B. Certification Regarding Debarment, Suspension, and Other Responsibility Matters -- Primary Covered Transactions: Instructions for Certification

1. By signing and submitting this Application, the prospective primary participant (the Applicant) is providing the certification set out below.

2. The inability of an Applicant to provide the certification required below will not necessarily result in the denial of participation in this covered transaction. The prospective Applicant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with Treasury's approval of the proposed application. However, failure of the Applicant to furnish a certification or an explanation shall disqualify such person/entity from participation in this transaction.

3. This certification is a material representation of fact upon which reliance is placed when Treasury determines to enter into this transaction. If it is later determined that the Applicant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal government, Treasury may terminate this transaction for cause or default.

4. The Applicant shall provide immediate written notice to Treasury if at any time the Applicant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, Treasury may terminate this transaction for cause or default.

The certification in this paragraph (1)(b) does not apply in instances where state statutes and regulations or policies addressing this issue were in effect prior to August 15, 2014.

(c) The Applicant has procedures in place for procuring property and services under this award that are consistent with the procurement standards applying to Federal grants. The Applicant will not request funds under this award for any contract unless this certification remains true and accurate.

B. Certification Regarding Debarment, Suspension, and Other Responsibility Matters -- Primary Covered Transactions: Instructions for Certification

1. By signing and submitting this Application, the prospective primary participant (the Applicant) is providing the certification set out below.

2. The inability of an Applicant to provide the certification required below will not necessarily result in the denial of participation in this covered transaction. The prospective Applicant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with Treasury's approval of the proposed application. However, failure of the Applicant to furnish a certification or an explanation shall disqualify such person/entity from participation in this transaction.

3. This certification is a material representation of fact upon which reliance is placed when Treasury determines to enter into this transaction. If it is later determined that the Applicant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal government, Treasury may terminate this transaction for cause or default.

4. The Applicant shall provide immediate written notice to Treasury if at any time the Applicant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms "covered transactions," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal", and "voluntarily excluded," as used in this clause (certification), have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549. You may contact Treasury for assistance in obtaining a copy of those regulations (31 C.F.R. Part 19).

6. The Applicant agrees by submitting this Application that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by Treasury.

7. The Applicant further agrees by submitting this Application that it will not award any contract or subaward to any entity on the government-wide Excluded Parties List System (see 31 C.F.R. Part 19, Appendix).

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, Treasury may terminate this transaction for cause or default.

Treasury Office of Gulf Coast Restoration RESTORE Act Eligible Entity OPERATIONAL SELF-ASSESSMENT (OSA)

OSA Instructions

On July 6, 2012, the President signed the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012 (RESTORE Act) into law. The Act establishes a Trust Fund in the Treasury of the United States, known as the Gulf Coast Restoration Trust Fund. Under the Act, amounts in the Trust Fund are available for programs, projects, and activities that restore and protect the environment and economy of the Gulf Coast region. For the Direct Component and Centers of Excellence Research Grants Program, Treasury is responsible for determining eligibility and monitoring compliance with requirements in the RESTORE Act and other federal laws and policies on grants.

Treasury's RESTORE Act guidance requires that all eligible entities under the Direct Component and the Centers of Excellence Research Grants Program complete an Operational Self-Assessment (OSA) prior to receiving funding and once a year thereafter. The OSA focuses on operational internal control areas and will be used, in part, to assist Treasury in determining an appropriate compliance monitoring protocol. The OSA is not intended to provide guidance regarding compliance or audit requirements, but simply as a data gathering tool.

Please complete the OSA form electronically. Once you have entered the required information, please print the last page and have the OSA signed by the individual who has the authority to commit your organization to Treasury's grant management requirements. Please scan and include the signature pages with your electronic submission.

The completed OSA form should be submitted via email to restoreact@treasury.gov.

The OSA form contains three parts:

- Organization Contact information

Enter the required descriptive information about the recipient organization and identify the name, title and contact information of the individual who is responsible for completing this form. The contact person who completes the form may be different from the individual, described above, who has the authority to commit the organization to the requirements. Be sure to include the date on which the form was completed.

- Operational Self-Assessment Questions

The OSA questions are organized by the five components of internal control consistent with the Government Accountability Office (GAO) *Standards for Internal Control in the Federal Government* (known as the Green Book): control environment, risk assessment, control activities, information and communication, and monitoring.

Please click on the "Y" to answer Yes or the "N" to answer No for each question in the OSA. Provide any additional comments pertinent to your answers. The Comment spaces are set so that the text will wrap when you type.

- Certification of the Applicant's Authorized Representative

Identify the individual who has the authority to commit the organization to the Treasury's grant management requirements and who can certify the accuracy of the statements made in the form. As noted above, the signed certification page is required.
