Hello, my name is $\qquad$ and I represent the Fisheries Research Group of QuanTech, Inc. We are interviewing boat captains and owners for a study sponsored by the National Marine Fisheries Service of the U.S. Department of Commerce. I'd like to ask you a few questions about your fishing.
a. On this vessel, are you the captain, owner, or mate or passenger (proxy designated by the captain to participate in this survey)?
$\checkmark$ Yes CONTINUE $\curvearrowright$ No TERMINATE AND TALLY
b. Did your boat just return from an offshore rod and reel or handline fishing trip in which you targeted large fish such as tunas, billfish, sharks, swordfish, dolphinfish, wahoo, amberjack, or other large pelagic fish?
$\bigcirc$ No TERMINATE AND TALLY

## PAPERWORK REDUCTION ACT AND PRIVACY ACT NOTICE:

A Federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with an information collection subject to the requirements of the Paperwork Reduction Act of 1995 unless the information collection has a currently valid OMB Control Number. The approved OMB Control Number for this information collection is 0648-0380. Without this approval, we could not conduct this survey. Public reporting for this information collection is estimated to be approximately 5 minutes per response for a dockside interview and 1 minute for a biological sampling of catch, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the information collection. All responses to this information collection are mandatory. Send comments regarding this burden estimate or any other aspect of this information collection, including suggestions for reducing this burden to the NOAA/NMFS, Fisheries Statistics Division (F/ST1), 1315 East-West Highway, Room 12359, Silver Spring, MD 20910.

Collection of information through the Large Pelagics Fishing Survey provides essential information for the conservation and management of Atlantic highly migratory species. Information on fish distribution and catch rates will be used for stock assessment and in developing management programs to enhance fishing opportunities. Reporting of fishing effort and catch of highly migratory species is required under the authority of the Atlantic Tunas Convention Act. Consistent with the Privacy Act, it is NOAA policy to preserve the confidentiality of information submitted under this reporting requirement, except that NMFS may release such information in aggregate or summary form, such that individual identifiers are not disclosed (NOAA 216-100).
