U.S. PRODUCERS' QUESTIONNAIRE

UTILITY SCALE WIND TOWERS FROM INDIA, MALAYSIA, AND SPAIN

This questionnaire must be received by the Commission by October 14, 2020

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping investigations concerning utility scale wind towers ("wind towers") from India, Malaysia, and Spain (Inv. Nos. 701-TA-660-661 and 731-TA-1543-1545 (Preliminary)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

PART I.—GENERAL INFORMATION

Background.--This proceeding was instituted in response to petitions filed on September 30, 2020, by the Wind Tower Trade Coalition (Arcosa Wind Towers Inc. (Dallas, Texas) and Broadwind Towers, Inc. (Manitowoc, Wisconsin)). Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at

https://usitc.gov/investigations/701731/2020/utility scale wind towers india malaysia and spain/preliminary.htm.

<u>Wind towers</u> covered by these investigations is certain wind towers, whether or not tapered, and sections thereof. Certain wind towers support the nacelle and rotor blades in a wind turbine with a minimum rated electrical power generation capacity in excess of 100 kilowatts and with a minimum height of 50 meters measured from the base of the tower to the bottom of the nacelle (i.e., where the top of the tower and nacelle are joined) when fully assembled.

A wind tower section consists of, at a minimum, multiple steel plates rolled into cylindrical or conical shapes and welded together (or otherwise attached) to form a steel shell, regardless of coating, end-finish, painting, treatment, or method of manufacture, and with or without flanges, doors, or internal or external components (e.g., flooring/decking, ladders, lifts, electrical buss boxes, electrical cabling, conduit, cable harness for nacelle generator, interior lighting, tool and storage lockers) attached to the wind tower section. Several wind tower sections are normally required to form a completed wind tower.

Wind towers and sections thereof are included within the scope whether or not they are joined with nonsubject merchandise, such as nacelles or rotor blades, and whether or not they have internal or external components attached to the subject merchandise.

Specifically excluded from the scope are nacelles and rotor blades, regardless of whether they are attached to the wind tower. Also excluded are any internal or external components which are not attached to the wind towers or sections thereof, unless those components are shipped with the tower sections.

Merchandise covered by these orders is currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under subheading 7308.20.0020 or 8502.31.0000. Wind towers of iron or steel are classified under HTSUS 7308.20.0020 when imported separately as a tower or tower section(s). Wind towers may be classified under HTSUS 8502.31.0000 when imported as combination goods with a wind turbine (i.e., accompanying nacelles and/or rotor blades). While the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of these orders is dispositive.

<u>Unit</u>.—A unit, unless otherwise stated, is a complete wind tower (whether or not comprised of multiple sections) or wind tower equivalent (e.g., one section of a wind tower comprised of four sections would be equal to $\frac{1}{2}$ or 0.25 wind towers).

<u>Reporting of information</u>.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. In addition, if your firm is a U.S. producer, the information you provide on your production and imports of wind towers and your responses to the questions in Part I of the producer questionnaire will be provided to the U.S. Department of Commerce, upon its request, for use in connection with (and only in connection with) its requirement pursuant to section 702(c)(4)/732(c)(4) of the Act (19 U.S.C. § 1671a(c)(4)/1673a(c)(4)) to make a determination concerning the extent of industry support for the petition requesting this proceeding. Any information provided to Commerce will be transmitted under the confidentiality and release guidelines set forth above. Your response to these questions constitutes your consent that such information be provided to Commerce under the conditions described above.

<u>D-GRIDS tool.</u>--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

I-1a.	OMB statisticsPlease report below the actual number of hours required and the cost to you
	firm of completing this questionnaire.

Hours	Dollars

No

Yes

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 50 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-1b.	TAA information releaseIn the event that the U.S. International Trade Commission (USITC)
	makes an affirmative final determination in this proceeding, do you consent to the USITC's
	release of your contact information (company name, address, contact person, contact person's
	title, telephone number, email address) appearing on the front page of this questionnaire to the
	Departments of Commerce, Labor, and Agriculture, as applicable, so that your firm and its
	workers can be made eligible for benefits under the Trade Adjustment Assistance program?

l-2a.	Establishments coveredProvide the city, state, zip code, and brief description of each
	establishment covered by this questionnaire. Firms operating more than one establishment
	should combine the data for all establishments into a single report.

"<u>Establishment</u>"--Each facility of a firm involved in the <u>production</u> of wind towers, including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

PART II.--TRADE AND RELATED INFORMATION

Further information on this part of the questionnaire can be obtained from Calvin Chang (202-205-3062, calvin.chang@usitc.gov). **Supply all data requested on a** calvin.chang@usitc.gov). **Supply all data requested on a** calvin.chang@usitc.gov).

II-1.	<u>Contact information</u> Please identify the responsible individual and the manner by which
	Commission staff may contact that individual regarding the confidential information submitted
	in Part II.

Name	
Title	
Email	
Telephone	

II-2a. <u>Changes in operations.</u>—Please indicate whether your firm has experienced any of the following changes in relation to the production of wind towers since January 1, 2017.

		(If checked, please describe the nature, date(s), and significance of any such reported changes as well as the business reasons for them; leave completely blank if not applicable)
	plant openings	
	plant closings	
	relocations	
	expansions	
	acquisitions	
	consolidations	
	prolonged shutdowns or production curtailments	
	revised labor agreements	
	other (e.g., technology)	

II-2b. COVID-19 pandemic.-- Since January 1, 2020, has the COVID-19 pandemic or have any government actions taken to contain the spread of the COVID-19 virus resulted in changes in relation to your firm's supply chain arrangements, production, employment, and sales relating to wind towers?

No	Yes	If yes, describe these changes including a separate discussion of the (a) supply chain impact, (b) production and sales impact, and (c) employment impact of the COVID-19 pandemic.

II-3a. **Production using same machinery.--**Please report your firm's production of products using the same equipment, machinery, or employees as used to produce wind towers, and the combined production capacity on this shared equipment, machinery, or employees in the periods indicated.

"Overall production capacity" or "capacity" – The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup).

Note.--If your firm does not produce any out-of-scope merchandise on the same machinery and equipment as scope merchandise then the "overall production capacity" numbers reported in this question should be exactly equal to the "average production capacity" numbers reported in question II-7. If, however, your firm does produce out-of-scope merchandise using the same machinery and equipment as scope merchandise, then the "average production capacity" reported in question II-7 should exclude the portion of "overall production capacity" that was used to produce this out-of-scope merchandise.

Exclude any capacity of a facility or location in your reported overall capacity that did not actually produce any wind towers at any time since January 1, 2017, even if that facility's or location's capacity could theoretically be diverted to wind tower production given the right market conditions.

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

<u>Production using same machinery</u>.—Continued II-3a.

Quantity (in units)

II-3b. Operating parameters.--The production capacity reported in II-3a is based on the following operating paramaters:

Hours per week	Weeks per year

II-3c.	<u>Capacity calculation.</u> Please describe the methodology used to calculate overall production capacity reported in II-3a, and explain any changes in reported capacity.			
II-3d.	<u>Production constraints</u> Please describe the constraint(s) that set the limit(s) on your firm's production capacity.			

² Data entered for production of wind towers will populate here once reported in question II-7.

³ Please identify these products: _

II-4.	Product	shifting	.—

(a)	Is your firm able to switch production (capacity) between wind towers and other products
	using the same equipment and/or labor?

No	Yes	If yes—(i.e., have produced other products or are able to produce other products) Please identify other actual or potential products.

(b)	Please describe the factors that affect your firm's ability to shift production capacity between products (e.g., time, cost, relative price change, etc.), and the degree to which these factors enhance or constrain such shifts.

II-5. **Tolling**.--Since January 1, 2017, has your firm been involved in a toll agreement regarding the production of wind towers?

"Toll agreement"---Agreement between two firms whereby the first firm furnishes the raw materials and the second firm uses the raw materials to produce a product that it then returns to the first firm with a charge for processing costs, overhead, etc.

No	Yes	If yesPlease describe the toll arrangement(s) and name the firm(s) involved.

eliminary)
e

II-6.	Foreign	trade	zones

(a) <u>Firm's FTZ operations</u>.--Does your firm produce wind towers in and/or admit wind towers into a foreign trade zone (FTZ)?

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise. A foreign trade zone must be designated as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

No	If yesDescribe the nature of your firm's operations in FTZs and identify the specific FTZ site(s).

(b) Other firms' FTZ operations.--To your knowledge, do any firms in the United States import wind towers into a foreign trade zone (FTZ) for use in distribution of wind towers and/or the production of downstream articles?

No	Yes	If yesIdentify the firms and the FTZs.

- II-7. <u>Production, shipment, and inventory data</u>.--Report your firm's production capacity, production, shipments, and inventories related to the production of wind towers in its U.S. establishment(s) during the specified periods.
 - "Average production capacity" or "capacity" The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).
 - Exclude any capacity of a facility or location in your reported average production capacity that did not actually produce any wind towers at any time since January 1, 2017, even if that facility's or location's capacity could theoretically be diverted to wind tower production given the right market conditions.

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

"Commercial U.S. shipments" – Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report <u>net values</u> (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm. Such transactions are valued at fair market value.

"Transfers to related firms" – Shipments made to related firms. Such transactions are valued at fair market value.

"Related firm" —A firm that your firm solely or jointly owned, managed, or otherwise controlled; a firm that solely or jointly owned, managed, or otherwise controlled your firm; and/or a firm that was solely or jointly owned, managed, or otherwise controlled by a firm that also solely or jointly owned, managed, or otherwise controlled your firm.

"Export shipments" – Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" — Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-7. <u>Production, shipment, and inventory data</u>.—*Continued*

[&]quot;Central Southwest".--AR, LA, OK, and TX.

[&]quot;Mountains".--AZ, CO, ID, MT, NV, NM, UT, and WY.

[&]quot;Pacific Coast".--CA, OR, and WA.

II-9.	U.S. shipments of wind towers without internal components. — Please report the share of your
	firm's U.S. shipments of wind towers reported in II-10 that were shipped without any
	mechanical and/or electrical fittings such as platforms, ladders, lighting, lifts (elevators),
	electrical-cable harnesses, storage lockers, and/or other accessories ("internals"):%.

II-10. **Employment data**.--Report your firm's employment-related data related to the production of wind towers and provide an explanation for any trends in these data.

"Production and Related Workers" (PRWs) includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations. Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12. For the January to June periods, calculate similarly and divide by 6.

If your firm had the same number of PRWs in all calendar year and had not experienced any changes in PRWs in the most recent interim period, you would have the same number of PRWs for the interim periods, regardless of whether the interim periods are Jan-Mar (Q1), Jan-2019 (Q1+Q2), or Jan-Sept (Q1+Q2+Q3)."

"Hours worked" includes time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight time hours.

"Wages paid" – Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

	Calendar year			January-June

	firm had in providing the data in this section, including but not limited to technical issues with
	the MS Word questionnaire.

PART III.--FINANCIAL INFORMATION

Address questions on this part of the questionnaire to David Boyland (202-708-4725, David.Boyland@usitc.gov).

III-1.		nationPlease identify the responsible individual and the manner by which aff may contact that individual regarding the confidential information submitted
	in Part III.	
	Name	
	Title	
	Email	
	Telephone	
III-2.	Accounting systaccounting syst	tem.—Please provide the following information on your firm's financial tem.
	A.	When does your firm's fiscal year end (month and day)? If your firm's fiscal year changed during the data-collection period, explain below:
	B.1. Describ	NotePlease note that we are requesting that firms report their financial data on a calendar year basis. be the lowest level of operations (e.g., plant, division, company-wide) for which financial statements are prepared that include wind towers:
	2.3.4.	Does your firm prepare profit/loss statements for wind towers: Yes No How often did your firm (or parent company) prepare financial statements (including annual reports, 10Ks)? Please check relevant items below. audited, unaudited, annual reports, 10Ks, 10 Qs, 10 Qs, unaudited, semi-annually, annually Accounting basis: U.S. GAAP, IFRS, cash, tax, or other comprehensive basis of accounting (specify)
	used in regardir submit (is requested in Part I of this questionnaire, please keep all supporting documents/records the preparation of the financial data, as Commission staff may contact your firm any questions on the financial data. The Commission may also request that your company copies of the supporting documents/records (financial statements, including internal and-loss statements for the division or product group that includes wind towers, as well as

specific statements and worksheets) used to compile these data.

III-3. Cost accounting system.--Briefly describe your firm's cost accounting system (e.g., standard cost, job order cost, etc.). III-4. **Background questions** A. Allocation basis. --- Briefly describe your firm's allocation basis, if any, for COGS, SG&A, and interest expense and other income and expenses. В. **Procurement process in general.**--Please describe the company's procurement process for its primary raw materials and the manner/extent to which wind tower customers are involved (directly or indirectly) with purchase decisions and the extent to which this varies by input/component. Please specify the extent to which "directed buy" arrangements are or are not prevalent and to which input/component they apply. C. Procurement process and cost controls.--During the period examined and to the extent applicable, please describe efforts to minimize fluctuations and/or otherwise control the cost of primary raw materials.

III-4.	Background	questions.	Continued

D.	<u>Sales/production levels and conversion costs.</u> Please describe how changes in production and sales volume of wind towers during the period examined impacted the level of average wind tower conversion costs. As applicable, please also identify and describe specific examples of anticipated/negotiated production and sales volume that was not undertaken and its corresponding impact on conversion costs.
E.	Conversion pricing.—Please describe the extent to which a specific wind tower conversion price is or is not negotiated directly with the customer in conjunction with direct pass through of raw material costs. If a specific conversion price is not negotiated directly in conjunction with pass through of raw material costs, please describe how wind tower sales values are established/determined.

III-5. **Product listing**.--Please list the products your firm produced in the facilities in which your firm produced wind towers and provide the share of net sales accounted for by these products in 2019

Products	Share of 2019 sales

III-6.	Inputs from related suppliersDoes your firm purchase inputs (raw materials, labor, energy, or
	any services) used in the production of wind towers from any related suppliers (e.g., inclusive of
	transactions between related firms, divisions and/or other units within the same company)?

YesContinue to question III-7	No—Skip to question III-9a.

III-7. <u>Inputs from related suppliers detailed</u>.--Please identify the inputs used in the production of wind towers that your firm purchases from related suppliers and that are reflected in question III-9a. For "Input valuation" please describe the basis, as recorded in your company's own accounting system, of the purchase cost from the related supplier; e.g., the related supplier's actual cost, cost plus, negotiated transfer price to approximate fair market value.

Input	Related supplier	Share of total 2019 COGS
		%
		%
		%
		%
Input valuation a	s recorded in the firm's accounting books ar	nd records:

III-8. <u>Inputs purchased from related suppliers.</u>—Please confirm that the inputs purchased from related suppliers, as identified in III-7, are reported in III-9a (financial results on wind towers) in a manner consistent with your firm's accounting books and records.

Yes	No	If noIn the space below, please report the valuation basis of inputs purchased from related suppliers as reported in question III-9a.

III-9a. Operations on wind towers.--Report the revenue and related cost information requested below on the wind towers operations of your firm's U.S. establishment(s). Do not report resales of products. Note that internal consumption and transfers to related firms must be valued at fair market value. Input purchases from related suppliers should be consistent with and based on information in the firm's accounting books and records. Provide data for the specified calendar year and interim periods.

Quantit	y (<i>in units)</i> and	value (in \$1,00	00)		
	С	alendar year		January -	-June
Item	2017	2018	2019	2019	2020

¹ Include only sales (whether <u>domestic or export</u>) and costs related to your <u>U.S. manufacturing operations</u>.

Note --The table above contains calculations that will appear when you have entered data in the MS Word form fields.

² Less discounts, returns, allowances, and prepaid freight. The quantities and values should approximate the corresponding shipment quantities and values reported in Part II of this questionnaire.

³ COGS (whether for domestic or export sales) should include costs associated with CS, IC, and Transfers.

U.S. Producers'	Questionnaire	- Wind towers	(Preliminary)
-----------------	---------------	---------------	---------------

Yes	No	If noIf the calculated fields do not show the correct data, please double check the feeder data for data entry errors and revise. Also, check signs accorded to the post operating income line items; the two expense line items should report positive numbers (i.e., expenses are positive and incomes or reversals are negativeinstances of the latter should be rare in those lines) while the income line item also in most instances should have its value be a positive number (i.e., income is positive, expenses or reversals are negative). If after reviewing and potentially revising the feeder data your firm has provided, the differences between your records and the calculated fields persist please identify and discuss the differences in the space below.

III-10. Nonrecurring items (charges and gains) included in the subject product financial results.--For each annual and interim period for which financial results are reported in question III-9a, please specify all material (significant) nonrecurring items (charges and gains) in the schedule below, the specific question III-9a line item where the nonrecurring items are included, a brief description of the relevant nonrecurring items, and the associated values (in \$1,000), as reflected in question III-9a; i.e., if an aggregate nonrecurring item has been allocated to question III-9a, only the allocated value amount included in question III-9a should be reported in the schedule below. Note: The Commission's objective here is to gather information only on material (significant) nonrecurring items which impacted the reported financial results of the subject product in question III-9a.

		Calendar year		January	/-June

III-11.	Classification of identified nonrecurring items (charges and gains) in the accounting books and
	<u>records of the company</u> If non-recurring items were reported in question III-10 above, please
	identify where your company recorded these items in your accounting books and records in the normal course of business; i.e., just as responses to question III-10 identify where these items are reported in question III-9a.

III-12a. <u>Asset values</u>.--Report the <u>total</u> assets (i.e., both current and long-term assets) associated with the production, warehousing, and sale of wind towers. If your firm does not maintain some or all of the specific asset information necessary to calculate total assets for wind towers in the normal course of business, please estimate this information based upon a method (such as production, sales, or costs) that is consistent with relevant cost allocations in question III-9a. Provide data as of the end of the specified calendar year.

Note: Total assets should reflect <u>net assets</u> after any accumulated depreciation and allowances deducted. Total assets should be <u>allocated to the subject products</u> if these assets are also related to other products.

Value (in \$1,000)			
	Calendar year		
Item	2017	2018	2019
Total assets (net)			

III-12b.	<u>Description of reported assets</u> Please describe the main asset categories (both current and
	long-term assets) in the above response. Provide a brief explanation if there are any substantial
	changes in total asset value during the period; e.g., due to asset write-offs, revaluation, and
	major purchases.

III-13a. <u>Capital expenditures and research and development expenses</u>.--Report your firm's capital expenditures and research and development expenses for wind towers. Provide data for the specified calendar year and interim periods.

Value (<i>in \$1,000</i>)					
	Calendar year			January-June	
Item	2017	2018	2019	2019	2020
Capital expenditures					
Research and development					
expenses					

III-13b.	<u>Description of reported capital expenditures</u> Please describe the nature, focus, and significance of your firm's reported capital expenditures in the above response. If no capital expenditure data were reported, please explain the reason.
III-13c.	<u>Description of reported R&D expenses</u> Please describe the nature, focus, and significance of your firm's reported R&D expenses in the response above. If no R&D expenses were reported, please explain the reason.
III-14.	<u>Data consistency and reconciliation</u> Please confirm that your firm's financial data for questions III-9a, 12a, and 13a are reported on a calendar year basis:
	Please note the quantities and values reported in question III-9a should reconcile with the data reported in question II-7 (including export shipments).

<u>RECONCILIATION OF TRADE VS FINANCIAL DATA</u>.--Please ensure that the quantities and values reported for total shipments in Part II equal the quantities and values reported for total net sales in Part III of this questionnaire in each time period. If the calculated fields below return values other than zero (i.e., "0") and both are being reported on a calendar basis, please explain the discrepancy below.

	Calendar year		January-June		
Reconciliation	2017	2018	2019	2019	2020
Quantity: Trade data from question II-7 (lines D, F, H, and J) less financial total net sales quantity data from question III-9a, = zero ("0").	0	0	0	0	0
Value: Trade data from question II-7 (lines E, G, I, and K) less financial total net sales value data from question III-9a, = zero ("0").	0	0	0	0	0

Do these data in question III-9a reconcile with data in question II-7?

Yes	No	If no, please explain.

If your responses to any of the items in questions III-15, III-16, and III-17 differ by country, please describe these differences and, as applicable, indicate which country or countries your response refers to in the relevant form fields.

III-15.	Effects of imports on investmentSince January 1, 2017, has your firm experienced any actua
	negative effects on its return on investment or the scale of capital investments as a result of
	imports of wind towers from India, Malaysia, and Spain?

No	Yes					
		If yes, my firm has experienced actual negative effects as follows.				
	(chec	k as many as appropriate)	(please describe)			
		Cancellation, postponement, or rejection of expansion projects				
		Denial or rejection of investment proposal				
		Reduction in the size of capital investments				
		Return on specific investments negatively impacted

Telephone	

PRICE DATA

- IV-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2017 of the following products produced by your firm.
 - Product 1.— Wind towers, more than 80 meters but less than or equal to 90 meters in height
 - Product 2.—Wind towers, more than 90 meters but less than or equal to 100 meters in height
 - Product 3.—Wind towers, more than 100 meters but less than or equal to 110 meters in height
 - **Product 4.**—Wind towers, more than 110 meters but less than or equal to 120 meters in height

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> <u>point of shipment</u> and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

IV-2a. During January 2017-June 2020, did your firm produce and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

YesPlease complete the following pricing data table(s) as appropriate.
NoSkip to question IV-3.

IV-2b. <u>Price data</u>.--Report below the quarterly price data¹ for pricing products² produced and sold by your firm.

Report data in *units* and *actual dollars* (not 1,000s).

(Quantity in units, value in dollars)

material costs ¹	No					
Not applicable						
¹ Please identify the indexes used:						

IV-8. <u>Lead times.</u>--What share of your firm's sales is from inventory and produced to order and what is the typical lead time between a customer's order and the date of delivery for your firm's sales of its U.S.-produced wind towers?

Source	Share of 2019 sales	Lead time (Average number of days)
From inventory	%	
Produced to order	%	
Total (should sum to 100.0%)	0.0 %	

IV-9.

<u>Shippii</u>	ng information
(a)	What is the approximate percentage of the cost of wind towers you sell that is accounted for by U.S. inland transportation costs? percent.
(b)	Who generally arranges the transportation to your firm's customers' locations? Your firm Purchaser (check one)
(b)	Who generally arranges the transportation to your firm's customers' locations? Your firm Purchaser (check one)
(c)	When your firm sells wind towers from where is it shipped? Production facility Storage facility (check one)
	Additional explanation if needed:
(d)	Indicate the approximate percentage of your firm's sales of wind towers that are delivered the following distances from your firm's U.S. point of shipment.

Distance from your firm's U.S. point of shipment	Share
Within 100 miles	%
101 to 500 miles	%
501 to 1,000 miles	%
Over 1,000 miles	%
Total (should sum to 100.0%)	0.0 %

(d) Are your FOB prices that you pay for the same wind tower models consistent across all shipping distances or do they vary by shipping distances? Please explain. _____

IV-10. <u>Demand trends.</u>--Indicate how demand within the United States and outside of the United States (if known) for wind towers has changed since January 1, 2017. Explain any trends and describe the principal factors that have affected these changes in demand.

Market	Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explanation and factors
Within the United States					
Outside the United States					

IV-11. **Product changes.**—Have there been any significant changes in the product range, product mix, or marketing of wind towers since January 1, 2017?

No	Yes	If yes, please describe and quantify if possible.

IV-12.	Conditions	of com	petition
--------	-------------------	--------	----------

(a)	Is the wind towers market subject to business cycles and/or other conditions of
	competition distinctive to wind towers? If yes, describe.

Check all that apply.			Please describe.		
	No		Skip to question IV-13.		
	Yes-Business cycles (e.g. seasonal business)

(b)	Has information on raw material prices affected your firm's negotiations or contracts to se	!
	wind towers since 2017?	

No	Yes	Explain

(c) How did the imposition of tariffs under section 232 on imported steel/aluminum products impact raw material costs for wind towers?

Overall Increase	No change	Overall Decrease	Fluctuate with no clear trend	Explanation

(d) How did the imposition of tariffs under section 232 on imported steel/aluminum products impact your firm's sales price for wind towers?

			Fluctuate with no	
Overall	No	Overall	clear	
Increase	change	Decrease	trend	Explanation

	. <u>Impact of the PTC expiration and wind-down.</u> —This question concerns the anticipated expiration of the Federal wind energy production tax credit (PTC).									
	(a) Has the anticipated expiration of the PTC at the end of 2020 had an impact on the U.S. market for wind towers?									
		Yes—Please answer part (b)	No	Don't know						
(b) Assessment of impact of the anticipated PTC expiration Please indicate the impact of anticipated expiration of the Federal wind energy PTC.										

Fluctuate with no No clear trend **Explanation and factors Item** Increase change Decrease Acquisitions of wind towers by your firm Financial performance of your firm Demand for wind towers in the U.S. market Prices for wind towers in the U.S. market Timing of U.S. wind energy projects in the development pipeline

IV-16. <u>Interchangeability.--</u>Is wind towers produced in the United States and in other countries interchangeable (i.e., can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

- A = the products from a specified country-pair are *always* interchangeable
- F = the products are *frequently* interchangeable
- S = the products are *sometimes* interchangeable
- N = the products are *never* interchangeable
- 0 = *no familiarity* with products from a specified country-pair

Country-pair	India	Malaysia	Spain	Other countries
United States				
India				
Malaysia				
Spain				

For any country-pair producing wind towers that is *sometimes* or *never* interchangeable, identify the country-pair and explain the factors that limit or preclude interchangeable use:

IV-17. <u>Factors other than price.</u>--Are differences other than price (e.g., quality, availability, transportation network, product range, technical support, *etc.*) between wind towers produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = *no familiarity* with products from a specified country-pair

Country-pair	India	Malaysia	Spain	Other countries
United States				
India				
Malaysia				
Spain				

For any country-pair for which factors other than price *always* or *frequently* are a significant factor in your firm's sales of wind towers, identify the country-pair and report the advantages or disadvantages imparted by such factors:

IV-18. <u>Customer identification.</u>--List the names and contact information for your firm's 10 largest U.S. customers for wind towers since January 1, 2017. Indicate the share of the quantity of your firm's total shipments of wind towers that each of these customers accounted for in 2019.

U.S. Producers	' Questionnaire - Wind tower	s (Preliminary)
-----------------------	------------------------------	-----------------

IV-19.	Com	petition	from	im	orts
--------	-----	----------	------	----	------

(a)	<u>Lost revenue</u> Since January 1, 2017: To avoid losing sales to competitors selling wind
	towers from India, Malaysia, and Spain, did your firm:

Item	No	Yes
Reduce prices		
Roll back announced price increases		

(b) <u>Lost sales.</u>--Since January 1, 2017: Did your firm lose sales of wind towers to imports of this product from India, Malaysia, and Spain?

No	Yes	

(c) The submission of lost sales/lost revenue allegations is to be completed only by NON-PETITIONERS.

If your firm indicated "yes" to any of the above, your firm can provide the Commission with additional information by downloading and completing the lost sales/lost revenues worksheet at http://usitc.gov/trade_remedy/question.htm. Note that the Commission may contact the firms named to verify the allegations reported.

Is your firm submitting the lost sales/lost revenues worksheet?

No—Please explain.
Yes—Please complete the worksheet and submit via the Commission dropbox. https://dropbox.usitc.gov/oinv/. (PIN: WIND)

IV-20. Other explanations.--If your firm would like to further explain a response to a question in Part IV for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://usitc.gov/investigations/701731/2020/utility scale wind towers india malaysi a and spain/preliminary.htm

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: WIND

• E-mail.—E-mail the MS Word questionnaire to calvin.chang@usitc.gov: ; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm does not produce this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

Parties to this proceeding.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
