

Justification for No Material Change

We have a need to add country field to this form to accommodate foreign entities.

Current:

Street Address *

City *

State *

Zip Code *
(Sample - 12345 or 12345-1234)

Suggested Design:

- Add Country field
- If Country = United States of America, no changes.
- If Country <> United States of America...thus a Foreign Address, then

Country *

Address *:
