Submission Date: May 7, 2020

The Centers for Disease Control and Prevention (CDC), Division of Healthcare Quality Promotion (DHQP) requests a nonmaterial/non-substantive of the currently approved Information Collection Request: “National Healthcare Safety Network (NHSN) Patient Impact Module for Coronavirus (COVID-19) Surveillance in Healthcare Facilities (OMB Control No. 0920-1290).”

This Change Request is submitted to include two additional revised versions of the following Instructions documents:

- 1) Instructions for Completion of the COVID-19 Long-term Care Facility (LTCF): Resident Impact and Facility Capacity Form (CDC 57.144)
- 2) Instructions for Completion of the COVID-19 Long-term Care Facility (LTCF): Staff and Personnel Impact Form (CDC 57.145)

Revisions contain a revised narrative that describes reporting requirements.

The burden associated with the retrospective data entry was increased as a result of the following modifications:

- 1) Burden required for NHSN enrollment
- 2) Burden required to find RETROSPECTIVE records related to:
 - a. Staff and Personnel Impact
 - b. Resident Impact / Facility Capacity
- 3) Burden required to enter RETROSPECTIVE data into NHSN via the calendaring function
