

COVID-19 Exemption Request Form

By letter dated March 28, 2020, (ML20087P237), the NRC provided guidance to the industry for the regulatory basis, including the specific constraints, for requesting exemptions from the work hour controls specified in 10 CFR 26.205(d)(1)-(d)(70). Consistent with this regulation, and as detailed in the March 28, 2020, letter and its attachment, the NRC will expeditiously review requests from individual licensees for exemptions from the work hour controls specified in 10 CFR 26.205(d)(1)-(d)(70). If the licensee determines that it cannot meet these terms and condition or that it needs a different Part 26 exemption, then the licensee must seek separate NRC approval through the normal exemption process. This form is intended for use by power reactor licensees to request these exemptions.
