The National Teacher and Principal Survey (NTPS), conducted every two to three years by the National Center for Education Statistics (NCES), is a system of related questionnaires that provides descriptive data on the context of elementary and secondary education. Redesigned from the Schools and Staffing Survey (SASS) with a focus on flexibility, timeliness, and integration with other ED data, the NTPS system allows for school, principal, and teacher characteristics to be analyzed in relation to one another. NTPS is an in-depth, nationally representative survey of first through twelfth grade public and private school teachers, principals, and schools. Kindergarten teachers in schools with at least a first grade are also surveyed. NTPS utilizes core content and a series of rotating modules to allow timely collection of important education trends as well as trend analysis. Topics covered include characteristics of teachers, principals, schools, teacher training opportunities, retention, retirement, hiring, and shortages. The NTPS 2019-20 preliminary activities were approved in July 2019, with a change request approved in November 2019 (OMB# 1850-0598 v.26-27). OMB approved the main study for 2020-21 in March 2020 (OMB# 1850-0598 v.28-30). In December 2019, NCES received OMB approval (OMB#1850-0803 v. 259) for cognitive interviews to test new and revised items about virtual schools and online course offerings in the NTPS School Questionnaire. Questions about virtual schools and online course offerings were revised, based on the results of this cognitive testing. This testing occurred in the winter and spring of 2020. During the end of this testing window, in March 2020, it became clear that questions needed to distinguish between typical practices (the intent of these questions) and changes implemented by schools due to the coronavirus (COVID-19). This request makes minor corrections to the questionnaire items related to COVID-19. In addition, data collection procedures were simplified under the assumption that schools may be open to school staff later in the 2020-21 school year than otherwise planned due to COVID-19, or that schools may be adapting to new logistics. These changes do not affect the cost to the government or participant burden.
