STREAMS

Adult Second Follow Up Survey

CONTENTS

CAWI Intro. The STREAMS evaluation is a study sponsored by the Administration for Children and Families within the U.S. Department of Health and Human Services. The goal of the study is to identify and evaluate strategies for improving the delivery and effectiveness of healthy marriage and relationship education programs. This study will provide us with important information that will help create better programs.

The U.S. Department of Health and Human services has contracted with Mathematica Policy Research to work with STREAMS programs to run the study. As part of the study, we are asking you to complete a short survey, this survey is similar to the other surveys that you may have taken as part of the STREAMS evaluation over the last few years. It covers several topics, including your relationships with romantic partners, your living arrangements, how your children are doing, and how you are generally feeling about yourself.

Individual responses will not be matched with specific individuals. Responses to this data collection will be used only for the purposes of the study. The reports prepared from this survey will summarize findings across all study participants and individual information will not be available to anyone outside the study team, except as required by law.

The survey should take around 45 minutes to complete. To thank you, we will send you a gift card worth $50. The card can be used anywhere that a credit or debit card can be used.

If you have any questions, please contact us by phone at 1-844-673-0199 and ask for Sam Taylor or by e-mail at STREAMSSurvey@mathematica-mpr.com.

How to complete the survey

Thank you for taking the time to complete this survey.

- There are no right or wrong answers.

- To answer a question, click the box to choose your response.

- To continue to the next webpage, press the **"Next"** or **"Continue"** button.

- To go back to the previous webpage, click the **"Back"** or **"Previous"** button. Please note that this command is only available in certain sections.

- If you need to stop before you have finished, the "Suspend" button at the bottom of each page allows you to exit the survey. The data you provide prior to clicking "Suspend" will be securely stored and available when you return to complete the survey.

- Please answer questions in the order they appear regardless of the question number. **Questions will not always be numbered sequentially**, and some may be skipped because they do not apply to you.

- **Select "next" to begin the survey.**

A. CONSENT AND VERIFICATION

ALL

A1. CATI **You may have received a letter recently to let you know that we would be calling you for a follow-up interview for our study. I'd like to interview you today.**

The interview will take about 45 minutes and you will receive $50 for completing the interview. Your participation in the survey is voluntary. You do not have to answer any questions that make you uncomfortable.

We are conducting this survey for the U.S. Department of Health and Human Services. A federal agency may not conduct or sponsor a collection of information unless it has a currently valid OMB control number. The OMB number for this information collection is 0970-XXXX and the expiration date is [FILL WITH EXP DATE FOR NEW CLEARANCE].

> **To help us protect your privacy, we have obtained a Certificate of Confidentiality from the National Institutes of Health. With this Certificate, the researchers cannot be forced to disclose information that may identify you, even by a court subpoena, in any federal, state, local, civil, criminal, legislative, administrative, or other proceedings. The researchers will use the Certificate to resist any demands for information that would identify you, with one exception.**

> **The Certificate of Confidentiality does not prevent the researchers from disclosing information that would identify you as a participant in the research project if you tell me anything that suggests you are very likely to harm yourself, that you are planning to hurt another person or child, or that someone is likely to harm you.**

> **You should understand that a Certificate of Confidentiality does not prevent you, or a member of your family, from voluntarily releasing information about you or your involvement in this research. If an insurer, employer or other person obtains your written consent to receive research information, then the researchers may not use the Certificate to withhold that information.**

Because we want to get your opinion, it is important that you answer the questions without help from anyone else. Of course, you can share what you said with others after we have completed the interview.

This interview may be recorded so my supervisor can monitor the interview and make sure that the questions are asked correctly. These recordings will be destroyed when the study is completed.

Is now a good time to start?
