[Docket No. DHS–2014–0011]

Privacy Act of 1974; Department of Homeland Security, Federal Emergency Management Agency—009 Hazard Mitigation, Disaster Public Assistance, and Disaster Loan Programs System of Records

AGENCY: Privacy Office, Department of Homeland Security.

ACTION: Notice of Privacy Act System of Records.

SUMMARY: In accordance with the Privacy Act of 1974, the Department of Homeland Security/Federal Emergency Management Agency proposes to consolidate a current system of records titled, “Department of Homeland Security/Federal Emergency

Management Agency—005 Temporary and Permanent Relocation and Personal and Real Property Acquisition and Relocation Files System of Records” (73 FR 77750, December 19, 2008) into the existing system of records titled, “Department of Homeland Security/Federal Emergency Management Agency—009 Hazard Mitigation Assistance Grant Programs System of Records” (77 FR 17783, July 23, 2012). The Department of Homeland Security/Federal Emergency Management Agency also proposes to update this system of records to include all disaster-related grant and loan programs including public assistance program, and rename the system of records as “Department of Homeland Security/Federal Emergency Management Agency—009 Hazard Mitigation, Disaster Public Assistance, and Disaster Loan Programs System of Records” to reflect the changes. The consolidated and updated system of records allows the Department of Homeland Security/Federal Emergency Management Agency to collect and maintain records from points of contact from states, tribes, local governments, and other entities applying for all grant money programs through the Federal Emergency Management Agency’s

public assistance grants program, disaster loan program, and the Hazard Mitigation Assistance grant programs. This system of records also allows information collection from individuals who may receive public assistance through these grants. This system of records notice includes personally identifiable information collected from individual property owners and/or occupants whose properties are identified in applications for public assistance, hazard mitigation assistance, and other disaster-related assistance or who have been identified by the Federal Emergency Management Agency as candidates for such assistance. The Federal Emergency Management Agency tracks the progress of the grants to the survivors, to ensure proper delivery of service, prevent duplication of benefits, and recoup any improper payment of public assistance funds. As a result of the review records have been updated within the: (1) System name; (2) system location; (3) categories of individuals; (4) categories of records; (5) authority for maintenance; (6) purpose; (7) routine uses; (8) retrievability; and (9) retention and disposal. Additionally, this notice includes non-substantive changes to simplify the formatting and text of the

previously published notice. This updated system will be included in the Department of Homeland Security's inventory of record systems.

DATES: Submit comments on or before April 23, 2014. This revised system will be effective April 23, 2014.

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS) Federal Emergency Management Agency (FEMA) proposes to consolidate, update, and rename a current system of records titled, "DHS/FEMA-009 Hazard Mitigation Assistance Grant Programs System of Records." As part of the Department's process for reviewing and streamlining compliance documentation and to increase transparency, DHS/FEMA is proposing to: (1) Consolidate the DHS/FEMA-005 Temporary and Permanent Relocation and Personal and Real Property Acquisition and Relocation Files System of Records into the DHS/FEMA-009 Hazard Mitigation Assistance Grant Programs System of Records in order to form one comprehensive system of records for the Hazard Mitigation Assistance (HMA) grant programs; (2) update the system of records to include all public assistance

and disaster grant and disaster loan programs as these involve the provision of FEMA assistance through state, local, tribal, or other entities, as well as the collection of similar information; and (3) rename the system of records notice to DHS/FEMA-009 Hazard Mitigation, Disaster Public Assistance, and Disaster Loan Programs System of Records.

In making these updates DHS/FEMA is updating the following sections of the systems of records notice: (1) System name, to reflect the addition of public assistance disaster grant and loan programs; (2) system location, to include the location of systems related to all public assistance disaster grant and loan programs; (3) categories of individuals, to include individuals that benefit from FEMA's disaster public assistance and disaster loan programs; (4) categories of records, to include data elements collected throughout the lifecycle of all disaster public assistance and disaster loan programs, including the appeals or arbitration process and other forms used by grantees, as well as responses related to customer service assessments that FEMA collects from a sample of public assistance recipients; (5) authority for maintenance, to include legal authorities to collect information under all disaster public assistance and loan programs and legal authorities related to FEMA's requirement to perform customer service assessments; (6) purpose, to include all disaster-related grant, loan, and public assistance programs to facilitate FEMA's efforts to assess the customer service it provides to those receiving FEMA assistance, to ensure proper delivery of service, to prevent duplication of benefits, and to recoup improper payment; (7) routine uses, to include additional routine uses for public assistance disaster grant and loan programs and to include information sharing with tribal entities and voluntary organizations; (8) retrievability, to add clarity and to include additional personal identifiers by which information may be retrieved; and (9) retention and disposal, to include retention schedules of all records collected through disaster-related grant, loan, and other public assistance programs, as well as retention schedules for the public assistance customer service assessments.

FEMA's mission includes preparing for, responding to, recovering from, and mitigating the nation from all hazards and disasters. To accomplish this, FEMA administers disaster-related grant, loan, and public assistance programs through state, local, tribal, or other entities, who in turn provide aid and assistance to citizens in need.

FEMA is consolidating all disaster-related grant, loan, and public assistance programs under one SORN because the assistance is administered in a similar manner. A point of contact (POC) from the state, local, tribal, or other entity typically collects the required information from the disaster survivor in order to provide assistance through these programs on behalf of FEMA. There may be some instances where FEMA collects the information required by a program directly from the disaster survivor; however, the assistance is provided in consultation with the state, local, tribal, or other entities. Regardless of the source of information, disaster survivor PII may be maintained by FEMA under this system of records to account for public assistance issued to the individual, prevent duplication of benefits, and recoup any improper payment of public assistance funds to the individual.

One of the disaster-related grant, loan, and public assistance programs administered through FEMA is the public assistance (PA) grant program. The PA program provides assistance to state, tribal, and local governments, and certain types of private nonprofit organizations in order for communities to quickly respond to and recover from presidentially-declared major disasters and/or emergencies. FEMA provides supplemental federal disaster grant assistance for activities such as debris removal, emergency protective measures, and the repair, replacement, or restoration of disaster-damaged, publicly owned facilities and the facilities of certain private non-profit (PNP) organizations through the PA program. The PA program also includes the Community Disaster Loan (CDL) program, which provides funds to any eligible local government in a designated disaster area that has suffered a substantial loss of tax or other revenue. The jurisdiction must first demonstrate a need for financial assistance to perform a governmental function.

FEMA has updated this system of records to include all disaster-related assistance programs, including the PA program because the administration of the grants program are similar to the administration of PA programs and because the information collection, maintenance, and uses are consistent with the HMA grant programs currently covered by DHS/FEMA-009. Inclusion of PA programs in this system of records does not impact or change how HMA information is collected and used.

FEMA HMA grant programs provide funding for eligible mitigation activities that reduce disaster losses, protect life

and property from future disaster damages, or that are in the best interest of the National Flood Insurance Fund. Through these assistance programs the HMA grant programs provide funds to eligible grantees to implement mitigation measures or determinations to reduce or eliminate the risk of future damage to life and property from hazards through state, local, tribal, or other entities. Many HMA grant programs provide funding for mitigation measures or determinations that impact property privately owned by individuals such as retrofitting structures, elevating structures, implementing structural flood control projects, and constructing safe rooms.

One of the mitigation activities administered under the HMA grant programs is the acquisition and demolition or relocation of qualified properties or structures. FEMA is consolidating and including these records in this updated system of records because they were previously covered by the DHS/FEMA-005 Temporary and Permanent Relocation and Personal and Real Property Acquisition and Relocation Files. In certain areas determined by FEMA to be at greater risk for disasters (i.e., flood plain), individual property owners can voluntarily apply for acquisition and demolition or relocation grant assistance through their local and state governments. Since the acquisition and relocation mitigation activity falls under the overall HMA grant programs, FEMA is consolidating and including this grant assistance program (previously covered by DHS/FEMA-005 Temporary and Permanent Relocation and Personal and Real Property Acquisition and Relocation Files System of Records) into this updated system of records.

Consistent with its mission, FEMA may conduct customer service assessments of PA recipients and collect feedback to determine effectiveness of the program and identify areas for improvement.

This consolidation and update does not impact the current PA grant or loan programs, HMA grant programs, or other disaster-related assistance program operations or the information collection that occur under the program. This consolidation is solely an effort to streamline FEMA's documentation and processes.

This consolidated and updated system will be included in DHS's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by

which federal government agencies collect, maintain, use, and disseminate individuals' records. The Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals when systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors.

Below is the description of the DHS/FEMA-009 Hazard Mitigation, Disaster Public Assistance, and Loan Programs System of Records.

SUPPLEMENTARY INFORMATION:

Public Participation and Request for Comments

This Notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). The ICR contains information describing the Collection's purpose, the Collection's likely burden on the affected public, an explanation of the necessity of the Collection, and other important information describing the Collection. There is one ICR for each Collection.

The Coast Guard invites comments on whether these ICRs should be granted based on the Collections being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collections; (2) the accuracy of the estimated burden of the Collections; (3) ways to enhance the quality, utility, and clarity of information subject to the Collections; and (4) ways to minimize the burden of the Collections on respondents, including the use of automated collection techniques or other forms of information technology. In response to your comments, we may revise these ICRs or decide not to seek approval of revisions of the Collections. We will consider all comments and material received during the comment period.

We encourage you to respond to this request by submitting comments and related materials. Comments must
