

Cyclosporinasis National Hypothesis Generating Questionnaire (CNHGG)

Form Approved
OMB No. 0920-1198
Exp. Date 09/30/2020

Dear Interviewer,

Thank you for using the Cyclosporinasis National Hypothesis Generating Questionnaire (CNHGG). Before the survey questions begin you will be asked to classify the case based on the CDC case definition, provide laboratory information, and provide information about yourself (the interviewer) and whether the case-patient has been previously interviewed about his/her illness. PLEASE NOTE: if you elect to save and "Finish later" and then "Exit Survey", you must use the URL and passcode provided to re-enter the survey. Do not click "Begin Survey" on the survey homepage as this will begin an entirely new survey and you will not see any previously recorded responses.

To obtain a PDF of your survey responses press "Print" before "Submit Survey" on the last page. To obtain an Excel line list for all case data entered year-to-date, please email cyclosporin@cdc.gov.

For technical assistance with this survey please contact the Cyclosporinasis Surveillance Coordinator at cyclosporin@cdc.gov or (404) 718-1422.

Thank you for your participation in this cyclosporinasis investigation.

Public reporting of this collection of information is estimated to average 45 minutes per response, including the time for reviewing instructions and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Reports Clearance Officer, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0920-1198).

Begin Interview

Hello, my name is [state interviewer name]. I am from [Interviewer Health Department]. We are contacting you because of your (your child's) recent infection with Cyclospora, which is a parasite that causes intestinal illness. We are trying to determine how people become infected with Cyclospora so we can prevent others from getting sick.

You may have already been contacted by someone at the health department, but I would like to ask you questions in a standard way about your (your child's) illness, and about any travel you may have had or foods you may have eaten before becoming ill. The interview will take about 21 minutes. Your help in the investigation is very important. Your participation is voluntary, and you may refuse to answer any question at any time. All information you give will be kept confidential to the extent permitted by law. No individual names or other identifying information will be used in any official reports about the results of the investigation.

Are you willing to participate in this investigation?

If yes: The questions relate to the 14-day period before you (your child) became ill. Therefore, it may help to have a calendar, recent restaurant and grocery store receipts, or credit card statements nearby. Do you need a few moments to get this information? [Then proceed to start of interview]

If no: Thank you for your time.

Section 1: Demographic data

I'd like to begin by asking a few demographic questions.

1. State: 2. County: 3. Zip Code:

4. Date of birth: 5. Age 6. Sex

Section 3: Travel, events, and ill contacts (Continued from previous page.)

16. During the 14 days before onset of illness, did you (your child) attend any events where fresh food was served (e.g., parties, fairs, concerts, tournaments, conventions)?

16a. Please list the name of the event(s), date(s), and location(s).

17. Do you know of any other persons(s) (e.g., a family member, friend, travel companion, co-worker, neighbor, church/temple/mosque member, health club or other club member) who has been sick recently with a similar illness?

17a. If yes/maybe, specify if you (your child) and the ill person(s):

Live in same household Attended same event Traveled together

Other, specify:

17b. If yes, please provide information for other ill person(s) including number of ill persons and relationship to you (e.g. son, mother, neighbor, friend, etc.)*

***Note: Please include the STATE ID of the ill contact(s), if available/applicable. (DO NOT enter names or other personally identifiable information.)**

***Note to Interviewer**

To help determine if the interviewee meets the case definition, did the interviewee report international travel outside the U.S. or Canada during the 14 days before onset of illness?

If yes, thank the interviewee for his/her time and end the interview. Skip to page 17 to complete the questionnaire.

If no, continue with interview on the next page.

Section 4: Sources of produce at home

Now I have some questions about where the fresh produce came from that you ate at home during the 14 days before your illness began. This isn't necessarily where you shopped during that 14-day period, but where the produce you ate came from. I'm going to list several types of stores; for each type, please tell me the names of each store from which you would have eaten food from during the 14 days before you became sick. Please refer to your grocery store receipts or credit card statements to provide a more detailed description.

18. Did you (your child) eat foods from: grocery stores or supermarkets, warehouse stores, small markets (such as gas stations), ethnic specialty markets, health food stores, co-ops, fish or meat specialty shops, farmer's markets or food directly from a farm, home delivery grocery services (e.g., CSA, Amazon Fresh), meal delivery services (e.g., Blue Apron, Meals on Wheels), or any other sources?

Store Name	Address	City	State	Zip Code	Date shopped	Food purchased	*Shopper card #

*By giving your shopper card number, you are permitting retrieval of information regarding your purchases. This information may be shared with other public health officials to help with outbreak investigations.

 (refused to give shopper card #)

Section 5: Sources of produce outside the home

Now I have a few questions about where you ate produce outside your home, such as at restaurants or fast food chains, during the 14 days before your illness began.
