Class I Producer Quarterly Report

**Company Name:** 

**Reporting Period:** #NAME?

### Section 3: Shipment/Sales Data

Identify the recipient company(s) of the material produced for second party transformation, second party destruction, global lab, and/or other essential uses (EU), and the amount shipped to or purchased by each company during the quarter.

**Note:** Due to a potential time lag between the date of production and the date of shipment, it is recognized that for a given quarter the information in Section 3 may not match the information reported in Section 2 for second party transformation and second party destruction; however, it is expected that all material produced for second party transformation and second party destruction will eventually be shipped to a second party and must be reported as such in the applicable quarterly report.

If copying and pasting data into the table, please refer to the Reference List and the accompanying instructions.

As a reminder, a copy of the transformation verification, destruction verification, or essential use certification from each company for whom material was produced must be provided to EPA along with the submission of this report.
