *Check all that apply.*

- (1) A private health plan purchased through an employer
- (2) A private health plan purchased through an exchange (e.g. Affordable Care Act, Obamacare)
- (3) Government program (Medicare, Medicaid, TRICARE, Veteran's Administration (VA))
- (4) Some other health care plan
- (5) Through a spouse or family member
- (6) I don't currently have any health insurance
- (99) I don't know

[INSURANCE]

HIV Testing

The next set of questions will ask you about testing for human immunodeficiency virus (HIV).

22. Have you ever been tested for HIV?

Baseline survey

- (0) No
- (1) Yes

[EVERTEST]

Source: AMIS 2016 (edited)

Logic: If EVERTEST equal to 1

23. In the past 2 years (since [MONTH] of [YEAR 24 MONTHS PRIOR]), how many times have you been tested for HIV? _____

[HIVTESTS_P24MO]

Source: AMIS 2016

Logic: If EVERTEST equal to 1

24. When was the last time that you were tested for HIV?

Month: [LASTHIVTEST_MO]

Year: [LASTHIVTEST_YR]

Source: eSTAMP

[using form validation, if provided date is today or in the future reject entry and prompt user correction with: "The date that you entered for your birthdate is in the future. Please correct this."]

Logic: If EVERTEST equal to 1

25. The last time that you tested, what was the main reason that you got tested for HIV?

- (1) I get tested on a regular schedule and it was time for me to get tested again
- (2) I was worried that I might have been exposed to HIV
- (3) Before having sex with someone new
- (4) I had sex with someone new
- (5) After stopping having sex with someone
- (6) I had symptoms of HIV
- (7) I had symptoms of sexually transmitted infections other than HIV
- (8) My doctor recommended that I get tested
- (9) It is free and convenient
- (10) Other, please specify _____ [LASTTEST_REASON_OTHER]

[LASTTEST_REASON]

Source: eSTAMP (edited)

Logic: If EVERTEST equal to 1

26. What was the result of your most recent HIV test?

Baseline survey

- (1) Negative
- (2) Positive
- (3) Indeterminate/test did not work
- (4) I did not get the result

[LASTTEST_STATUS]

Source: AMIS 2016 (edited)

Logic: If LASTTEST_STATUS equal to 2

27. Was that your first positive test?

- (0) No
- (1) Yes

[LASTTEST_FIRSTPOS]

Logic: If LASTTEST_STATUS equal to 3 OR 4

28. Before your last test, had you ever tested positive for HIV?

- (0) No
- (1) Yes

[LASTTEST_EVERPOS]

Source: AMIS 2016 (edited)

Logic: If EVERTEST equal to 1

29. Where did you get your last HIV test?

- (1) Private doctor's office
- (2) HIV counseling and testing site
- (3) Public health clinic/community health center
- (4) Street outreach program/mobile unit
- (5) Sexually transmitted infection clinic
- (6) Emergency room or Hospital (inpatient)
- (7) Correctional facility (jail or prison)
- (8) Home or other private location
- (9) Other location, please specify _____ [LASTTEST_LOCATION_OTHER]

[LASTTEST_LOCATION]

Source: Moxie (edited)

Logic: If EVERTEST equal to 1

30. When you last got tested for HIV, what type of test was used?

- (1) Finger-stick blood rapid test (test that required pricking your finger to collect a drop of blood)
- (2) Oral fluid rapid test (test that required swabbing your gums to collect an oral fluid sample)

Baseline survey

(3) Test that required drawing blood with a syringe

[LASTTEST_TYPE]

Source: Moxie

Logic: If EVERTEST equal to 1

31. On average, how often do you get tested for HIV?

- (1) Every month
- (2) Every 3 months
- (3) Every 6 months
- (4) Every year
- (5) Every time I think I might have been exposed
- (6) I don't test regularly

[TEST_PATTERN]

Source: Moxie (edited)

32. How do you usually decide when to test for HIV? *Choose the one that best fits how you currently decide to test.*

- (1) On a regular schedule
- (2) After being exposed to HIV
- (3) Between sex partners
- (4) When I have symptoms of HIV
- (5) When I have symptoms of sexually transmitted infections other than HIV
- (6) When it is free and convenient
- (7) Other, please specify _____ [TESTING_REASON_OTHER]

[TESTING_REASON]

Source: DETECT

Home HIV Testing

A home HIV test can be used to test yourself for HIV in the privacy of your home or other private location by collecting fluid from your mouth or a drop of blood from your finger.

33. Have you ever heard about home HIV tests?

- (0) No
- (1) Yes

[HOMETEST_AWARE]

Source: eSTAMP

Logic: If HOMETEST_AWARE equal to 1

34. In the past 12 months, have you used a home HIV test?

- (0) No

PrEP Formulations

Logic: If LASTTEST_STATUS equal to 2 or LASTTEST_EVERPOS equal to 1 skip PrEP section

PrEP stands for pre-exposure prophylaxis. PrEP is medication for a healthy person to take to prevent getting HIV. The medication can be a pill, injected, or a gel. Some people have side effects that usually go away after the first month. In rare cases, taking the medication for long periods may damage the kidneys. The medication is prescribed by a doctor, and you would need to follow the doctor's orders about regular check-ups. Taking these medications would provide some protection against HIV infection, but they are not 100% effective.

The following questions are about some types of PrEP medication that may be available in the future that would lower your chances of getting HIV.

51. Would you be willing to take one pill only once each week?

- (0) No
- (1) Yes

[PREP_WEEKLY_WILLING]

Source: Arin Freeman

52. Would you be willing to take one pill every day?

- (0) No

Sexual Behavior

We will now ask you some questions about your sex partners in the past 6 months. We only want to know about partners you had anal or vaginal sex with since [insert date from six months ago].

65. In the past 6 months, did you have anal or vaginal sex with:

(1) Only men

(2) Only women

(3) Both men and women

(4) Nobody

[SEXPART_GENDER]

Source: eSTAMP

Female Sex Partners

Section Logic: If **SEXPART_GENDER = 2 or 3**

The next questions are about women you had vaginal or anal sex with in the past 6 months. "Vaginal sex" means you put your penis in her vagina. "Anal sex" means you put your penis in her butt.

66. In the past 6 months, with how many different women did you have vaginal or anal sex?

(99) I prefer not to answer

[FEMPART_NUM]

Source: eSTAMP (edited)

Logic: If **FEMPART_NUM > 0**

67. With how many of these [FEMPART_NUM] women did you have vaginal or anal sex without using a condom or not using it the whole time?

(99) I prefer not to answer

[FEMPART_UNPROTNUM]

Source: eSTAMP (edited)

[Validation: Cannot be greater than FEMPART_NUM

If not, then display "The number of women you had sex without using a condom or not using it the whole time cannot be more than the number of women you had vaginal or

anal sex with in the past 6 months. Please carefully re-enter your response.”, and loop back to enter the number.]

Logic: If FEMPART_UNPROTNUM > 0

68. In the past 6 months, how many of these [FEMPART_UNPROTNUM] women you had vaginal or anal sex without using a condom were:

HIV-positive? _____ [FEMPART_UNPROTNUM_POS]
HIV-negative? _____ [FEMPART_UNPROTNUM_NEG]
Women whose HIV status you did not know? _____
[FEMPART_UNPROTNUM_UNK]

[Validation: Sum of three numbers cannot be greater than FEMPART_NUM:

If not, then display “The number of HIV positive, HIV negative, and HIV status unknown partners must add up to [FEMPART_UNPROTNUM]. Please carefully re-enter your responses.”, and loop back to enter the number.]

Male Sex Partners

Section Logic: If SEXPART_GENDER = 1 or 3

The next questions are about men you had anal sex with in the past 6 months. “Anal sex” means either you put your penis in his butt or he put his penis in your butt.

69. In the past 6 months, with how many different men did you have anal sex? _____
(99) I prefer not to answer

[MALEPART_NUM]
Source: eSTAMP (edited)

Logic: If MALEPART_NUM > 0

70. With how many of these [MALEPART_NUM] men did you have anal sex without using a condom or not using it the whole time? _____
(99) I prefer not to answer

[MALEPART_UNPROTNUM]
Source: eSTAMP (edited)

[Validation: Cannot be greater than MALEPART_NUM

If not, then display “The number of men you had sex without using a condom or not using it the whole time cannot be more than the number of men you had anal sex with in the past 6 months. Please carefully re-enter your response.”, and loop back to enter the number.]

Logic: If MALEPART_UNPROTNUM > 0

71. In the past 6 months, how many of these [MALEPART_UNPROTNUM] men you had anal sex without using a condom were:

HIV-positive? _____ [MALEPART_UNPROTNUM_POS]
HIV-negative? _____ [MALEPART_UNPROTNUM_NEG]
Men whose HIV status you did not know? _____
[MALEPART_UNPROTNUM_UNK]

[Validation: Sum of three numbers cannot be greater than MALEPART_NUM:

If not, then display “The number of HIV positive, HIV negative, and HIV status unknown partners must add up to [MALEPART_UNPROTNUM]. Please carefully re-enter your responses.”, and loop back to enter the number.]

Exchange Sex

Logic: If SEXPART_GENDER = 1 or 2 or 3

72. In the past 6 months, have you received things like money or drugs for sex in exchange for having sex with someone?

- (0) No
- (1) Yes

[EXCHANGE]

Experiences with Health Care Providers

The next questions are your experiences with health care providers.

73. In the past 12 months, have you seen a doctor, nurse, or other health care provider about your own health?

- (0) No
- (1) Yes

[PROVIDER_P12MO]

Source: AMIS 2016

Logic: If PROVIDER_P12MO equal to 0

74. Is there a reason why you have not been to a doctor or nurse in the past 12 months?
Check all that apply

- (1) Feel fine / not sick [NOCARE_FINE]
- (2) Too busy [NOCARE_BUSY]
- (3) Concerned about being able to pay [NOCARE_PAYCONCERN]
- (4) Don't know where to go [NOCARE_DKWHERE]

Baseline survey

(5) Have had bad experiences in the past, please specify _____
[NOCARE_BADEXPER]

(6) Other, please specify _____ [NOCARE_OTHER]

Source: EleMENT (edited)

Logic: If PROVIDER_P12MO equal to 1

75. Where have you gone to see a doctor or nurse for a medical issue in the past 12 months? *Check all that apply*

(1) Primary care physician (doctor) [CARE_PCP]

(2) Emergency room (ER) or Urgent Care [CARE_ER]

(3) Service organization [CARE_CBO]

(4) Student health services [CARE_STUDENT]

(5) County health department [CARE_COUNTYDEPT]

(6) Other physician's (doctor's) office [CARE_OTHERDOC]

(7) Other, please specify _____ [CARE_OTHER]

Source: EleMENT (edited)

Logic: If PROVIDER_P12MO equal to 1

76. At any of those times you were seen by a doctor or health care provider, were you offered an HIV test?

(0) No

(1) Yes

[PROVIDER_HIVTEST_P12MO]

Source: AMIS 2016

Logic: If PROVIDER_P12MO equal to 1

77. The last time you saw a doctor or health care provider, did they talk to you about sex or sexual health?

(0) No

(1) Yes

[PROVIDER_TALKSEX_P12MO]

Source: AMIS 2016

Logic: If PROVIDER_P12MO equal to 1

78. Had you previously told any of these doctors or nurses that you saw for medical care that you had sex with men?

(1) Yes, I had told all of them previously

Baseline survey

(2) Yes, I had told some of them previously

(3) No, I hadn't told any of them previously

[PROVIDER_PREVDISCL_P12MO]

Source: EleMENT (edited)

Logic: If PROVIDER_PREVDISCL_P12MO equal to 2 or 3

79. Did any of these doctors or nurses who did not know you had sex with men ask if you have sex with men?

(0) No

(1) Yes

[PROVIDER_ASKORIENT_P12MO]

Source: EleMENT (edited)

Logic: If PROVIDER_ASKORIENT_P12MO equal to 1

80. Did you tell all of these doctors or nurses who asked?

(0) No

(1) Yes

[PROVIDER_TELL_P12MO]

Source: EleMENT (edited)

Logic: If PROVIDER_PREVDISCL_P12MO equal to 2 or 3

81. Please indicate reasons why you did not tell them: *Check all that apply*

(1) I did not think it was important to tell my health care provider [NOTTELL_IMP]

(2) I thought the health care provider would make fun of me or treat me differently [NOTTELL_TREATDIFF]

(3) I thought the health care provider would refuse to provide appropriate care for me [NOTTELL_REFUSECARE]

(4) I was uncomfortable talking about having sex with men with my health care provider [NOTTELL_UNCOMFMSM]

(5) I was uncomfortable talking about sex at all with my health care providers [NOTTELL_UNCOMFSEX]

(6) I thought friends, family or other people in the community would find out [NOTTELL_FINDOUT]

(7) Other, please specify _____ [NOTTELL_OTHER]

Source: EleMENT (edited)

Logic: If PROVIDER_PREVDISCL_P12MO equal to 1 or 2

82. After sharing that you have sex with other men, did any doctor or nurse.... *Check all that apply*

- (1) Offer counseling on reducing risk while having sex with men [POSTDISCL_MSMCOUNSEL]
- (2) Avoid you [POSTDISCL_AVOID]
- (3) Make fun of you or treat you differently [POSTDISCL_TREATDIFF]
- (4) Refuse to help you [POSTDISCL_REFUSE]
- (5) Offer counseling on how to prevent HIV [POSTDISCL_HIVCOUNSEL]
- (6) Ask you about anal itching, anal sores [POSTDISCL_ANALQ]
- (7) Offer testing for HIV and STIs [POSTDISCL_TESTING]
- (8) Suggest you get care at another place with better services for gay or other men who have sex with men [POSTDISCL_OTHERCARE]

Contact Preferences

Thank you for participating in this health study. Once we confirm your enrollment, we will be sending you a free package containing one or more HIV rapid test kits. You may use these kits to test yourself at home or any other private location. You may also give thee kits to your friends or sex partners so that they can test themselves privately and learn their HIV status. Later, you may have the option of ordering additional STI test kits, condoms, and lubricant free of cost.

Each kit contains written instructions on how to test yourself at home. You and your friends or sex partners can also watch videos demonstrating how to conduct these tests. As part of this study, anyone using these kits has the option of calling a toll-free phone number with questions or to talk to a trained counselor. You can use the link in your email report your test results. Your friends or sex partners can use the website link listed on their test box to report their results.

During the study we may call you to talk about your HIV testing practices and home-test results.

100. What day of the week would you prefer that we call you?

- (1) No preference
- (2) Monday
- (3) Tuesday
- (4) Wednesday
- (5) Thursday
- (6) Friday
- (7) Saturday
- (8) Sunday

[CALL_DAY]

Baseline survey

We will be sending you an email in 4 months with a link to take a follow-up survey.

The follow-up survey will take about 30 minutes to complete, and you will receive \$30 for completing the entire follow-up survey, which may be split into multiple parts.

If you do not complete the follow-up survey within 5 days of the first email, we will send you a reminder email to complete the survey. If you do not complete the survey after we have sent a total of 3 reminder emails, we will attempt to contact you using an alternate method.

102. How would you like us to remind you to take the follow-up survey if you have not responded to the reminder emails? Please rank the two options below. Enter "1" for your first preference and "2" for your second preference.

[Drag and drop ranking]

- (1) Email me
- (2) Call my phone number
- (2) Send me a text message

[SURVEY_REMINDER_PREF]

Source: eSTAMP

Your follow-up survey will be available in 4 months. At that time, we will also send you a package containing a dried blood spot (DBS) collection kit and a second at-home rapid HIV test. You have the option to collect a few drops of blood by pricking your finger and return the DBS specimen in a pre-paid shipping envelope. If you choose to return the DBS specimen, once we receive your specimen and you report the results of your rapid tests, we will send you \$10 through a method of your choice.

If needed, we can send a reminder about reporting your HIV home-test results or returning your DBS card.

103. How would you like us to remind you about reporting your HIV home-test results and mailing your DBS specimen? Please rank the three options below. Enter "1" for your first preference, "2" for your second preference and "3" for your third preference.

[Ranking Grid]

- (1) Email me
- (2) Call my phone number
- (3) Send me a text message

105. Please provide the email you would like your gift card code sent to: *

[GIFTCARD_EMAIL]
Source: Created

Completion Score

Action: Calculate Completion Score [SCORE]. If greater than 75%, then send to End 1. Otherwise, send to End 2.

End

End 1.

ACTION: Webhook pushes survey completion to SMART

Thank you for completing this survey!

Once we have verified your survey, your token of appreciation will be provided to you in the method that you indicated earlier. If you have not received your token of appreciation within one month, please email us at knowathome@emory.edu. Please send this email from the email address you provided.

You should expect to receive a discreet package containing your HIV self-tests in the next few weeks and will be alerted if you are randomized to receive either of the study apps. You will receive a token of appreciation for reporting any home test results.

In four months, you will be expected to complete another survey and be sent additional home testing kits at that time, each of which you will receive a token of appreciation for completing.

If you are currently HIV-negative, pre-exposure prophylaxis (PrEP) may be a potential option for you. PrEP is a way for people who do not have HIV to lower their risk of getting HIV by taking a pill every day. To learn more, please visit some of the links below.
