U.S. PRODUCERS' QUESTIONNAIRE

METAL LOCKERS AND PARTS FROM CHINA

This questionnaire must be received by the Commission by <u>July 23, 2020</u>

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping investigations metal lockers from China (Inv. Nos. 731-TA-656 and 701-TA-1533 (Preliminary)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

Name of firm _____

City	State Zip Code
Website	
Has your firm produc	ed metal lockers (as defined on next page) at any time since January 1, 2017?
NO (Sign t	he certification below and promptly return only this page of the questionnaire to the Commission)
YES (Comp	lete all parts of the questionnaire, and return the entire questionnaire to the Commission)

PART I.—GENERAL INFORMATION

<u>Background</u>.--This proceeding was instituted in response to a petition filed on July 9, 2020, by List Industries, Inc., Deerfield Beach, Florida; Lyon LLC, Montgomery, Illinois; Penco Products, Inc., Greenville, North Carolina; and Tennsco Corp., Dickson, Tennessee. Countervailing and/or antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and/or dumping. Questionnaires and other information pertinent to this proceeding are available at https://www.usitc.gov/investigations/701731/2020/metal_lockers_and_parts_thereof_people%E2%80%99s_republic/preliminary.htm.

Metal lockers, covered by these investigations are metal lockers, with or without doors, and parts thereof ("metal lockers"). The subject metal lockers are metal storage devices less than 27 inches wide and less than 27 inches deep, whether floor standing, installed onto a base or wall-mounted. In a multiple locker assembly (whether a welded locker unit, otherwise assembled locker unit or knocked down unit or kit), the width measurement shall be based on the width of an individual locker not the overall unit dimensions. The subject metal lockers typically include the bodies (back, side, shelf, top and bottom panels), door frames with or without doors which can be integrated into the sides or made separately, and doors. The subject metal lockers typically are made of flat-rolled metal, metal mesh and/or expanded metal, which includes but is not limited to alloy or non-alloy steel (whether or not galvanized or otherwise metallically coated for corrosion resistance), stainless steel, or aluminum, but the doors may also include transparent polycarbonate, Plexiglas or similar transparent material or any combination thereof. The doors are configured with or for a handle or other device that permit the use of a mechanical or electronic lock or locking mechanism, including, but not limited to: a combination lock, a padlock, a key lock, lever or knob lock, and a wireless lock. The doors or body panels may also include vents (including wire mesh or expanded metal mesh vents) or perforations. The bodies, body components and doors are typically powder coated, otherwise painted or epoxy coated or may be unpainted. The subject merchandise includes metal lockers imported either as welded or otherwise assembled units (ready for installation or use) or as knocked down units or kits (requiring assembly prior to installation or use).

The subject lockers may be shipped as individual or multiple locker units preassembled, welded, or combined into banks or tiers for ease of installation or as sets of component parts, bulk packed (i.e., all backs in one package, crate, rack, carton or container and sides in another package, crate, rack, carton or container) or any combination thereof. The knocked down lockers are shipped unassembled requiring a supplier, contractor or end-user to assemble the individual lockers and locker banks prior to installation.

The scope also includes all parts and components of lockers made from flat-rolled metal or expanded metal (e.g., doors, frames, shelves, tops, bottoms, backs, side panels, etc.) as well as accessories that are attached to the lockers when installed (e.g., slope tops, bases, expansion filler panels, dividers, recess trim, decorative end panels and end caps) that may be imported together with other locker components or on their own. It also includes all hardware for assembly and installation of the lockers and locker banks that are imported with or shipped, invoiced or sold with the imported locker or locker system. The subject metal lockers are typically used for storage in schools, fitness centers, apartment buildings, offices, condominiums, single family homes, athletic facilities, public private, and government buildings, warehouses, factories, transportation hubs, healthcare facilities, amusement parks, military installations, retail businesses, and other commercial and industrial establishments.

Excluded from the scope are wire mesh lockers. Wire mesh lockers are those with each of the following characteristics:

- (1) at least three sides, including the door, made from wire mesh;
- (2) the width and depth each exceed 25 inches; and
- (3) the height exceeds 90 inches.

Also excluded are lockers with bodies made entirely of plastic, wood or any nonmetallic material.

Also excluded are exchange lockers with multiple individual locking doors mounted on one master locking door to access multiple units. Excluded exchange lockers have multiple individual storage spaces, typically arranged in tiers, with access doors for each of the multiple individual storage space mounted on a single frame that can be swung open to allow access to all of the individual storage spaces at once. For example, uniform or garment exchange lockers are designed for the distinct function of securely and hygienically exchanging clean and soiled uniforms. Thus, excluded exchange lockers are a multi-access point locker whereas covered lockers are a single access point locker for personal storage.

Also excluded are metal lockers that are imported with an installed electronic, internet-enabled locking device that permits communication or connection between the locker's locking device and other internet connected devices.

Also excluded are hardware and accessories for assembly and installation of the lockers, locker banks and storage systems that are separately imported in bulk and are not incorporated into a locker, locker system or knocked down kit at the time of importation. Such excluded hardware and accessories include but are not limited to bulk imported rivets, nuts, bolts, hinges, door handles, locks, door/frame latching components, and coat hooks. Accessories of sheet metal, including but not limited to end panels, bases, dividers and sloping tops, are not excluded accessories.

Metal lockers are currently imported under statistical reporting number 9403.20.0078 of the Harmonized Tariff Schedule of the United States (HTSUS). Parts of metal lockers that are subject to these investigations enter under HTSUS 9403.90.8041. Prior to July 1, 2019, metal lockers were classified under HTSUS statistical reporting number 9403.20.0080. The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

<u>Importer</u>.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing metal lockers (as defined above) into the United States from a foreign manufacturer or through its selling agent.

Reporting of information.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

Release of information.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

<u>Valid number error messages.</u>--If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Celia Feldpausch (202-205-2387, Celia.Feldpausch@usitc.gov).

<u>D-GRIDS tool.</u>--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (https://www.usitc.gov/trade_remedy/question.htm) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is <u>optional</u>. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

I-1a. <u>OMB statistics</u>.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 50 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-1b.	TAA information releaseIn the event that the U.S. International Trade Commission (USITC)
	makes an affirmative final determination in this proceeding, do you consent to the USITC's
	release of your contact information (company name, address, contact person, contact person's
	title, telephone number, email address) appearing on the front page of this questionnaire to the
	Departments of Commerce, Labor, and Agriculture, as applicable, so that your firm and its
	workers can be made eligible for benefits under the Trade Adjustment Assistance program?

Yes	☐ No
-----	------

I-2a. <u>Establishments covered</u>.--Provide the city, state, zip code, and brief description of each establishment covered by this questionnaire. Firms operating more than one establishment should combine the data for all establishments into a single report.

"<u>Establishment</u>"--Each facility of a firm involved in the <u>production</u> of metal lockers, including auxiliary facilities operated in conjunction with (whether or not physically separate from) such facilities.

U.S. Producers' Questionnaire – Metal Lockers from China (Preliminary) I-6. Related importers/exporters.--Does your firm have any related firms, either domestic or foreign, that are engaged in importing metal lockers from China into the United States or that are engaged in exporting metal lockers from China to the United States? No Yes--List the following information.

Firm name	Country	Affiliation

I-7.	Related producersDoes your firm have any related firms, either domestic or foreign, that are
	engaged in the production of metal lockers?

Yes--List the following information. ☐ No

Firm name	Country	Affiliation

PART II.--TRADE AND RELATED INFORMATION

Further information on this part of the questionnaire can be obtained Celia Feldpausch (202-205-2387, Celia.Feldpausch@usitc.gov). Supply all data requested on a calendar-year basis.

II-1.	<u>Contact information</u> Please identify the responsible individual and the manner by which					
	Commission staff may contact that individual regarding the confidential information submitted					
	in Part II.					
	Name					
	Title					
	Email					
	Telephone					

II-2. <u>Changes in operations.</u>—Please indicate whether your firm has experienced any of the following changes in relation to the production of metal lockers since January 1, 2017.

(chec	k as many as appropriate)	(If checked, please describe; leave blank if not applicable)
	plant openings	
	plant closings	
	relocations	
	expansions	
	acquisitions	
	consolidations	
	prolonged shutdowns or production curtailments	
	revised labor agreements	
	other (e.g., technology)	

II-3a. **Production using same machinery.--**Please report your firm's production of products using the same equipment, machinery, or employees as used to produce metal lockers, and the combined production capacity on this shared equipment, machinery, or employees in the periods indicated.

"Overall production capacity" or "capacity" – The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup).

Note.--If your firm does not produce any out-of-scope merchandise on the same machinery and equipment as scope merchandise then the "overall production capacity" numbers reported in this question should be exactly equal to the "average production capacity" numbers reported in question II-7. If, however, your firm does produce out-of-scope merchandise using the same machinery and equipment as scope merchandise, then the "average production capacity" reported in question II-7 should exclude the portion of "overall production capacity" that was used to produce this out-of-scope merchandise.

"Production" – All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.

Quantity (in pounds)						
		Calendar years		January-March		
Item	2017	2018	2019	2019	2020	
Overall production capacity ¹						
Production of: Metal lockers ²	0	0	0	0	0	
Other products ³	0	0	0	0	0	
Total production using same machinery or workers	0	0	0	0	0	

¹ Data reported for capacity (first line) should be greater than data reported for total production (last line).

II-3b. <u>Operating parameters.</u>—The production capacity reported in II-3a is based on the following operating parameters:

Hours per week	Weeks per year

² Data entered for production of metal lockers will populate here once reported in question II-7.

³ Please identify these products: _____.

U.S. Pr	oducers' C	Questionnai	re – Metal Lockers from China (Preliminary) Page 1
II-3c.			LPlease describe the methodology used to calculate overall production II-3a, and explain any changes in reported capacity.
II-3d.		on constrai	<u>nts</u> Please describe the constraint(s) that set the limit(s) on your firm's
II-4.		shifting.—	
		•	able to switch production (capacity) between metal lockers and other produme equipment and/or labor?
	No	Yes	If yes—(i.e., have produced other products or are able to produce other products) Please identify other actual or potential products.
	k	etween pr	ribe the factors that affect your firm's ability to shift production capacity oducts (e.g., time, cost, relative price change, etc.), and the degree to which s enhance or constrain such shifts.
II-5.	_	Since Janua on of metal	ary 1, 2017, has your firm been involved in a toll agreement regarding the lockers?
	materials	s and the se	Agreement between two firms whereby the first firm furnishes the raw econd firm uses the raw materials to produce a product that it then returns a charge for processing costs, overhead, etc.
	No	Yes	If yesPlease describe the toll arrangement(s) and name the firm(s) involved.

II-6. Foreign trade zones

(a) <u>Firm's FTZ operations</u>.--Does your firm produce metal lockers in and/or admit metal lockers into a foreign trade zone (FTZ)?

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise. A foreign trade zone must be designated as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

No	If yesDescribe the nature of your firm's operations in FTZs and identify the specific FTZ site(s).

(b) Other firms' FTZ operations.—To your knowledge, do any firms in the United States import metal lockers into a foreign trade zone (FTZ) for use in distribution of metal lockers and/or the production of downstream articles?

No	Yes	If yesIdentify the firms and the FTZs.	

- II-7. **Production, shipment, and inventory data**.--Report your firm's production capacity, production, shipments, and inventories related to the production of metal lockers in its U.S. establishment(s) during the specified periods.
 - "Average production capacity" or "capacity" The level of production that your establishment(s) could reasonably have expected to attain during the specified periods. Assume normal operating conditions (i.e., using equipment and machinery in place and ready to operate; normal operating levels (hours per week/weeks per year) and time for downtime, maintenance, repair, and cleanup; and a typical or representative product mix).
 - "**Production**" All production in your U.S. establishment(s), including production consumed internally within your firm and production for another firm under a toll agreement.
 - "Commercial U.S. shipments" Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report <u>net values</u> (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.
 - "Internal consumption/ including for own retail sale" -- Product consumed internally by your firm, which includes merchandise that your firm transferred to your own firm's retail establishments. Such transactions are to be valued at fair market value and <u>not</u> the total value of final downstream processed merchandise in the case of internal consumption, <u>nor</u> the retail sale value in the case of your firm owning and operating its own retail establishments.
 - "Transfers to related firms" Shipments made to related firms. Such transactions are valued at fair market value.
 - "Related firm" —A firm that your firm solely or jointly owned, managed, or otherwise controlled; a firm that solely or jointly owned, managed, or otherwise controlled your firm; and/or a firm that was solely or jointly owned, managed, or otherwise controlled by a firm that also solely or jointly owned, managed, or otherwise controlled your firm.
 - **"Export shipments"** Shipments to destinations outside the United States, including shipments to related firms.
 - "Inventories" Finished goods inventory, not raw materials or work-in-progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-7. Production, shipment, and inventory data.--Continued

Quantity (in pounds) and value (in dollars)							
		Calendar years		January	_/ -March		
ltem	2017	2018	2019	2019	2020		
Average production capacity ¹ (quantity) (A)							
Beginning-of-period inventories (quantity) (B)							
Production (quantity) (C)							
U.S. shipments: Commercial shipments: Quantity (D)							
Value (E)

Value² (G)							
Transfers to related firms: ² Quantity (H)							
Value ² (I)							
Export shipments: ³ Quantity (J)							
Value (K)							
End-of-period inventories (quantity) (L)							
¹ The production capacity reported is based on operating hours per week, weeks per year. Please describe the methodology used to calculate production capacity and explain any changes in reported capacity ² Internal consumption and transfers to related firms must be valued at fair market value. If your firm uses a different basis for valuing these transactions in your records, please specify that basis (e.g., cost, cost plus, etc.): However, the data provided above in this table should be based on fair market value. ³ Identify your firm's principal export markets:							

RECONCILIATION OF SHIPMENTS, PRODUCTION, AND INVENTORY.--Generally, the data reported for the end-ofperiod inventories (i.e., line L) should be equal to the beginning-of-period inventories (i.e., line B), plus production (i.e., line C), less total shipments (i.e., lines D, F, H, and J). Please ensure that any differences are not due to data entry errors in completing this form, but rather reflect your firm's actual records; and, also provide explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

	(Calendar years	January-March

Other:								

<u>Describe</u> any other unique characteristics or customizations of the metal lockers your firm produces and sells:

II-11. <u>Employment data</u>.--Report your firm's employment-related data related to the production of metal lockers and provide an explanation for any trends in these data.

"Production and Related Workers" (PRWs) includes working supervisors and all nonsupervisory workers (including group leaders and trainees) engaged in fabricating, processing, assembling, inspecting, receiving, storage, handling, packing, warehousing, shipping, trucking, hauling, maintenance, repair, janitorial and guard services, product development, auxiliary production for plant's own use (e.g., power plant), recordkeeping, and other services closely associated with the above production operations. Average number employed may be computed by adding the number of employees, both full time and part time, for the 12 pay periods ending closest to the 15th of the month and divide that total by 12. For the January to March periods, calculate similarly and divide by 3.

If your firm had the same number of PRWs in all calendar years and had not experienced any changes in PRWs in the most recent interim period, you would have the same number of PRWs for the interim periods, regardless of whether the interim periods are Jan-Mar (Q1), Jan-June (Q1+Q2), or Jan-Sept (Q1+Q2+Q3)."

"Hours worked" includes time paid for sick leave, holidays, and vacation time. Include overtime hours actually worked; do not convert overtime pay to its equivalent in straight time hours.

"Wages paid" – Total wages paid before deductions of any kind (e.g., withholding taxes, old-age and unemployment insurance, group insurance, union dues, bonds, etc.). Include wages paid directly by your firm for overtime, holidays, vacations, and sick leave.

		Calendar years		January-March	
Item	2017	2018	2019	2019	2020
Average number of PRWs (number)					
Hours worked by PRWs (hours)					
Wages paid to PRWs (dollars)					

Explanation of trends:

	Related firmsIf your firm reported transfers to related firms in question II-7, please identify the firm(s) and indicate the nature of the relationship between your firm and the related firms (e.g., joint venture, wholly owned subsidiary), whether the transfers were priced at market value or by a non-market formula, whether your firm retained marketing rights to all transfers and whether the related firms also processed inputs from sources other than your firm.
--	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

II-13.	<u>Purchases</u> Has your firm purchased metal lockers produced in the United States or in other
	countries since January 1, 2017? (Do not include imports for which your firm was the importer
	of record. These should be reported in an importer questionnaire.)

"Purchase" – A transaction to buy product from a U.S. corporate entity such as another U.S. producer, a U.S. distributor, or a U.S. firm that has directly imported the product.

"Import" —A transaction to buy from a foreign supplier where your firm is the importer of record.

No	If yesReport such purchases in the table below and explain the reasons for your firms' purchases.

Note: If your firm served as the importer of record for any purchases from foreign suppliers, either for your own account or as a service for another entity, those purchases are to be considered "imports" not "purchases" and **should not** be included in the table below

II-14.	Comparability of metal locker parts/components and finished metal lockers/or kitsPlease answer the following questions regarding the differences and similarities in unfinished (e.g.,
	metal locker parts/components) and finished metal lockers or kits
	(a) Is the upstream article (the metal locker parts/components) dedicated to the production of the downstream article (finished metal locker/ metal locker kit)?
	Yes, all metal locker parts/components are ultimately converted into finished metal lockers.
	No, there are other end uses for unfinished metal locker parts/components besides ultimate conversion to finished metal lockers. What percentage of unfinished metal locker parts/components did your firm use in the production of downstream finished metal lockers? percent. What were the other end uses for which your firm used metal locker parts/components?
	(b) Do you perceive the metal locker parts/components to be a separate market than the finished metal lockers/metal locker kit market?
	Yes, they are perceived as a distinct market.
	No, they are perceived as one market.
	(c) Are there differences in the physical characteristics and functions of the upstream (metal locker parts/components) and downstream articles (finished metal lockers/ metal locker kit)?
	□ No
	Yes, please describe these differences:
	(d) Is there a significant difference in the cost or value between metal locker parts/components and finished metal lockers/metal locker kits?
	□ No
	Yes, please describe these differences:
	(e) Would you describe the processes used to transform the upstream metal locker parts/components into the downstream finished metal locker/kit product as significant and particularly labor or capital intensive?
	□ No
	Yes, please describe this process:

	I-15.	ImportsSince January	y 1, 2017,	has y	our firm im	ported met	al lockers

II-16.	Other explanations.—If your firm would like to further explain a response to a question in Part II for which a narrative box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

PART III.--FINANCIAL INFORMATION

Address questions on this part of the questionnaire to Jennifer Brinckhaus (202-205-3188, Jennifer.Brinckhaus@usitc.gov).

Name	
Title	
Email	
Telephone	
accounting sy	
A.	When does your firm's fiscal year end (month and day)?
B.1.	Describe the lowest level of operations (e.g., plant, division, company-w which financial statements are prepared that include metal lockers:
2.	Does your firm prepare profit/loss statements for metal lockers: Yes No
3.	How often did your firm (or parent company) prepare financial statemer (including annual reports, 10Ks)? Please check relevant items below. Audited, unaudited, annual reports, 10Ks, 10 Qs Monthly, quarterly, semi-annually, annually
	Accounting basis: U.S. GAAP, IFRS, cash, tax, or c

used in the preparation of the financial data, as Commission staff may contact your firm regarding questions on the financial data. The Commission may also request that your company submit copies of the supporting documents/records (financial statements, including internal profit-and-loss statements for the division or product group that includes metal lockers, as well as specific statements and worksheets) used to compile these data.

	<u>nting system</u> Briefly describe your firm's cost accounting system (e.g., sta der cost, <i>etc</i> .).	indard
Allocation	basis. Briefly describe your firm's allocation basis, if any, for COGS, SG&A,	and
interest ex	pense and other income and expenses.	

III-5. **Product listing**.--Please list the products your firm produced in the facilities in which your firm produced metal lockers and provide the share of net sales accounted for by these products in your firm's most recent fiscal year.

Products	Share of sales
Metal lockers	%
	%
	%
	%

U.S. Producers' Questionnaire – Metal Lockers from China (Preli

III-6.	Inputs from related suppliersDoes your firm purchase inputs (raw materials, labor, energy, or
	any services) used in the production of metal lockers from any related suppliers (e.g., inclusive
	of transactions between related firms, divisions and/or other components within the same
	company)?

YesContinue to question III-7	No—Skip to question III-9a.	

III-7. Inputs from related suppliers detailed.--Please identify the inputs used in the production of metal lockers that your firm purchases from related suppliers and that are reflected in question III-9a. For "Share of total COGS" please report this information by relevant input on the basis of your most recently completed fiscal year. For "Input valuation" please describe the basis, as recorded in your company's own accounting system, of the purchase cost from the related supplier; e.g., the related supplier's actual cost, cost plus, negotiated transfer price to approximate fair market value.

	Related supplier	Share of total COGS
Input valuation as recor	ded in the firm's accounting books	and records

III-8. <u>Inputs purchased from related suppliers.</u>--Please confirm that the inputs purchased from related suppliers, as identified in III-7, are reported in III-9a (financial results on metal lockers) in a manner consistent with your firm's accounting books and records.

Yes	No	If noIn the space below, please report the valuation basis of inputs purchased from related suppliers as reported in question III-9a.

III-9a. Operations on metal lockers.--Report the revenue and related cost information requested below on the metal lockers operations of your firm's U.S. establishment(s). Do not report resales of products. Note that internal consumption and transfers to related firms must be valued at fair market value. Input purchases from related suppliers should be consistent with and based on information in the firm's accounting books and records. Provide data for your firm's three most recently completed fiscal years, and for the specified interim periods. If your firm was involved in tolling operations (either as the toller or as the tollee), please contact Jennifer Brinckhaus at (202) 205-3188 before completing this section of the questionnaire.

Quantity	(in pounds) and	d value (<i>in doll</i>	ars)		
	Fiscal years ended			January-March	
Item	2017	2018	2019	2019	2020

¹ Include only sales (whether <u>domestic or export</u>) and costs related to your <u>U.S. manufacturing operations</u>.

Note -- The table above contains calculations that will appear when you have entered data in the MS Word form fields.

² Less discounts, returns, allowances, and prepaid freight. The quantities and values should approximate the corresponding shipment quantities and values reported in Part II of this questionnaire.

³ COGS (whether for domestic or export sales) should include <u>costs associated with CS, IC, and Transfers</u>.

⁴ If the total reported amount is net other expenses, report as a positive number. If the total reported amount is net other income, report as a negative number. Please check the calculated "Net income or (loss) before income taxes" to ensure proper reporting of these items.

U.S. Producers' Questionnaire – Metal Lockers from China (Preli

III-9b.	<u>Financial data reconciliation</u> The calculable line items from question III-9a (i.e., total net sales
	quantities and values, total COGS, gross profit (or loss), total SG&A, and net income (or loss))
	have been calculated from the data submitted in the other line items. Do the calculated fields
	return the correct data according to your firm's financial records ignoring non-material
	differences that may arise due to rounding?

Yes	No	If noIf the calculated fields do not show the correct data, please double check the feeder data for data entry errors and revise. Also, check signs of the line item "All other expense and income items, net." If the net value of the all other items reported here is an expense/loss, it should be reported as a positive number. If the net value is an income/gain it should be reported as a negative value. If after reviewing and potentially revising the feeder data your firm has provided, the differences between your records and the calculated fields persist please identify and discuss the differences in the space below.

III-9c. Raw materials.--Please report the share of total raw material costs in 2018 (reported in III-9a) for the following raw material inputs:

		Procureme	t method		
Input	Share of total raw material costs (percent)	Primarily produced by your firm	Primarily purchased by your firm		
Cold-rolled steel					
Hot-rolled steel					
Zinc coated galvanized steel					
Stainless steel					
All flat-rolled steel	0.0				
Other material inputs ¹					
Total (should sum to 100 percent)	0.0				
¹ Please indicate any other notable "other" raw materials not expressly identified above and provide the share of the total raw material costs that each account for:					

III-10. Nonrecurring items (charges and gains) included in the subject product financial results.--For each annual and interim period for which financial results are reported in question III-9a, please specify all material (significant) nonrecurring items (charges and gains) in the schedule below, the specific question III-9a line item where the nonrecurring items are included, a brief description of the relevant nonrecurring items, and the associated values (*in dollars*), as reflected in question III-9a; i.e., if an aggregate nonrecurring item has been allocated to question III-9a, only the allocated value amount included in question III-9a should be reported in the schedule below. Note: The Commission's objective here is to gather information only on material (significant) nonrecurring items which impacted the reported financial results of the subject product in question III-9a.

	Fiscal years ended			January-March	
Item	2017	2018	2019	2019	2020
			Value (in dollars)		
Nonrecurring item 1					
Nonrecurring item 2					
Nonrecurring item 3					
Nonrecurring item 4					
Nonrecurring item 5					
Nonrecurring item 6					
Nonrecurring item 7					

Nonrecurring item: In this table please provide a brief description of each nonrecurring item reported above and indicate the specific line item in table III-9a where the nonrecurring item is classified.

	Description of the nonrecurring item	Income statement classification of the nonrecurring item
Nonrecurring item 1		
Nonrecurring item 2		
Nonrecurring item 3		
Nonrecurring item 4		
Nonrecurring item 5		
Nonrecurring item 6		
Nonrecurring item 7		

III-11.	Classification of identified nonrecurring items (charges and gains) in the accounting books and records of the companyIf non-recurring items were reported in question III-10 above, please identify where your company recorded these items in your accounting books and records in the normal course of business; i.e., just as responses to question III-10 identify where these items
	are reported in question III-9a.

III-12a. <u>Asset values</u>.--Report the <u>total</u> assets (i.e., both current and long-term assets) associated with the production, warehousing, and sale of metal lockers. If your firm does not maintain some or all of the specific asset information necessary to calculate total assets for metal lockers in the normal course of business, please estimate this information based upon a method (such as production, sales, or costs) that is consistent with relevant cost allocations in question III-9a. Provide data as of the end of your firm's three most recently completed fiscal years.

Note: Total assets should reflect <u>net assets</u> after any accumulated depreciation and allowances deducted.

Value (in dollars)					
	Fiscal years ended				
Item	2017	2018	2019		
Total assets (net)					

II-12b.	Description of asset values. Please describe the main asset categories (both current and long-					
	term assets) in the above response. Provide a brief explanation if there are any substantial					
	changes in total asset value during the period; e.g., due to asset write-offs, revaluation, and					
	major purchases.					

III-13a. <u>Capital expenditures and research and development expenses</u>.--Report your firm's capital expenditures and research and development expenses for metal lockers. Provide data for your firm's three most recently completed fiscal years, and for the specified interim periods.

III-14.				ether your firm's financial data for r or on your firm's fiscal year:
	Calendar year	Fiscal year	Specify fiscal year	

Please note the quantities and values reported in question III-9a should reconcile with the data reported in question II-7 (including export shipments) as long as they are reported on the same calendar year basis.

RECONCILIATION OF TRADE VS FINANCIAL DATA.--Please ensure that the quantities and values reported for total shipments in Part II equal the quantities and values reported for total net sales in Part III of this questionnaire in each time period unless the financial data from Part III are reported on a fiscal year basis, in which case only the interim periods must reconcile. If the calculated fields below return values other than zero (i.e., "0") and both are being reported on a calendar basis, please explain the discrepancy below.

	Fiscal years ended			January-March	
Reconciliation	2017	2018	2019	2019	2020
Quantity: Trade data from question II-7 (lines D, F, H, and J) less financial total net sales quantity data from question III-9a, = zero ("0").	0	0	0	0	0
Value: Trade data from question II-7 (lines E, G, I, and K) less financial total net sales value data from question III-9a, = zero ("0").	0	0	0	0	0

Do these data in guestion III-9a reconcile with data in guestion II-7?

Yes	No	If no, please explain.

Other

No	Yes		
		If yes, my firm has experienced ac	ctual negative effects as follows
	(ched	ck as many as appropriate)	(please describe)
		Cancellation, postponement, or rejection of expansion projects	
		Denial or rejection of investment proposal	
		Reduction in the size of capital investments	
		Return on specific investments negatively impacted	

III-16. <u>Effects of imports on growth and development</u>.--Since January 1, 2017, has your firm experienced any actual negative effects on its growth, ability to raise capital, or existing development and production efforts (including efforts to develop a derivative or more advanced version of the product) as a result of imports of metal lockers from China?

No	Yes					
		If yes, my firm has experienced actual negative effects as follows.				
	(chec	ck as many as appropriate)	(please describe)			
		Rejection of bank loans				
		Lowering of credit rating				
		Problem related to the issue of stocks or bonds				
		Ability to service debt				
		Other				

III-17.	Anticipated effects of importsDoes your firm anticipate any negative effects due to imports of
	metal lockers from China?

No	Yes	If yes, my firm anticipates negative effects as follows.

III-18.	Other explanationsIf your firm would like to further explain a response to a question in Part III for which a narrative box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

PART IV.--PRICING AND MARKET FACTORS

Further information on this part of the questionnaire can be obtained from James Horne (202-205-2722, James.Horne@usitc.gov).

IV-1. <u>Contact information</u>.--Please identify the individual that Commission staff may contact regarding the confidential information submitted in Part IV.

Telephone	

PRICE DATA

- IV-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2017 of the following products produced by your firm.
 - Product 1.-- 12" wide x 18" deep x 72" high 1-Tier (one full height door within a single frame, one opening) locker, knockdown (KD), 24 gauge solid body, 16 gauge frame, 16 gauge louvered door, recessed or projecting die-cast handle, 3-point (multi-point) gravity lift-type latching, lock not included, with or without 6" legs (legs increase frame height to 78"), nut/bolt or rivet assembly required.
 - Product 2.-- 12" wide x 12" deep x 36"/72" high 2-Tier (two half-height doors stacked within a single frame, two openings) locker, knock-down (KD), 24 gauge solid body, 16 gauge frame, 16 gauge louvered door, recessed or projecting die-cast handle, 2-point (multi-point) gravity lift type latching, lock not included, with or without 6" legs (legs increase frame height to 78"), nut/bolt or rivet assembly required.
 - Product 3.-- 12" wide x 18" deep x 36"/72" high 2-Tier (two half-height doors stacked within a single frame, two openings) locker, knock-down (KD), 24 gauge solid body, 16 gauge frame, 16 gauge louvered door, recessed or projecting die-cast handle, 2-point (multi-point) gravity lift-type latching, lock not included, with or without 6" legs (legs increase frame height to 78"), nut/bolt or rivet assembly required.
 - **Product 4.--** 12" wide x 12" deep x 12"/72" high 6-Tier (six 12" high doors stacked within a single frame, 6 openings) locker, 24 knock-down (KD), 24 gauge solid body, 16 gauge frame, 18 gauge louvered door, single-point latching with thru-the-door finger pull handle, lock not included, with or without 6" legs (legs increase frame height to 78"), nut/bolt or rivet assembly required.

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> point of shipment and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

IV-2a. During January 2017-March 2020, did your firm produce and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

	No		Skip to question IV-16.	
	Yes-Busir seasonal	ness cycles (e.g. business)		
		r distinctive is of competition		
(b) If yes, have there been any changes in the business cycles or conditions of competition for metal lockers since January 1, 2017?				
No	Yes	If yes, describe.		

IV-17. **Supply constraints.**--Has your firm refused, declined, or been unable to supply metal lockers since January 1, 2017 (examples include placing customers on allocation or "controlled order entry," declining to accept new customers or renew existing customers, delivering less than the quantity promised, being unable to meet timely shipment commitments, etc.)?

No	Yes	If yes, please describe.

IV-18. Raw materials	_
----------------------	---

	(a)	How have metal lockers	raw material	prices changed	since January	v 1, 2017
--	-----	------------------------	--------------	----------------	---------------	-----------

Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explain, noting how raw material price changes have affected your firm's selling prices for metal lockers.

(b) How did the imposition of tariffs under section 232 on imported steel or aluminum products impact raw material costs for metal lockers?

Factor	Overall increase	No change	Overall decrease	Fluctuate with no clear trend
Cost of raw materials after section 232 tariffs imposed				

(c) How did the imposition of tariffs under section 232 on imported steel or aluminum products impact your firm's sales price for metal lockers?

Factor	Overall Increase	No change	Overall Decrease	Fluctuate with no clear trend	Explanation
Prices for metal lockers					

IV-19.	Impact of section 301 tariffs Did the imposition of tariffs on Chinese-origin products under
	section 301 have an impact on the metal lockers market in the United States?

Yes — Please indicate the impact in the table below.	No	Don't know

Factor	Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explain, noting how the imposition of tariffs under section 301 affected each factor of the metal lockers market in the United States.
Supply of U.S produced metal lockers					
Supply of metal lockers imported from China					
Supply of metal lockers imported from other countries					
Prices for metal lockers					
Overall U.S. demand for metal lockers					
Raw material costs for metal lockers					

IV-20. <u>Interchangeability</u>.--Is metal lockers produced in the United States and in other countries interchangeable (i.e., can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

- A = the products from a specified country-pair are *always* interchangeable
- F = the products are *frequently* interchangeable
- S = the products are *sometimes* interchangeable
- N = the products are *never* interchangeable
- 0 = no familiarity with products from a specified country-pair

Country-pair	China	Other countries			
United States					
China					
For any country-pair producing metal lockers that is <i>sometimes</i> or <i>never</i> interchangeable, identify the country-pair and explain the factors that limit or preclude interchangeable use:					

IV-21. <u>Factors other than price</u>.--Are differences other than price (e.g., quality, availability, transportation network, product range, technical support, *etc.*) between metal lockers produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = *no familiarity* with products from a specified country-pair

Country-pair	China	Other countries
United States		
China		

For any country-pair for which factors other than price *always* or *frequently* are a significant factor in your firm's sales of metal lockers, identify the country-pair and report the advantages or disadvantages imparted by such factors:

IV-22. <u>Customer identification</u>.--List the names and contact information for your firm's 10 largest U.S. customers for metal lockers since January 1, 2017. Indicate the share of the quantity of your firm's total shipments of metal lockers that each of these customers accounted for in 2019.

Cu	stomer's name	Contact person	Email	Telephone	City	State	Share of 2019 sales (%)

U.S. Producers' Questionnaire – Metal Lockers from China (Pre	eliminarv
---------------------------------------------------------------	-----------

IV-23.	Com	petition	from	impo	rts

(a) <u>Lost revenue</u>.--Since January 1, 2017: To avoid losing sales to competitors selling metal lockers from China, did your firm:

Item	No	Yes
Reduce prices		
Roll back announced price increases		

(b) <u>Lost sales.</u>--Since January 1, 2017: Did your firm lose sales of metal lockers to imports of this product from China?

No	Yes	

(c) If your firm indicated "yes" to any of the above, your firm can provide the Commission with additional information by downloading and completing the lost sales/lost revenues worksheet at http://usitc.gov/trade_remedy/question.htm. Note that the Commission may contact the firms named to verify the allegations reported.

Is your firm submitting the lost sales/lost revenues worksheet?

No—Please explain.
Yes—Please complete the worksheet and submit via the Commission dropbox. https://dropbox.usitc.gov/oinv/ . (PIN: LOCK)

IV-24. Other explanations.--If your firm would like to further explain a response to a question in Part IV for which a narrative response box was not provided, please note the question number and the explanation in the space provided below. Please also use this space to highlight any issues your firm had in providing the data in this section, including but not limited to technical issues with the MS Word questionnaire.

HOW TO FILE YOUR QUESTIONNAIRE RESPONSE

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://www.usitc.gov/investigations/701731/2020/metal lockers and parts thereof people%E2%80%99s republic/preliminary.htm.

Please do not attempt to modify the format or permissions of the questionnaire document. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: https://dropbox.usitc.gov/oinv/ Pin: LOCK

• E-mail.—E-mail the MS Word questionnaire to Celia.Feldpausch@usitc.gov; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

If your firm does not produce this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

Parties to this proceeding.—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
