

Attachment A: Roundtable Protocol

The estimated time for the discussion portion of the meetings will be approximately two and half hours. Respondents will be informed that their participation is completely voluntary and that their information will be kept private and their responses will not be associated with individual names. This protocol is designed to hear directly from parents, providers, and employers to increase our understanding of what is needed to improve access to affordable, high-quality child care that meets the needs and preferences of families so they can work. While going a level deeper than the usual child care discussion, challenging common assumptions, and really listening to what parents, providers, and employers might want, these sessions will identify the kinds of practical barriers that will address needs while reducing costs.
