

The above information, in combination with State-required guide activity reports and contacts with guides and clients in the field, provides a comprehensive method for monitoring permitted commercial guide activities. A regular program of client evaluation helps refuge managers detect potential problems with guide services so that we can take corrective actions promptly. In addition, we use this information during the competitive selection process for big game and sport fishing guide permits to evaluate an applicant's ability to provide a quality guiding service.

The Service plans to review the current evaluation form to identify ways to improve the information collected to:

- Provide more quantifiable and defensible data;
- Provide statistical data for each completed and submitted form;
- Provide more quantifiable rather than qualitative information;
- Translate the client responses into useful information in order for refuge management to make informed decisions.

The Service plans to submit the updated evaluation form to OMB for approval to pre-test under the Department of the Interior Programmatic Clearance (OMB Control No. 1040-0001). After conclusion of the pre-testing during the calendar year 2020 Alaska guide season, the final evaluation form will be submitted to OMB for approval under this collection for full deployment prior to the calendar year 2021 Alaska guide season.

*Abstract:* A modern, streamlined and responsive customer experience means: Raising government-wide customer experience to the average of the private sector service industry; developing indicators for high-impact Federal programs to monitor progress towards excellent customer experience and mature digital services; and providing

the structure (including increasing transparency) and resources to ensure customer experience is a focal point for agency leadership.

This proposed information collection activity provides a means to garner customer and stakeholder feedback in an efficient, timely manner in accordance with the Administration's commitment to improving customer service delivery as discussed in Section 280 of OMB Circular A-11 at <https://www.whitehouse.gov/wp-content/uploads/2018/06/s280.pdf>.

As discussed in OMB guidance, agencies should identify their highest-impact customer journeys (using customer volume, annual program cost, and/or knowledge of customer priority as weighting factors) and select touchpoints/transactions within those journeys to collect feedback.

These results will be used to improve the delivery of Federal services and programs. It will also provide government-wide data on customer experience that can be displayed on [www.performance.gov](http://www.performance.gov) to help build transparency and accountability of Federal programs to the customers they serve.

As a general matter, these information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

The Department of the Interior will only submit collections if they meet the following criteria.

- The collections are voluntary;
  - The collections are low-burden for respondents (based on considerations of total burden hours or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
  - The collections are non-controversial and do not raise issues of concern to other Federal agencies;
  - Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
  - Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
  - Information gathered is intended to be used for general service improvement and program management purposes;
  - Upon agreement between OMB and the agency, all or a subset of information may be released as part of A-11, Section 280 requirements on [performance.gov](http://www.performance.gov).
- Summaries of customer research and

user testing activities may be included in public-facing customer journey maps;

- Additional release of data must be done in coordination with OMB.

These collections will allow for ongoing, collaborative and actionable communications between the Agency, its customers and stakeholders, and OMB as it monitors agency compliance on Section 280. These responses will inform efforts to improve or maintain the quality of service offered to the public. If this information is not collected, vital feedback from customers and stakeholders on services will be unavailable.

*Title of Collection:* Improving Customer Experience (OMB Circular A-11, Section 280 Implementation).

*OMB Control Number:* 1090-NEW.

*Form Number:* None.

*Type of Review:* New.

*Respondents/Affected Public:* Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.

*Total Estimated Number of Annual Respondents:* 146,384.
