

Justification for IMLS CARES Act Grants for Museums and Libraries

3137-XXXX Emergency Clearance Grant Application

IMLS is requesting an emergency clearance for a grant program: IMLS CARES Act Grants for Museums and Libraries.

Justification for the IMLS CARES Act Grants for Museums and Libraries

IMLS recognizes the challenges facing museums and libraries at this time, including the adaptations and adjustments that will be necessary to rebuild staffing, reopen facilities, and address the needs of communities affected by the impact of a global crisis.

The goal of this grant program is to support the role of museums and libraries in responding to the coronavirus pandemic in ways that meet the immediate and future COVID-19 needs of the communities and audiences they serve.

The Coronavirus Aid, Relief, and Economic Security (CARES) Act (Pub. L. 116-136 [March 27, 2020]) has provided funds to the Institute of Museum and Library Services “to prevent, prepare for, and respond to coronavirus...to expand digital network access, purchase internet accessible devices, and provide technical support services” for the benefit of communities impacted by the public health emergency.

The IMLS CARES Act Grants for Museums and Libraries grant program invites project proposals that focus on preserving jobs, training staff, addressing the digital divide, planning for reopening, and providing technical support and capacity building for digital inclusion and engagement while prioritizing services for high-need communities. We encourage efforts to develop programs, tools, models, partnerships, and other resources that will address immediate concerns and have the potential to inspire and benefit museums and libraries throughout the nation.
