Instructions for Completion of the COVID-19 Patient Impact Module Form

Data Field	Instruction for Data Collection
Facility ID #	The NHSN-assigned facility ID will be auto-entered by the
	computer.
Summary Census ID #	Auto-generated by the computer.
Date for which patient counts are	Required. Select the date of which the data for the
reported	following questions was collected.
CENSUS: Inpatient census, specifically,	Required. Enter the total number of patients currently
current number of patients in all NHSN	hospitalized in all inpatient care locations in your acute-
inpatient care locations	care facility.
	A NHSN Inpatient Location is one in which at least 80% of the patients are admitted as inpatients to the hospital and whose admission and discharge days fall on two different calendar days.
BEDS: Inpatient beds in your hospital	Enter the total number of beds set up and staffed in all inpatient care locations. This includes all inpatient beds in the facility and any additional inpatient beds added specific to response efforts. The number of beds from your facility's most recent NHSN annual survey will auto-populate this field, please
LIOCDITALIZED D. I	change according to the current status of your facility.
HOSPITALIZED: Patients currently	Enter the number of patients currently hospitalized in an
hospitalized in an NHSN inpatient care location who have suspected or	NHSN inpatient location who have suspected or confirmed COVID-19. This includes the patients with
confirmed COVID-19	laboratory-confirmed or clinically diagnosed COVID-19.
	Confirmed: A patient with a laboratory-confirmed COVID-19 diagnosis
	Suspected: A patient without a laboratory confirmed COVID-19 diagnosis who has signs and symptoms compatible with COVID-19 (most patients with confirmed COVID-19 have developed fever and/or symptoms of acute respiratory illness, such as cough, difficulty breathing).
HOSPITALIZED and VENTILATED:	Enter the number of patients currently hospitalized in an
Patients currently hospitalized in an	NHSN inpatient care location who have suspected or
NHSN inpatient care location who have	confirmed COVID-19 and are currently on a mechanical
suspected or confirmed COVID-19 and	ventilator*. This includes the patients with laboratory-
are on a mechanical ventilator	confirmed or clinically diagnosed COVID-19.
	*Ventilator: Any device used to support, assist or control respiration (inclusive of the weaning period) through the
	application of positive pressure to the airway when
	delivered via an artificial airway, specifically an oral/nasal
	ashversa via an arahman ah vvay, specifically an oral/hasar

	endotracheal or tracheostomy tube. Note: Ventilation and lung expansion devices that deliver positive pressure to the airway (for example: CPAP, BiPAP, bi-level, IPPB and PEEP) via non-invasive means (for example: nasal prongs, nasal mask, full face mask, total mask, etc.) are not considered ventilators unless positive pressure is delivered via an artificial airway (oral/nasal endotracheal or tracheostomy tube).
HOSPITAL ONSET: Patients currently	Enter the number of patients currently hospitalized in an
hospitalized in an NHSN inpatient care	NHSN inpatient care location with onset of suspected or
location with onset of suspected or	confirmed COVID-19 fourteen or more days after
confirmed COVID-19 fourteen or more	hospitalization. This includes laboratory-confirmed or
days after hospitalization	clinically diagnosed COVID-19 cases.
ED/OVERFLOW: Patients with suspected	Enter the number of patients with suspected or
or confirmed COVID-19 who are	confirmed COVID-19 who are currently in the ED or any
currently in the ED or any overflow	overflow location awaiting placement in an inpatient bed.
location awaiting an inpatient bed	This includes patients with laboratory-confirmed or
	clinically diagnosed COVID-19. Overflow locations include
	any physical locations created to accommodate patients,
	include but not limited to 24-hour observation units,
	hallways, parking lots, or tents.
ED/OVERFLOW and VENTILATED:	Enter the number of patients with suspected or
Patients with suspected or confirmed	confirmed COVID-19 who are currently in the ED or any
COVID-19 who are currently in the ED or	overflow location on a mechanical ventilator*. This
any overflow location awaiting an	includes patients with laboratory-confirmed or clinically
inpatient bed and on a mechanical	diagnosed COVID-19.
ventilator	*Ventilator: Any device used to support, assist or control
	respiration (inclusive of the weaning period) through the
	application of positive pressure to the airway when
	delivered via an artificial airway, specifically an oral/nasal endotracheal or tracheostomy tube.
	Note: Ventilation and lung expansion devices that deliver
	positive pressure to the airway (for example: CPAP, Bipap,
	bi-level, IPPB and PEEP) via non-invasive means (for
	example: nasal prongs, nasal mask, full face mask, total
	mask, etc.) are not considered ventilators unless positive
	pressure is delivered via an artificial airway (oral/nasal
	endotracheal or tracheostomy tube).
DEATHS: Patients with suspected or	Enter the number of patients with suspected or
confirmed COVID-19 who died in the	confirmed COVID-19 who died in the hospital, ED, or any
hospital, ED, or any overflow location	overflow location. This includes patients with laboratory-
	confirmed or clinically diagnosed COVID-19. Please enter
	the count of death newly occurred, instead of cumulated
	number.
