

Your travel experiences are important.

U.S. Department
of Transportation

The **National Household Travel Survey** is conducted every 5-7 years to help us understand the transportation needs in communities across the country.

About a week ago, we sent you a letter asking for your help with this important survey. If you have already responded, **thank you!** If not, there's still time. Sharing your travel experiences will help shape the direction of future transportation improvements.

To get started, please complete and mail back the brief survey from the package that we sent you last week. We will then ask your household to record their travel for a single day. No matter how much or how little you travel, your experiences are important.

If you did not receive a package, or if you have other questions about the survey, please visit our website at www.NationalHouseholdTravelSurvey.com or call us at 1-855-350-NHTS (6487).

Para obtener más información sobre este estudio, por favor visite nuestro sitio web en www.NationalHouseholdTravelSurvey.com/Spanish.
