The Cyber Security Evaluation Tool (CSET®) is a Department of Homeland Security (DHS) product that assists organizations in protecting their key national cyber assets. It was developed under the direction of the DHS National Cyber Security Division (NCSD) by cybersecurity experts and with assistance from the National Institute of Standards and Technology. This tool provides users with a systematic and repeatable approach for assessing the security posture of their cyber systems and networks. It includes both high-level and detailed questions related to all industrial control and IT systems.

Privacy Act Statement

Authority: 5 U.S.C. § 301 and 44 U.S.C. § 3101 authorize the collection of this information.

Purpose: The primary purpose for the collection of this information is to allow the Department of Homeland Security to contact you regarding your request.

Routine Uses: The information collected may be disclosed as generally permitted under 5 U.S.C. § 552a(b) of the Privacy Act of 1974, as amended. This includes using the information as necessary and authorized by the routine uses published in DHS/ALL-002 - Department of Homeland Security (DHS) Mailing and Other Lists System November 25, 2008, 73 FR 71659.

Disclosure: Providing this information is voluntary, however, failure to provide this information will prevent DHS from contacting you in the event there are questions regarding your request.
