PHYSINTRO	PHYSINTRO	no entry	IF R IS IN A WHEELCHAIR OR CANNOT STAND, SELECT "R CANNOT PARTICIPATE" WITHOUT READING TEXT BELOW. Now I am going to ask you to do a few simple activities. Researchers are interested in how performance on these activities relates to some of the other factors I have asked you about in the interview. I will ask you to do these activities: height and weight measurements, a balance test, a walking test, and a standing test. My primary concern is for your safety, so I will ask you if you feel it would be safe for you to complete each activity. I will describe these measurements and ask if you would feel comfortable and safe completing each of the measurements. We will then complete the measurements one after the other.	(01) CONTINUE (02) R CANNOT PARTICIPATE (IN WHEELCHAIR, CAN'T STAND)	(01) HGTINTRO (02) GRPSTART
HGTINTRO	HGTINTRO	code one	Let's start by measuring your height. I will ask you to stand up straight against the wall with your feet together. Then, I will mark your height on the wall using a sticky note and ask you to step away. I will then measure from the sticky note to the floor. Is there any reason why you feel you cannot participate? [IF R REFUSES TO ATTEMPT THE MEASURE, SELECT R CANNOT OR WILL NOT PARTICIATE]	(01) CONTINUE (02) R CANNOT OR WILL NOT PARTICIPATE	(01) HGTMEASU (02) HGTREASN
