Form Approved  
OMB Control No. 0920-1193  
Exp. Date XX/XX/202X

**Thank you for participating in the survey!**

The Centers for Disease Control and Prevention's (CDC) Division of Cancer Prevention and Control (DCPC) funds the National Comprehensive Cancer Control Program (NCCCP). Through a cooperative agreement (DP18-1805), 2 organizations have been funded to provide training and technical assistance (TTA) to NCCCP grantees and partners, in order to increase their capacity to implement cancer control activities to comprehensively address all cancer types. DCPC is interested in assessing the reach, quality, and effectiveness of TTA provided by these 2 organizations. This survey is being administered to program directors and program managers of state-funded NCCCP grantees and other individuals involved with these programs (e.g., Comprehensive Cancer Control coalition members, partners). Your response to the survey will help CDC understand the reach of the TTA efforts, your experience with the TTA received, and your perceptions of the effectiveness of the TTA.

This survey is being administered by ICF, an independent consulting company, on behalf of CDC.

Please respond to the questions according to your individual experience. We expect this survey to take approximately 15 minutes to complete. Your responses to this survey will be kept private and stored and maintained by ICF, without any identifying information. Individually identifiable responses will not be provided to CDC staff, and only aggregated information will be reported. We are not aware of any risks associated with participating in this survey. Completion of this survey is voluntary. Choosing to not participate, or choosing to discontinue the survey will not result in any penalty. We encourage your participation, as your organization's experiences will help inform CDC's future efforts to build capacity among their funded programs. Completing this web-based survey will indicate your consent to participate.

If you have any questions about this survey, please contact Isabela Lucas at [isabela.lucas@icf.com](mailto:isabela.lucas@icf.com) or 404-434-3154.

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, GA 30333; ATTN: PRA 0920-1193.

**Section 2. Awareness of TTA services available**

The purpose of the following questions is to collect information on your awareness of TTA available from 2 NCCCP TTA providers. For the purpose of this survey, TTA refers to **any individualized OR broad-based educational, supportive activities or resource distribution that assist NCCCP grantees and partners with meeting program objectives, achieving program outcomes, and sustaining program progress and success.** Please consider only TTA provided by the following organizations under DP18-1805 cooperative agreement:

- American Cancer Society (ACS)
- George Washington Cancer Institute
