PFAS Exposure Assessment, ADULT (≥ 18 years of age) Questionnaire

Note: Questionnaire will be administered by Exposure Assessment staff.

ATSDR estimates the average public reporting burden for this collection of information as 30 minutes per response, including the time for reviewing instructions, searching existing data/information sources, gathering and maintaining the data/information needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB Control Number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D-74, Atlanta, Georgia 30333; ATTN: PRA (0923-xxxxx).

Script: Hello. As a part of the PFAS Exposure Assessment, I'm going to ask you some questions to learn about things that might impact your exposure to PFAS. Before I do so, I want to tell you about why we are collecting this information, and how we will protect your privacy. The statement I'm about to read you is required by the Privacy Act of 1974.

Note: The Privacy Act Statement below will be read to the participants and they will be provided a hard copy (see Appendix B of protocol).

"PRIVACY ACT STATEMENT:

ATSDR has the authority under Section 8006 of the Consolidated Appropriations Act of 2018 and the "Comprehensive Environmental Response, Compensation, and Liability Act of 1980" (CERCLA) as amended by "Superfund Amendments and Reauthorization Act of 1986" (SARA) to collect this information from you. We are conducting this assessment to evaluate your exposure to per- and polyfluoroalkyl substances, also called PFAS. ATSDR is collecting information from you to learn more about things that might impact your exposure to PFAS, and so that we can send your results back to you. ATSDR will share these records with the National Center for Environmental Health (NCEH), who may provide research or support staff and laboratory or statistical analysis. ATSDR may also disclose these records to its contractors in order to locate individuals who have been exposed to PFAS and to conduct interviews and other research activities. The contractor must comply with the requirements of the Privacy Act to protect your records. Providing this information is voluntary. ATSDR needs this information for you to take part in the assessment. ATSDR may not include incomplete records in the data analysis. ATSDR needs up-to-date contact information to send you your results."

Now I'm going to ask you some questions. Answering these questions and collecting your blood and urine should take about 30 minutes.
