U.S. PRODUCERS' QUESTIONNAIRE

DIFLUOROMETHANE (R-32) FROM CHINA

This questionnaire must be received by the Commission by November 6, 2020

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its antidumping investigation concerning difluoromethane ("R-32") from China (Inv. No. 731-TA-1472 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

PART I.—GENERAL INFORMATION

<u>Background</u>.-- This proceeding was instituted in response to a petition filed on January 23, 2020, by Arkema Inc., King of Prussia, Pennsylvania. Antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2020/difluoromethane r 32 china/final.htm.

<u>Difluoromethane ("R-32")</u> covered by this investigation is difluoromethane ("R-32") or its chemical equivalent, regardless of form, type or purity level. R-32 has the Chemical Abstracts Service ("CAS") registry number of 75-10-5 and the chemical formula CH_2F_2 . R-32 is also referred to as difluoromethane, HFC-32, FC-32, Freon-32, methylene difluoride, methylene fluoride, carbon fluoride hydride, halocarbon R32, fluorocarbon R32, and UN 3252.

Subject merchandise also includes R-32 and unpurified R-32 that are processed in a third country or the United States, including, but not limited to, purifying or any other processing that would not otherwise remove the merchandise from the scope of this investigation if performed in the country of manufacture of the in-scope R-32. R-32 that has been blended with products other than pentafluoroethane (R-125) is included within this scope if such blends contain 85% or more by volume on an actual percentage basis of R-32. In addition, R-32 that has been blended with any amount of R-125 is included within this scope if such blends contain more than 52% by volume on an actual percentage basis ofR-32. Whether R-32 is blended with R-125 or other products, only the R-32 component of the mixture is covered by the scope of these orders. The scope also includes R-32 that is commingled with R-32 from sources not subject to this investigation. Only the subject component of such commingled products is covered by the scope of this order.

Excluded is merchandise covered by the scope of the antidumping order on Hydrofluorocarbon Blends from the People's Republic of China. See Hydrofluorocarbon Blends from the People's Republic of China, 81 Fed. Reg. 55436 (Aug. 19, 2016).

R-32 is currently imported under statistical reporting number 2903.39.2035 of the Harmonized Tariff Schedule of the United States (HTSUS). It may also be imported under HTSUS statistical reporting numbers 2903.39.2045 or 3824.78.0020. The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

<u>D-GRIDS tool.</u>--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

I-1a. OMB statistics.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 50 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

II-6.	Foreign	trade	zones

(a) <u>Firm's FTZ operations</u>.--Does your firm produce R-32 in and/or admit R-32 into a foreign trade zone (FTZ)?

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise. A foreign trade zone must be designated as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

No	If yesDescribe the nature of your firms operations in FTZs and identify the specific FTZ site(s).

(b) Other firms' FTZ operations.--To your knowledge, do any firms in the United States import R-32 into a foreign trade zone (FTZ) for use in distribution of R-32 and/or the production of downstream articles?

No	Yes	If yesIdentify the firms and the FTZs.

- II-7. <u>Production, shipment, and inventory data</u>.--Report your firm's production capacity, production, shipments, and inventories related to the production of R-32 in its U.S. establishment(s) during the specified periods.
 - "Average production capacity" or "capacity" The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).
 - "**Production**" All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.
 - **"U.S. shipments"** –Shipments made within the U.S., either as a result of an arm's length commercial transaction (see "commercial shipments"), consumed internally by your firm (see "internal consumption"), or shipments made to any related U.S. firms (see "transfers to related firms")
 - "Commercial shipments" –Shipments made as a result of an arm's length commercial transaction in the ordinary course of business. Report <u>net values</u> (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.
 - "Internal consumption" Product consumed internally by your firm. Such transactions are valued at fair market value.
 - "Transfers to related firms" Shipments made to related firms. Such transactions are valued at fair market value.
 - "Swaps" Shipments made commercially in arms-length transactions that involve, at least in part, non-monetary "in kind" transfer of product.
 - "Related firm" —A firm that your firm solely or jointly owned, managed, or otherwise controlled; a firm that solely or jointly owned, managed, or otherwise controlled your firm; and/or a firm that was solely or jointly owned, managed, or otherwise controlled by a firm that also solely or jointly owned, managed, or otherwise controlled your firm.
 - "Export shipments" Shipments to destinations outside the United States.
 - "Inventories" Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

<u>RECONCILIATION OF SHIPMENTS, PRODUCTION, AND INVENTORY.</u>--Generally, the data reported for the end-of-period inventories (i.e., line R) should be equal to the beginning-of-period inventories (i.e., line B), plus production (i.e., line C), less total shipments (i.e., lines D, F, H, J, L, N, and P). Please ensure that any differences are not due to data entry errors in completing this form, but rather reflect your firm's actual records; and, also provide explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

Explanation of trends:

II-9. <u>Employment data</u>.--Report your firm's employment-related data related to the production of R-32 and provide an explanation for any trends in these data.

"Production and Related Workers" (PRWs) includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations. Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12. For the January to September periods, calculate similarly and divide by 9.

If your firm had the same number of PRWs in all calendar years and had not experienced any changes in PRWs in the most recent interim period, you would have the same number of PRWs for the interim periods, regardless of whether the interim periods are Jan-Mar (Q1), Jan-June (Q1+Q2), or Jan-Sept (Q1+Q2+Q3)."

"Hours worked" includes time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight time hours.

"Wages paid" – Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

II-10.	Related firms.—If your firm reported transfers to related firms in question II-7, please identify the firm(s) and indicate the nature of the relationship between your firm and the related firms (e.g., joint venture, wholly owned subsidiary), whether the transfers were priced at market value or by a non-market formula, whether your firm retained marketing rights to all transfers, and whether the related firms also processed inputs from sources other than your firm.

III-3b. <u>Allocation basis</u> Briefly describe your firm's allocation basis, if any, for COGS, SG&A, interest expense and other income and expenses.		
III-4a.	<u>Swap accounting.</u> —From the perspective of revenue and cost, please describe the company's routine accounting treatment of R-32 swaps. As applicable, please describe how the company's routine accounting treatment differs from the manner in which swaps are reported in tables III-9a and III-9c.	
	Please identify the counterparties to R-32 swap arrangements during the period examined, components exchanged for R-32, and relevant swap ratios.	
	Please describe the underlying basis of the swap ratio; e.g., does it represent a physical relationship (storage-related or otherwise) that is essentially static? With respect to swap negotiations, please identify the factor (swap ratio or value) that is most subject to change in negotiation and why that is the case.	
III-4b.	Swap transactions and related activityPlease provide a general description of how swap activity is routinely conducted between the company and its swap partner; e.g., the determination of volume to be shipped, logistics, and reconciliation of swap obligations. In your response, please describe the extent to which swaps are evenly distributed and equal throughout a given period or whether swap volumes in the short run are unequal. How are differences in the partners' swap volume (given/received) accounted for and how are these differences generally resolved over longer periods?	

III-4c.	Swap volume and out-of-swap volumePlease describe the extent to which period-specific volumes for swap transactions and out-of-swap transactions are predetermined, the presence of swap volume thresholds beyond which relevant swap values and/or ratios change, and impact, if any, on reported pattern of swap and out-of-swap volume during the period examined.					
	Please describe how out-of-swap sales fit into the overall swap agreement and the circumstances when out-of-swap transactions generally take place.					
III-4d.	<u>Swap value</u> Please confirm that R-32 swap values reported in tables III-9a and III-9c represent fair market value. Please provide a general description of swap valuation basis.					
III-4e.	Out-of-swap valuePlease describe the valuation basis of out-of-swap sales and how this value was determined in the swap agreement.					
III-4f.	<u>Changes in swap agreement.</u> Please describe the extent to which relevant swap ratios and/or other important aspects of swap arrangements changed during the period examined and the reason for the changes.					
III-4g.	<u>Basis of renegotiation of swap values and/or swap ratios.</u> In the recent past to include the period examined, has your swap partner agreed to increase the HFC component amount swapped for R-32 and/or the assigned R-32 value? If so, please describe the circumstances.					

III-5.	Product listing Please list the products your firm produced in the facilities in which your firm
	produced R-32 and provide the share of net sales accounted for by these products in your firm's
	most recent fiscal year.

III-6.	Inputs from related suppliers Does your firm purchase inputs (raw materials, labor, energy, or
	any services) used in the production of R-32 from any related suppliers (e.g., inclusive of
	transactions between related firms, divisions and/or other components within the same
	company)?

YesContinue to question III-7	No—Skip to question III-9a.

III-7. Inputs from related suppliers detailed.--Please identify the inputs used in the production of R-32 that your firm purchases from related suppliers and that are reflected in question III-9a. For "Share of total COGS" please report this information by relevant input on the basis of your most recently completed fiscal year. For "Input valuation" please describe the basis, as recorded in your company's own accounting system, of the purchase cost from the related supplier; e.g., the related supplier's actual cost, cost plus, negotiated transfer price to approximate fair market value.

III-8. <u>Inputs purchased from related suppliers.</u>--Please confirm that the inputs purchased from related suppliers, as identified in III-7, are reported in III-9a, III-9b, and III-9c in a manner consistent with your firm's accounting books and records.

Yes	If noIn the space below, please report the valuation basis of inputs purchased from related suppliers as reported in III-9a, III-9b, and III-9c.

III-9a. Overall operations on R-32.--Report the revenue and related cost information requested below on the R-32 operations of your firm's U.S. establishment(s). Do not report resales of products. Note that transfers to related firms, internal consumption, and swaps (R-32 given up in exchange for another HFC component and reported in the revenue section of this table) must be valued at fair market value. Input purchases from related suppliers should be consistent with and based on information in the firm's accounting books and records. Provide data for your firm's three most recently completed fiscal years and specified interim periods.

	are reported in question III-9a, III-9b, and III-9c, respectively.

III-12a. <u>Asset values</u>.--Report the <u>total</u> assets (i.e., both current and non-current assets) associated with the production, warehousing, and sale of R-32. If your firm does not maintain some or all of the specific asset information necessary to calculate total assets for R-32 in the normal course of business, please estimate this information based upon a method (such as production, sales, or costs) that is consistent with relevant cost allocations in question III-9a. Provide data as of the end of your firm's three most recently completed fiscal years.

Note: Total assets should reflect <u>net assets</u> after any accumulated depreciation and allowances deducted.

Total assets should be <u>allocated to R-32 operations</u> if these assets are also related to other products. As reported in table III-12, please provide a <u>brief explanation if there are any substantial changes</u> in total asset value during the period; e.g., due to asset write-offs, revaluation, and major purchases.
