<p>The Integrated Postsecondary Education Data System (IPEDS) is a web-based data collection system designed to collect basic data from all postsecondary institutions in the United States and the other jurisdictions. IPEDS enables NCES to report on key dimensions of postsecondary education such as enrollments, degrees and other awards earned, tuition and fees, average net price, student financial aid, graduation rates, student outcomes, revenues and expenditures, faculty salaries, staff employed, and information on academic libraries. The IPEDS web-based data collection system was implemented in 2000-01. In 2017-18, IPEDS collected data from 6,642 postsecondary institutions in the United States and the other jurisdictions that are eligible to participate in Title IV Federal financial aid programs. All Title IV institutions are required to respond to IPEDS (Section 490 of the Higher Education Amendments of 1992 [P.L. 102-325]). IPEDS allows other (non-title IV) institutions to participate on a voluntary basis; approximately 200 non-title IV institutions elect to respond each year. IPEDS data are available to the public through the College Navigator and IPEDS Data Center websites. IPEDS 2019-22 annual data collection was approved by the Office of Management and Budget (OMB# 1850-0582 v.24) in August 2019 and had an update to the IPEDS Glossary based on a policy change from the Office of Postsecondary Education (OPE; OMB# 1850-0582 v.25). This change is to provide communication to institutions about changes to the reporting allowances due to institutional hardships during the COVID-19 pandemic and requests no changes to participant burden or cost to the federal government.</p>
