DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[OMB Control Number 1010-0081; Docket ID: BOEM-2017-0016]

Agency Information Collection Activities; Operations in the Outer Continental Shelf for Minerals Other than Oil, Gas and Sulfur

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Ocean Energy Management (BOEM) is proposing to renew an information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before July 31, 2020.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. You may find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function. Please provide a copy of your comments to Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166; or by email to anna.atkinson@boem.gov. Please reference OMB Control Number 1010-0081 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Anna Atkinson by email, or by telephone at 703-787-1025. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of the information collection requirements and minimize the public's reporting burden. It also helps the public understand BOEM's information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this proposed information collection request was published on January 29, 2020 (85 FR 5234). One comment was received, which focused

on banning lithium collection in the OCS. Such a ban is outside the scope of this ICR. Nonetheless, BOEM notes that there has been no competitive leasing in the OCS for minerals other than oil, gas, and sulfur; therefore, collection of lithium is not occurring in the OCS.

BOEM is again soliciting comments on the proposed ICR that is described below. BOEM is especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure this information will be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments that you submit in response to this notice are a matter of public record. You should be aware that your entire comment—including your address, phone number, email address, or other personal identifying information—may be made publicly available at any time. In order for BOEM to withhold from disclosure your personally identifiable information, you must identify any information contained in the submittal of your comments that, if released, would clearly constitute an unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequences of the disclosure of your information, such as embarrassment, injury, or other harm. While you can ask BOEM in your comment to withhold your personally identifiable information from public review, BOEM cannot guarantee that it will be able to do so.

BOEM protects proprietary information in accordance with the Freedom of Information Act (5 U.S.C. 552) and the Department of the Interior's implementing regulations (43 CFR part 2), and under applicable sections of 30 CFR parts 550 and 552 promulgated pursuant to Outer Continental Shelf Lands Act (OCSLA) at 43 U.S.C. 1352(c).

Abstract: The OCSLA (43 U.S.C. 1334 and 43 U.S.C. 1337(k)(1)) authorizes the Secretary of the Interior to issue regulations to grant to qualified persons who offer the highest cash bonus on a basis of competitive bidding, leases for any mineral other than oil, gas, and sulfur in any area of the OCS not then under lease for such mineral upon such royalty, rental, and other terms and conditions as the Secretary may

prescribe at the time of offering the area for lease.

Regulations at 30 CFR part 582 carry out these statutory requirements by regulating mining operations within the OCS for minerals other than oil, gas, and sulfur and establishing a comprehensive regulatory program for such minerals.

There has been no competitive leasing activity in the OCS for minerals other than oil, gas, and sulfur for many years. Accordingly, BOEM has not generally collected information under this Part of its regulations. However, since these are regulatory requirements, the potential exists for information to be collected. Therefore, we are renewing OMB approval for this information collection.

BOEM will use the information required by 30 CFR part 582 to determine if lessees are complying with the regulations for mining minerals other than oil, gas, sulfur. BOEM will also use the information to ensure that such operations are conducted in a manner that will result in orderly resource recovery and development; the protection of the human, marine, and coastal environments; and for technical and environmental evaluations which provide a basis for BOEM to make informed decisions to approve, disapprove, or require modification of the proposed activities.

Title of Collection: 30 CFR 582, Operations in the Outer Continental Shelf for Minerals Other than Oil, Gas, and Sulfur.

OMB Control Number: 1010-0081.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public:

Potential respondents are OCS lessees.

Total Estimated Number of Annual Responses: 20 responses.

Total Estimated Number of Annual Burden Hours: 212 hours.

Respondent's Obligation: Mandatory or voluntary.

Frequency of Collection: Monthly; quarterly; on occasion.

Total Estimated Annual Non-hour Burden Cost: None.

Estimated Reporting and Recordkeeping Hour Burden: We expect the burden estimate for the renewal will be 212 hours. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Chief, Office of Policy, Regulations, and Analysis.
