Justification for Change Rail Carrier and Tank Car Tanks Requirements, Rail Tank Car Tanks - Transportation of Hazardous Materials by Rail 2137-0559

Request

PHMSA is updating the number of one time movement approvals (OTMAs) submitted to the Federal Railway Administration (FRA) in accordance with 49 CFR 174.50. Under this OMB control number, PHMSA has an information collection titled "Nonconforming bulk packages must be repaired or approved from movement by the FRA." After reviewing this information collection with FRA and based on the number of OTMAs received on an annual basis, PHMSA is requesting to increase the number of respondents and responses per carrier to more accurately reflect the current number of requests.

Background

Following discussions with FRA, PHMSA determined that the number of OTMAs that is current being reported in ROCIS is not an accurate representation of the actual information collection. PHMSA and FRA reviewed the historical data for OTMAs submitted to the FRA and identified that there are more applicants than previously reported.

Currently Approved for the adjusted information collection:

| | | | | | | <u>Total</u> | <u>Salar</u> | | |
|-----------------|--------------------|-----------------|----------------|---------------|---------------|--------------|--------------|---------------|---------------|
| | | <u>Number</u> | | <u>Number</u> | <u>Minute</u> | <u>Burd</u> | у | | |
