## **U.S. IMPORTERS' QUESTIONNAIRE**

### STANDARD STEEL WELDED WIRE MESH FROM MEXICO

This questionnaire must be received by the Commission by <u>January 8, 2021</u>

See last page for filing instructions.

The information called for in this questionnaire is for use by the United States International Trade Commission in connection with its countervailing duty and antidumping investigations concerning standard steel welded wire mesh ("wire mesh") from Mexico (Inv. Nos. 701-TA-653 and 731-TA-1527 (Final)). The information requested in the questionnaire is requested under the authority of the Tariff Act of 1930, title VII. This report is mandatory and failure to reply as directed can result in a subpoena or other order to compel the submission of records or information in your firm's possession (19 U.S.C. § 1333(a)).

#### PART I.—GENERAL INFORMATION

<u>Background</u>.--This proceeding was instituted in response to a petition filed on June 30, 2020, by Insteel Industries Inc., Mount Airy, North Carolina; Mid South Wire Company, Nashville, Tennessee; National Wire LLC, Conroe, Texas; Oklahoma Steel & Wire Co., Madill, Oklahoma; and Wire Mesh Corp., Houston, Texas. Countervailing and antidumping duties may be assessed on the subject imports as a result of these proceedings if the Commission makes an affirmative determination of injury, threat, or material retardation, and if the U.S. Department of Commerce ("Commerce") makes an affirmative determination of subsidization and dumping. Questionnaires and other information pertinent to this proceeding are available at

https://www.usitc.gov/investigations/701731/2020/standard\_steel\_welded\_wire\_mesh\_mexico/final.h tm.

Standard steel welded wire mesh.--The product covered by this definition is uncoated standard welded steel reinforcement wire mesh ("wire mesh") produced from smooth or deformed wire. Subject wire mesh is produced in square and rectangular grids of uniformly spaced steel wires that are welded at all intersections. Sizes are specified by combining the spacing of the wires in inches or millimeters and the wire cross-sectional area in hundredths of square inch or millimeters squared. Subject wire mesh may be packaged and sold in rolls or in sheets.

Subject wire mesh is currently produced to ASTM specification A1064/A1064M, which covers carbonsteel wire and welded wire reinforcement, smooth and deformed, for concrete in the following seven styles:

- 1. 6X6 W1.4/W1.4 or D1.4/D1.4
- 2. 6X6 W2.1/W2.1 or D2.1/D2.1
- 3. 6X6 W2.9/W2.9 or D2.9/D2.9
- 4. 6X6 W4/W4 or D4/D4
- 5. 6X12 W4/W4 or D4/D4
- 6. 4X4 W2.9/W2.9 or D2.9/D2.9
- 7. 4X4 W4/W4 or D4/D4

The first number in the style denotes the spacing between the longitudinal wires and the second number denotes the spacing between the transverse wires. In the first style listed above, for example, "6X6" denotes a grid size of six inches by six inches. "W" denotes the use of smooth wire, and "D" denotes the use of deformed wire in making the mesh. The number following the W or D denotes the cross-sectional area of the transverse and longitudinal wires in hundredths of a square inch (i.e., W1.4 or D1.4 is .014 square inches).

Smooth wire is wire that has a uniform cross-sectional diameter throughout the length of the wire.

Deformed wire is wire with indentations or raised transverse ribs, which results in wire that does not have a uniform cross-sectional diameter throughout the length of the wire.

Rolls of subject wire mesh are currently produced in the following styles and actual width and length combinations:

```
Style: 6X6 W1.4/W1.4 or D1.4/D1.4 (i.e., 10 gauge)
Roll Sizes: 5' X 50'
          5' X 150'
          6' X 150'
          5' X 200'
          7' X 200'
          7.5' X 200'
Style: 6X6 W2.1/W2.1 or D2.1/D2.1 (i.e., 8 gauge)
Roll Sizes: 5' X 150'
Style: 6X6 W2.9/W2.9 or D2.9/D2.9 (i.e., 6 gauge)
Roll Sizes: 5' X 150'
          7' X 200'
All rolled wire mesh is included in scope regardless of length.
```

Sheets of subject standard welded wire mesh are currently produced in the following styles and actual width and length combinations:

```
Style: 6X6 W1.4/W1.4 or D1.4/D1.4 (i.e., 10 gauge)
Sheet Size: 3'6" X 7'
           4' X 7'
           X 7'6"
           5' X 10'
           7' X 20'
           7'6" X 20'
           8' X 12'6"
           8' X 15'
           8' X 20'
Style: 6X6 W2.1/W2.1 or D2.1/D2.1 (i.e., 8 gauge)
Sheet Size: 5' X 10'
           7' X 20'
           7'6" X 20'
           8' X 12'6"
           8' X 15'
           8' X 20'
Style: 6X6 W2.9/W2.9 or D2.9/D2.9 (i.e., 6 gauge)
Sheet Size: 3'6" X 20'
           5' X 10'
           7' X 20'
           7'6" X 20'
           8' X 12'6"
           8' X 15'
           8' X 20'
```

Style: 6X12 W4/W4 or D4/D4 (i.e., 4 gauge)

Sheet Size: 8' X 20'

Style: 4X4 W2.9/W2.9 or D2.9/D2.9 (i.e., 6 gauge)

Sheet Size: 5' X 10' 7' X 20' 7'6" X 20' 8' X 12'6" 8' X 12'8"

> 8' X 15' 8' X 20'

Style: 4X4 W4/W4 or D4/D4 (i.e., 4 gauge)

Sheet Size: 5' X 10' 8' X 12'6" 8' X 12'8" 8' X 15' 8' X 20'

Any product imported, sold, or invoiced in one of these size combinations is included in this definition.

ASTM specification A1064/A1064M provides for permissible variations in wire gauges, the spacing between transverse and longitudinal wires, and the length and width combinations. To the extent a roll or sheet of welded wire mesh falls within these permissible variations, it is included in this definition.

ASTM specification A1064/A1064M also defines permissible oversteeling, which is the use of a heavier gauge wire with a larger cross-sectional area than nominally specified. It also permits a wire diameter tolerance of + 0.003 inches for products up to W5/D5 and + 0.004 for sizes over W5/D5. A producer may oversteel by increasing smooth or deformed wire diameter up to two whole number size increments on Table 1 of A1064. Subject wire mesh has the following wire diameter ranges, which account for both oversteeling and diameter tolerance:

W/D No.	Maximum Oversteeling No.	Diameter Range (inch)
1.4	(i.e., 10 gauge)	3.4 0.093 to 0.211
2.1	(i.e., 8 gauge)	4.1 0.161 to 0.231
2.9	(i.e., 6 gauge)	4.9 0.189 to 0.253
4.0	(i.e., 4 gauge)	6.0 0.223 to 0.280

To the extent a roll or sheet of wire mesh falls within the permissible variations provided above, it is within this scope.

In addition to the tolerances permitted in ASTM specification A1064/A1064M, wire mesh in this definition includes combinations where:

- 1. A width and/or length combination varies by + one grid size in any direction, i.e., + 6 inches in length or width where the wire mesh's grid size is "6X6"; and/or
- 2. The center-to-center spacing between individual wires may vary by up to one quarter of an inch from the nominal grid size specified.

Length is measured from the ends of any wire and width is measured between the center-line of end longitudinal wires.

Additionally, although the subject wire mesh typically meets ASTM A1064/A1064M, the failure to include certifications, test reports or other documentation establishing that the product meets this specification does not remove the product from the scope. Wire mesh made to comparable foreign specifications (e.g., DIN, JIS, etc.) or proprietary specifications is included in the scope.

Excluded from the scope is wire mesh that is galvanized (i.e., coated with zinc) or coated with an epoxy coating. In order to be excluded as galvanized, the excluded welded wire mesh must have a zinc coating thickness meeting the requirements of ASTM specification A641/A641M. Epoxy coating is a mix of epoxy resin and hardener that can be applied to the surface of steel wire.

Wire mesh is currently imported under statistical reporting numbers 7314.20.0000 and 7314.39.0000. of the Harmonized Tariff Schedule of the United States ("HTSUS"). The HTSUS provisions are for convenience and customs purposes; the written description of the scope is dispositive.

<u>Engineered wire mesh.--</u> Engineered wire mesh (also referred to as "structural mesh") is assembled from steel wires welded together in a grid pattern, complies with ASTM A1064 or equivalent specifications, and is designed to reinforce concrete. Being custom designed for specific end uses and customers, engineered wire mesh often, but not always, consists of non-uniform or heavier wires, non-uniform grid sizes, or in sheet dimensions different from standard wire mesh. If your firm <u>only</u> imports engineered wire mesh, please fill out parts I and IV of this questionnaire (skipping parts II and III).

<u>Importer</u>.--Any person or firm engaged, either directly or through a parent company or subsidiary, in importing wire mesh (as defined above) into the United States from a foreign manufacturer or through its selling agent.

**Reporting of information**.--If information is not readily available from your records, provide carefully prepared estimates. If your firm is completing more than one questionnaire (i.e., a producer, importer, and/or purchaser questionnaire), you need not respond to duplicated questions.

<u>Confidentiality</u>.--The commercial and financial data furnished in response to this questionnaire that reveal the individual operations of your firm will be treated as confidential by the Commission to the extent that such data are not otherwise available to the public and will not be disclosed except as may be required by law (see 19 U.S.C. § 1677f). Such confidential information will not be published in a manner that will reveal the individual operations of your firm; however, general characterizations of numerical business proprietary information (such as discussion of trends) will be treated as confidential business information only at the request of the submitter for good cause shown.

<u>Verification</u>.--The information submitted in this questionnaire is subject to audit and verification by the Commission. To facilitate possible verification of data, please keep all files, worksheets, and supporting documents used in the preparation of the questionnaire response. Please also retain a copy of the final document that you submit.

<u>Release of information</u>.--The information provided by your firm in response to this questionnaire, as well as any other business proprietary information submitted by your firm to the Commission in connection with this proceeding, may become subject to, and released under, the administrative protective order provisions of the Tariff Act of 1930 (19 U.S.C. § 1677f) and section 207.7 of the

Commission's Rules of Practice and Procedure (19 CFR § 207.7). This means that certain lawyers and other authorized individuals may temporarily be given access to the information for use in connection with this proceeding or other import-injury proceedings conducted by the Commission on the same or similar merchandise; those individuals would be subject to severe penalties if the information were divulged to unauthorized individuals.

<u>Valid number error messages.</u>—If you are completing this form in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 rather than \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete this form. Detailed instructions on how to resolve this issue is provided at the end of this questionnaire and is available upon request from Julie Duffy (202-708-2579, julie.duffy@usitc.gov).

<u>D-GRIDS tool.</u>--The Commission has a tool that firms can use to move data from their own MS Excel compilation files into self-contained data tables within this MS Word questionnaire, thereby reducing the amount of cell-by-cell data entry that would be required to complete this form. This tool is a macroenabled MS Excel file available for download from the Commission's generic questionnaires webpage (<a href="https://www.usitc.gov/trade\_remedy/question.htm">https://www.usitc.gov/trade\_remedy/question.htm</a>) called the "D-GRIDs tool." Use of this tool to help your firm complete this questionnaire is *optional*. Firms opting to use the D-GRIDs tool to populate their data into this questionnaire will need the D-GRIDs specification sheet PDF file specific to this proceeding (available on the case page which is linked under the "Background" above) which includes the necessary references relating to this questionnaire, as well as the macro-enable MS Excel D-GRIDs tool itself from the generic questionnaires page. More detailed instructions on how to use the D-GRIDs tool are available within the D-GRIDs tool itself.

I-1. <u>OMB statistics</u>.--Please report below the actual number of hours required and the cost to your firm of completing this questionnaire.

Hours	Dollars

The questions in this questionnaire have been reviewed with market participants to ensure that issues of concern are adequately addressed and that data requests are sufficient, meaningful, and as limited as possible. Public reporting burden for this questionnaire is estimated to average 40 hours per response, including the time for reviewing instructions, gathering data, and completing and reviewing the questionnaire.

We welcome comments regarding the accuracy of this burden estimate, suggestions for reducing the burden, and any suggestions for improving this questionnaire. Please attach such comments to your response or send to the Office of Investigations, USITC, 500 E St. SW, Washington, DC 20436.

I-8.	FTZ, TIB, or bonded warehousesPlease indicate whether your firm enters wire mesh into, or
	withdraws such merchandise from, foreign trade zones or bonded warehouses. Also indicate
	whether your firm imports wire mesh under the TIB (temporary importation under bond)
	program.

"Foreign trade zone" is a designated location in the United States where firms utilize special procedures that allow delayed or reduced customs duty payments on foreign merchandise, as well as other savings. A foreign trade zone must be designated as such pursuant to the rules and procedures set forth in the Foreign-Trade Zones Act.

"Bonded warehouse" is a secured facility supervised by U.S. customs, where dutiable landed imports are stored pending their re-export, or release after payment of import duties, taxes, and other charges. A bonded warehouse must be designed as such pursuant to the rules and procedures set forth in 19 U.S.C. § 1555.

"Temporary Importation under Bond ("TIB") program" is a procedure whereby imported merchandise may be entered under certain conditions for a limited time into the United States free of duty. Under the program, an importer posts a bond for twice the amount of duty, taxes, etc. that would otherwise be owed on the importation and agrees to export or destroy the merchandise within a specified time or pay liquidated damages. This program is restricted to certain categories of merchandise listed in subheadings 9813.00.05 through 9813.00.75 of the Harmonized Tariff Schedule of the United States (HTS).

Item	No	Yes
Foreign trade zones		
Bonded warehouses

II-4.	Reasons for importing if producerIf your firm also produces wire mesh in the United States,
	please indicate the reasons for importing this product. If your firm's reasons differ by source,
	please elaborate.

#### **Definitions**

"Imports" – Those products identified for Customs purposes as imports for consumption for which your firm was the importer of record (i.e., was responsible for paying any import duty).

"Import quantities" –Quantities reported should be net of returns.

"Import values"—Values reported should be landed, duty-paid values at the U.S. port of entry, including ocean freight and insurance costs, brokerage charges, and import duties (i.e., all charges except inland freight in the United States).

"Commercial U.S. shipments"— Shipments made within the United States as a result of an arm's length commercial transaction in the ordinary course of business. Report net values (i.e., gross sales values less all discounts, allowances, rebates, prepaid freight, and the value of returned goods) in U.S. dollars, f.o.b. your point of shipment.

"Internal consumption" – Product consumed internally by your firm. Such transactions are valued at fair market value.

"Transfers to related firms" – Shipments made to related firms. Such transactions are valued at fair market value.

"Related firm" —A firm that your firm solely or jointly owned, managed, or otherwise controlled; a firm that solely or jointly owned, managed, or otherwise controlled your firm; and/or a firm that was solely or jointly owned, managed, or otherwise controlled by a firm that also solely or jointly owned, managed, or otherwise controlled your firm.

**"Export shipments"**— Shipments to destinations outside the United States, including shipments to related firms.

"Inventories" -- Finished goods inventory, not raw materials or work in progress.

Note: As requested in Part I of this questionnaire, please keep all supporting documents/records used in the preparation of the trade data, as Commission staff may contact your firm regarding questions on the trade data. The Commission may also request that your company submit copies of the supporting documents/records (such as production and sales schedules, inventory records, etc.) used to compile these data.

II-5a. <u>U.S. imports from Mexico</u>.—Report your firm's imports and your firm's shipments and inventories of wire mesh imported from Mexico by your firm during the specified periods.

### II-5a. U.S. imports from Mexico.—Continued

RECONCILIATION OF SHIPMENTS, IMPORTS, AND INVENTORIES.--Generally, the data reported for the end-of-period inventories (i.e., line L) should be equal to the beginning-of-period inventories (i.e., line A), plus imports (i.e., line B), less total shipments (i.e., lines D, F, H, and J). Please ensure that any differences are not due to data entry errors in completing this form, but rather actually reflect your firm's records; and also provide any likely explanations for any differences (e.g., theft, loss, damage, record systems issues, etc.) if they exist.

	Calendar year			January-September

### **PRICE DATA**

III-2. This question requests quarterly quantity and value data for your firm's commercial shipments to unrelated U.S. customers since January 1, 2017 of the following products your firm imported from Mexico:

**Product 1.--** 6x6, 10 gauge, D1.4 D1.4, 5' x 150' rolls

**Product 2.--** 6x6, 10 gauge, W1.4 W1.4, 5' x 150' rolls

**Product 3.--** 6x6, 10 gauge, W/D1.4 W/D1.4, 8' x 20' sheets

**Product 4.--** 6x6, 10 gauge, D1.4 D1.4, 3.6' x 7' sheets

**Product 5.--** 6x6, 10 gauge, W1.4 W1.4, 7' x 20' sheets

**Product 6.**-- 6x6, 10 gauge, D1.4 D1.4, 3.6' x 7' sheets

Please note that values should be <u>f.o.b.</u>, <u>U.S.</u> <u>point of shipment</u> and should not include U.S.-inland transportation costs. Values should reflect the *final net* amount paid to your firm (i.e., should be net of all deductions for discounts or rebates).

During January 2017-September 2020, did your firm import from Mexico and sell to unrelated U.S. customers any of the above listed products (or any products that were competitive with these products)?

YesPlease complete the following pricing data table as appropriate.
NoSkip to question III-3.

(a) How have wire mesh raw material costs changed since January 1, 2017?

Factor	Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explain, noting how raw material price changes have affected your firm's selling prices for wire mesh.
Cost of raw materials					

(b) How did the imposition of tariffs under section 232 on imported steel/aluminum products impact raw material costs for wire mesh?

Factor	Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explanation
Cost of raw materials after section 232 tariffs imposed					

(c) How did the imposition of tariffs under section 232 on imported steel/aluminum products impact your firm's sales price for wire mesh?

Factor	Overall increase	No change	Overall decrease	Fluctuate with no clear trend	Explanation
Prices for wire mesh					

III-19. <u>Interchangeability.--</u>Is wire mesh produced in the United States and in other countries interchangeable (i.e., can they physically be used in the same applications)?

Please indicate A, F, S, N, or 0 in the table below:

- A = the products from a specified country-pair are *always* interchangeable
- F = the products are *frequently* interchangeable
- S = the products are *sometimes* interchangeable
- N = the products are *never* interchangeable
- 0 = *no familiarity* with products from a specified country-pair

Country-pair	Mexico	Other countries
United States		
Mexico		

For any country-pair producing wire mesh that is *sometimes* or *never* interchangeable, identify the country-pair and explain the factors that limit or preclude interchangeable use:

III-20. <u>Factors other than price</u>.--Are differences other than price (e.g., quality, availability, transportation network, product range, technical support, *etc.*) between wire mesh produced in the United States and in other countries a significant factor in your firm's sales of the products?

Please indicate A, F, S, N, or 0 in the table below:

A = such differences are *always* significant

F = such differences are *frequently* significant

S = such differences are *sometimes* significant

N = such differences are *never* significant

0 = *no familiarity* with products from a specified country-pair

Country-pair	Mexico	Other countries			
United States					
Mexico					
For any country-pair for which factors other than price <i>always</i> or <i>frequently</i> are a significant in your firm's sales of wire mesh, identify the country-pair and report the advantages or disadvantages imparted by such factors:					

III-21. <u>Customer identification.</u>--List the names and contact information for your firm's 10 largest U.S. customers for wire mesh since January 1, 2017. Indicate the share of the quantity of your firm's total shipments of wire mesh that each of these customers accounted for in 2020.

Correcting valid number error messages.—If you are completing a Commission questionnaire in a country that uses periods (".") to delineate multiples of 1000 (e.g., one million would appear as \$1.000.000 instead of as \$1,000,000), you may be unable to enter in numbers greater than 999 in numeric form fields. This issues stem from your computer number formatting setting (e.g., not the MS Word document itself, but the computer from which you are opening up the document). In the United States commas (,) delineate multiples of 1000 and periods (.) delineate fractions less than one. Many EU countries use the reverse where multiples of 1000 are delineated with periods (.) and fractions less than one are delineated with commas (,). The U.S. International Trade Commission's questionnaires are setup in the United States with the U.S. number formatting. When this formatting interacts with a computer set to EU number formatting, we believe this may cause this issue.

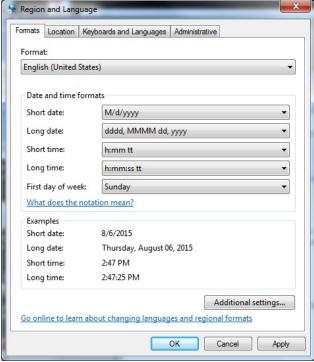

The solution to this data entry issue is to temporarily change your operating system's number formatting to be consistent with the U.S. number formatting system while you complete the questionnaire.

To temporarily change your computer's number settings to U.S. settings, please do the following (for Microsoft Windows Operating system):

- START
- Control Panel
- Region and Language (under Clock, Language, and Region category)
- Formatital
- Change the Format from your existing one (e.g. "Italian (Italy)") to "English (United States)" (see screen shots below)

When you do this the number "twelve million dollars and thirty five cents" would change from \$12.000.000,35 (Italy format) to \$12,000,000.35 (U.S. format), and then there will be no conflict with the questionnaire. When you finish reporting the data then you can close the questionnaire and switch back to Italy settings.

# **HOW TO FILE YOUR QUESTIONNAIRE RESPONSE**

This questionnaire is available as a "fillable" form in MS Word format on the Commission's website at:

https://www.usitc.gov/investigations/701731/2020/standard\_steel\_welded\_wire\_mesh\_mexico/final.htm

**Please do not attempt to modify the format or permissions of the questionnaire document**. Please submit the completed questionnaire using one of the methods noted below. If your firm is unable to complete the MS Word questionnaire or cannot use one of the electronic methods of submission, please contact the Commission for further instructions.

• <u>Upload via Secure Drop Box</u>.—Upload the MS Word questionnaire along with a scanned copy of the signed certification page (page 1) through the Commission's secure upload facility:

Web address: <a href="https://dropbox.usitc.gov/oinv/">https://dropbox.usitc.gov/oinv/</a> Pin: MESH

• E-mail.—E-mail the MS Word questionnaire to julie.duffy@usitc.gov; include a scanned copy of the signed certification page (page 1). Submitters are strongly encouraged to encrypt nonpublic documents that are electronically transmitted to the Commission to protect your sensitive information from unauthorized disclosure. The USITC secure drop-box system and the Electronic Document Information System (EDIS) use Federal Information Processing Standards (FIPS) 140-2 cryptographic algorithms to encrypt data in transit. Submitting your nonpublic documents by a means that does not use these encryption algorithms (such as by email) may subject your firm's nonpublic information to unauthorized disclosure during transmission. If you choose a non-encrypted method of electronic transmission, the Commission warns you that the risk of such possible unauthorized disclosure is assumed by you and not by the Commission.

**If your firm** did not import this product, please fill out page 1, print, sign, and submit a scanned copy to the Commission.

**Parties to this proceeding.**—If your firm is a party to this proceeding, it is required to serve a copy of the completed questionnaire on parties to the proceeding that are subject to administrative protective order (see 19 CFR § 207.7). A list of such parties may be obtained from the Commission's Secretary (202-205-1803). A certificate of service must accompany the completed questionnaire you submit (see 19 CFR § 207.7). Service of the questionnaire must be made in paper form.
