**PART I.—GENERAL INFORMATION**

**Background.**--This proceeding was instituted in response to a petition filed on June 26, 2020, by Bedford Industries Inc., Worthington, Minnesota. Countervailing and antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and dumping. Questionnaires and other information pertinent to this proceeding are available at:

[https://www.usitc.gov/investigations/701731/2020/twist\\_ties\\_china/preliminary.htm](https://www.usitc.gov/investigations/701731/2020/twist_ties_china/preliminary.htm)

**Twist ties** covered by these investigations are consists of twist ties, which are thin, bendable ties for closing containers, such as bags, bundle items, or identifying objects. A twist tie is comprised of one or more metal wires encased in a covering material, which allows the tie to retain its shape and bind against itself. The metal wire in a twist tie is typically stainless or galvanized steel and typically measures between the gauges of 19 (.0410" diameter) and 31 (.0132") (American Standard Wire Gauge). A twist tie usually has a width between .075" and 1" in the cross-machine direction (width of the tie – measurement perpendicular with the wire); a thickness between .015" and .045" over the wire or other metal; and a thickness between .002" and .020" in areas without wire or other metal. Twist ties are commonly available individually in pre-cut lengths ("singles"), wound in large spools to be cut later by machine or hand, or in perforated sheets of spooled or single twist ties that are later slit by machine or by hand ("gangs").

The covering material of a twist tie may be paper (metallic or plain), plastic, or polyethylene, and can be dyed in a variety of colors with or without printing. A twist tie may have the same covering material on both sides or one side of paper and one side of plastic. When comprised of two sides of paper, the paper material is bound together with an adhesive or plastic. A twist tie also may have a tag or label attached to it or a pre-applied adhesive attached to it.

The scope includes ties used for television cable, computer cords, other appliances and household ties, all of which are manufactured by Petitioner. Twist ties without metal wire also are covered in the scope. An all plastic tie contains a plastic core as well as a plastic covering (the wing) over the core, just like paper and/or plastic in a metal tie. The scope does not include products with wire and plastic material (e.g., pipe cleaners used in craft activities, wire bristle brushes), or plastic "zip" ties.

Twist ties are imported into the United States under Harmonized Tariff System of the United States ("HTSUS") subheadings 8309.90.0000 and 5609.00.3000. Subject merchandise may also enter under HTSUS subheadings 3906.90.2000, 3920.51.5000, 3923.90.0080, 3926.90.9990, 4811.59.6000, 4821.10.4000, 4821.90.2000, and 4823.90.8600. These HTSUS subheadings are provided for reference only. The written description of the scope of the investigations is dispositive.

**Reporting of information.**--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

**Confidentiality.**--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

**Verification.**--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

**Release of information.**--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals. In addition, if your firm is a U.S. producer, the information you provide on your production and imports of twist ties and your responses to the questions in Part I of the producer questionnaire will be provided to the U.S. Department of Commerce, upon its request, for use in connection with (and only in connection with) its requirement pursuant to section 702(c)(4)/732(c)(4) of the Act (19 U.S.C. § 1671a(c)(4)/1673a(c)(4)) to make a determination concerning the extent of industry support for the petition requesting this proceeding. Any information provided to Commerce will be transmitted under the confidentiality and release guidelines set forth above. Your response to these questions constitutes your consent that such information be provided to Commerce under the conditions described above.

**D-GRIDS tool.**--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macro-enabled MS Excel file available for download from the Commission's generic questionnaires webpage ([https://www.usitc.gov/trade\\_remedy/question.htm](https://www.usitc.gov/trade_remedy/question.htm)) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

II-10. **Employment data.**--Report your firm's employment-related data related to the production of twist ties and provide an explanation for any trends in these data.

**"Production and Related Workers" (PRWs)** includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations.

Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12. For the January to March periods, calculate similarly and divide by 3.

If your firm had the same number of PRWs in all calendar years and had not experienced any changes in PRWs in the most recent interim period, you would have the same number of PRWs for the interim periods, regardless of whether the interim periods are Jan-Mar (Q1), Jan-June (Q1+Q2), or Jan-Sept (Q1+Q2+Q3)."

II-12. **Purchases.**--Has your firm purchased twist ties produced in the United States or in other countries since January 1, 2017? (Do not include imports for which your firm was the importer of record. These should be reported in an importer questionnaire.)
