Mobile Broadband Subscription - Interactive Data Entry

For each state in which you have mobile broadband subscribers in service and for each service offering you sell, enter the total number of connections and the number of connections you provide to consumers. Rows must be unique by state and service offering (the Minimum Downstream Bandwidth and Minimum Upstream Bandwidth together uniquely define a service offering).

- Include connections where the device and subscription permit the subscriber to access the lawful Internet content of his/her choice at information transfer rates exceeding 200 kbps in at least one direction.
• Include directly-billed subscribers, prepaid subscribers, and subscribers served via resellers.
• Exclude connections where the subscriber's choice of content is restricted to only customized-for-mobile content.
• Exclude connections where the subscription does not include, either in a bundle or as a feature added to a voice subscription, a data plan providing the ability to transfer, on a monthly basis, either a specified or an unlimited amount of data to and from the Internet.
