

EVALUATION OF LEARNING HEALTH SYSTEMS K12 TRAINING PROGRAM

Appendix D6. Health System Advisor (HSA) Survey Screenshots

May 15, 2020

Page 1

Thank you for completing this survey as part of the research being conducted by 2M Research (2M) for the Agency for Healthcare Research and Quality (AHRQ). The purpose of this survey is to learn more about your views on the role of research carried out in learning health systems and stakeholder engagement in research.

The survey should take you less than 10 minutes to complete.

Please answer as openly and honestly as possible. There are no right or wrong answers. You can refuse to answer any questions you do not want to answer. Your participation in this study is voluntary, and you may stop at any time. There will be no negative consequences if you choose to stop or if you choose not to participate at all.

All interview data will be treated in a secure manner and will not be disclosed, unless otherwise compelled by law. The information that 2M collects will be aggregated and summarized for reporting to AHRQ and the public.

The survey can be closed and continued at another time (i.e., the form does not need to be completed in one sitting). When you close out of your browser (and the survey), the responses you have entered will be saved. However, in order to complete the survey that was started, you will need to return to the same computer.

Please complete this survey by [DATE].

If you experience technical difficulties while completing this survey, please contact the AHRQ's IT liaison, Ian Robinson, at survey@ahrq.hhs.gov. If you have questions about this study, please contact Dr. Amy Windham, the 2M evaluation director, at awindham@2mresearch.com or 703-214-1512.

Form Approved OMB No. #####-##### Exp. Date ##/##/#####

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is XXXX-XXXX. Public reporting burden for the collection of information is estimated to average XX minutes per response. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: AHRQ Reports Clearance Officer, Attention: PRA, Paperwork Reduction Project (XXXX-XXXX), AHRQ, 540 Gaither Road, Room #5036, Rockville, MD

The first set of survey questions asks you to rate your level of agreement with statements related to research carried out in your health system. The scale ranges from "Strongly disagree" to "Strongly agree."

1. * Research carried out in your health system should influence patient care in your health system.

- Strongly disagree
- Somewhat disagree
- Neutral
- Somewhat agree
- Strongly agree
- Not Applicable/Prefer Not to Answer

2. * Research carried out in your health system should improve patient outcomes or patient experience of care in your health system.

- Strongly disagree
- Somewhat disagree
- Neutral
- Somewhat agree
- Strongly agree
- Not Applicable/Prefer Not to Answer

3. * Research carried out in your health system should reduce the cost of care in your health system.

- Strongly disagree
- Somewhat disagree
- Neutral
- Somewhat agree
- Strongly agree
- Not Applicable/Prefer Not to Answer

4. * Research carried out in your health system should increase efficiency of care delivery in your health system.

- Strongly disagree
- Somewhat disagree
- Neutral
- Somewhat agree
- Strongly agree
- Not Applicable/Prefer Not to Answer

Page 2

5. * Research carried out in your health system should strengthen the health system's reputation.

- Strongly disagree
- Somewhat disagree
- Neutral
- Somewhat agree
- Strongly agree
- Not Applicable/Prefer Not to Answer

6. * Research carried out in your health system should generate financial support for more research in your institution.

- Strongly disagree
- Somewhat disagree
- Neutral
- Somewhat agree
- Strongly agree
- Not Applicable/Prefer Not to Answer

7. * Research carried out in your health system should provide research staff with opportunities for career advancement.

- Strongly disagree
- Somewhat disagree
- Neutral
- Somewhat agree
- Strongly agree
- Not Applicable/Prefer Not to Answer

8. * Research may be carried out in your health system for the sole purpose of contributing to the scientific knowledge base (even if it does not directly influence patient care or hospital operations).

- Strongly disagree
- Somewhat disagree
- Neutral
- Somewhat agree
- Strongly agree
- Not Applicable/Prefer Not to Answer

Page 3

The next set of questions asks you to rate how important certain aspects of patient, family, and other stakeholder involvement are to research carried out in your health system. The scale ranges from "Not at all important" to "Very important."

9. * How important is it to you for patients and families to participate in determining the research topics that are carried out in your health system?

- Not at all important
- Slightly important
- Important
- Fairly important
- Very important
- Not Applicable/Prefer Not to Answer

10. * How important is it to you for patients and families to provide input on the execution of research conducted in your health system?

- Not at all important
- Slightly important
- Important
- Fairly important
- Very important
- Not Applicable/Prefer Not to Answer

11. * How important is it to you for patients and families to review the results of research conducted in your health system and provide input on the meaning or implications of those results?

- Not at all important
- Slightly important
- Important
- Fairly important
- Very important
- Not Applicable/Prefer Not to Answer

Page 4

12. * How important is it to you for stakeholders from within your health system to participate in determining the research conducted in your health system?

- Not at all important
- Slightly important
- Important
- Fairly important
- Very important
- Not Applicable/Prefer Not to Answer

13. * How important is it to you for stakeholders from within your health system to provide input on executing research conducted in your health system?

- Not at all important
- Slightly important
- Important
- Fairly important
- Very important
- Not Applicable/Prefer Not to Answer

14. * How important is it to you for stakeholders from within your health system to review the results of research conducted in your health system and provide input on the meaning or implications of those results?

- Not at all important
- Slightly important
- Important
- Fairly important
- Very important
- Not Applicable/Prefer Not to Answer

15. * How important is it to you for stakeholders from within your health system to provide input on how the research results generated in your health system are used by your health system?

- Not at all important
- Slightly important
- Important
- Fairly important
- Very important
- Not Applicable/Prefer Not to Answer

Thank you! We appreciate the time you have taken to answer our questions. Your input is very valuable.
