

The settlement resolves the alleged claims by requiring Drummond to, among other things: (1) Pay a civil penalty of \$775,000 for the past alleged violations to be split equally between the United States and JCBH; (2) undertake fixes to the Facility to address the alleged violations; (3) implement a leak detection and repair program to ensure compliance and reduce potential future fugitive benzene emissions; and (4) implement a supplemental environmental project of two years of semi-annual use of an infrared camera as part of leak detection efforts at a cost of \$16,000.

Notice of the lodging of the decree was originally published in the **Federal Register** on February 14, 2019. See 84 FR 4104 (February 14, 2019). The publication of the original notice opened a thirty (30) day period for public comment on the Decree. The public comment period was extended until June 17, 2019. 84 FR 9,560 (March 15, 2019); 84 FR 16,038 (April 17, 2019); 84 FR 22,168 (May 16, 2019). The publication of the present notice extends the period for public comment on the Decree to July 17, 2019.

Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States et al. v. Drummond Company, Inc. d/b/a ABC Coke*, D.J. Ref. No. 90-5-2-1-10717. All comments must be submitted no later than July 17, 2019. Comments may be submitted either by email or by mail:

<i>To submit comments:</i>	<i>Send them to:</i>
By email	<i>pubcomment-ees.enrd@usdoj.gov.</i>
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

During the public comment period, the Consent Decree may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. We will provide a paper copy of the Consent Decree upon written request and payment of reproduction costs. Please mail your request and payment to: Consent Decree Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044-7611.

Please enclose a check or money order for \$10.00 (25 cents per page

reproduction cost) payable to the United States Treasury.

Jeffrey Sands,

Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410-CW-P

DEPARTMENT OF JUSTICE

Office of Justice Programs

[OMB Number 1121-NEW]

Agency Information Collection Activities; Proposed eCollection eComments Requested; New Collection

AGENCY: Bureau of Justice Assistance, Office of Justice Programs, Department of Justice.

ACTION: 30-Day notice.

SUMMARY: The Department of Justice, Bureau of Justice Assistance, is submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

DATES: The Department of Justice encourages public comment and will accept input until July 17, 2019.

FOR FURTHER INFORMATION CONTACT: If you have additional comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Gregory Torain, Policy Advisor, Office of Justice Programs, Bureau of Justice Assistance, 810 Seventh Street NW, Washington, DC 20531, *Gregory.Torain@usdoj.gov*, 202-305-4485. Written comments and/or suggestions can also be sent to the Office of Management and Budget, Office of Information and Regulatory Affairs, Attention Department of Justice Desk Officer, Washington, DC 20503 or sent to *OIRA_submissions@omb.eop.gov*.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

—Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice

Assistance, including whether the information will have practical utility; —Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; —Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and —Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

1. *Type of Information Collection:* New collection.
2. *The Title of the Form/Collection:* Annual Treatment Court Survey Series.
3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The applicable component within the Department of Justice is the Bureau of Justice Assistance.
4. *Affected public who will be asked or required to respond, as well as a brief abstract:* The Local ATCS (N=4,172 courts), Tribal ATCS (N=117 courts), and State Coordinator (N=54 state/territory court coordinators) address the structure (e.g., funding, personnel, partnerships), operation (e.g., services offered, eligibility, decision making), and successes and challenges (e.g., adherence to or deviance from best practices; racial, ethnic, and gender disparity or equity). The purpose of the ATCS is to develop a current portrait of treatment courts including needs and emerging trends.
5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* Overall, the ATCS Series uses three national population frames, totaling 4,343 courts and offices for court administration. Data collection uses these full population frames; samples from these population frames are not created for collection purposes. The national population frame for the Local ATCS contains each of the treatment courts across the country (N=4,172) with one respondent from each court, and the tribal courts across the country constitute the population frame for the Tribal ATCS (N=117) with one respondent from each court. All state/territory court coordinators (N=54) comprise the population frame for the

State Coordinator ATCS. Estimated amounts of time to complete the surveys in the ATCS Series are 20 minutes for the State Coordinator ATCS, 35 minutes for the Local ATCSs, and 35 for the Tribal ATCS.

6. *An estimate of the total public burden (in hours) associated with the collection:* Using the maximum response rate of 100%, the total annual hours for the ATCS Series is approximately 2,502 hours across the 4,343 courts in the population frames. Specifically, total completion time of the State Coordinator ATCS is an estimated 18 hours (20 minutes for each of the 54 potential respondents); the Local ATCS's total completion time is estimated at 2,433.67 hours (35 minutes for each of the 4,172 potential courts). The total time to complete the Tribal ATCS across the tribal population frame is 68.25 hours (35 minutes for each of the 117 tribal courts).

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Dated: June 12, 2019.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410-18-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification of Application of Existing Mandatory Safety Standards

AGENCY: Mine Safety and Health Administration, Labor.

ACTION: Notice.

SUMMARY: This notice is a summary of petitions for modification submitted to the Mine Safety and Health Administration (MSHA) by the parties listed below.

DATES: All comments on the petitions must be received by MSHA's Office of Standards, Regulations, and Variances on or before July 17, 2019.

ADDRESSES: You may submit your comments, identified by "docket number" on the subject line, by any of the following methods:

1. *Electronic Mail:* zzMSHA-comments@dol.gov. Include the docket number of the petition in the subject line of the message.

2. *Facsimile:* 202-693-9441.

3. *Regular Mail or Hand Delivery:* MSHA, Office of Standards, Regulations, and Variances, 201 12th Street South, Suite 4E401, Arlington, Virginia 22202-5452, Attention: Sheila McConnell, Director, Office of Standards, Regulations, and Variances. Persons delivering documents are required to check in at the receptionist's desk in Suite 4E401. Individuals may inspect copies of the petition and comments during normal business hours at the address listed above.

MSHA will consider only comments postmarked by the U.S. Postal Service or proof of delivery from another delivery service such as UPS or Federal Express on or before the deadline for comments.

FOR FURTHER INFORMATION CONTACT: Barbara Barron, Office of Standards, Regulations, and Variances at 202-693-9447 (Voice), barron.barbara@dol.gov (Email), or 202-693-9441 (Facsimile). [These are not toll-free numbers.]

SUPPLEMENTARY INFORMATION: Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations Part 44 govern the application, processing, and disposition of petitions for modification.

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor (Secretary) determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. That the application of such standard to such mine will result in a diminution of safety to the miners in such mine.

In addition, the regulations at 30 CFR 44.10 and 44.11 establish the requirements and procedures for filing petitions for modification.

II. Petitions for Modification

Docket Number: M-2019-002-C.

Petitioner: Cumberland Contura, LLC, Three Gateway Center, Suite 1500, 401 Liberty Avenue, Pittsburgh, Pennsylvania 15222-1000.

Mine: Cumberland Mine, MSHA I.D. No. 36-05018, located in Greene County, Pennsylvania.

Regulation Affected: 30 CFR 75.500(d) (Permissible electric equipment).

Modification Request: The petitioner requests a modification of the existing

standard to permit an alternative method of compliance to allow the use of nonpermissible electronic surveying equipment including, but not limited to, portable battery-operated mine transits and total station surveying equipment, in or inby the last open crosscut.

The petitioner states that:

(1) To comply with requirements for mine ventilation maps and mine maps in 30 CFR 75.372 and 75.1200, use of the most practical and accurate surveying equipment is necessary.

(2) The Cumberland Mine utilizes the longwall method of mining. The panels it develops are approximately 12,000 to 15,000 feet in length.

(3) Accurate surveying is critical to the safety of the miners at the mine. A surveying error in a longwall panel could result in the need to remove or add longwall shields during the longwall retrieval process which would be very hazardous.

(4) Mechanical surveying equipment of acceptable quality is not commercially available and has been obsolete for a number of years. Such equipment is difficult, if not impossible, to be serviced or repaired.

(5) Nonpermissible electronic surveying equipment is, at a minimum, much more accurate than mechanical surveying equipment. To comply with Pennsylvania laws on the accuracy of surveying, it is necessary to use electronic surveying equipment.

(6) Application of the existing standard would result in a diminution of safety to miners. Underground mining by its nature, size and complexity of mine plans requires that accurate and precise measurements be completed in a prompt and efficient manner.

As an alternative to the existing standard, the petitioner proposes the following:

(a) The operator may use the following total stations and theodolites and similar low-voltage battery-operated total stations and theodolites with an ingress protection (IP) rating of 66 or greater in or inby the last open crosscut.

—Topcon GTS-233W 7.2V

—Topcon GTS-223 7.2V

—Topcon DT-205L 6.0V

—Topcon DT-102L 6.0V

—Topcon DT-205L 6.0V

(b) The nonpermissible electronic surveying equipment that will be used is low-voltage or battery-powered nonpermissible total stations and theodolites. All nonpermissible electronic total stations and theodolites will have an IP rating of 66 or greater.

(c) The operator will maintain a logbook for nonpermissible electronic
