<sup>1</sup> **Federal Insurance Contributions Act (FICA) tax** is a U.S. federal payroll tax imposed on both employees and employers to fund Social Security and Medicare programs.

<sup>2</sup> **State Unemployment Tax Authority (SUTA)** is a form of payroll tax that all states require employers to pay for their employees.

<sup>3</sup> **Medicare** withholding is a payroll tax used to fund Medicare, which is part of the Social Security program. Employers withhold Medicare tax money from all employee wages and send it to the Internal Revenue Service. The tax amount withheld is noted on payroll stubs and end-of-year tax documents.

<sup>4</sup> **Workers' Compensation Insurance** is a requirement for all employers that have more than one employee. It is a no-fault system under which injured employees receive benefits in connection with work-related injuries or occupational illness. It is paid entirely by the employer. No payroll deductions are taken out of individual employees' paychecks.

<sup>5</sup> **Retirement** can include pension plans, Individual Retirement Accounts (IRA), 401K or other retirement plans wherein the employee contributes to the plan and the employer contributes a specific percentage in addition to the employee.
