FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995. The submission will describe the nature of the information collection, the categories of respondents, the estimated burden (*i.e.*, the time, effort and resources used by respondents to respond) and cost, and the actual data collection instruments FEMA will use.

DATES: Comments must be submitted on or before June 22, 2020.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. SUPPLEMENTARY INFORMATION: The National Flood Insurance Program (NFIP) is authorized by Public Law 90–448 (1968) and expanded by Public Law 93–234 (1973). The National Flood Insurance Act of 1968 requires that the Federal Emergency Management Agency (FEMA) provide flood insurance at full actuarial rates reflecting the complete flood risk to structures built or substantially improved on or after the effective date for the initial Flood Insurance Rate Map for the community, or after December 31, 1974, whichever is later, so that the risks associated with buildings in flood-prone areas are borne by those located in such areas and not by the taxpayers at large. In accordance with Public Law 93–234, the purchase of flood insurance is mandatory when Federal or federally-related financial assistance is being provided for acquisition or construction of buildings located, or to be located, within FEMA-identified special flood hazard areas of communities that participate in the NFIP.

This proposed information collection previously published in the **Federal Register** on February 24, 2020, at 85 FR 10458 with a 60-day public comment period. FEMA received one comment supporting the proposed revisions to this information collection, and one irrelevant comment. This information collection expired on April 30, 2020. FEMA is requesting a reinstatement, with change, of a previously approved information collection for which approval has expired. SUPPLEMENTARY INFORMATION: The County of Placer, City of Lincoln, South Placer Regional Transportation Authority, Placer County Water Agency, and the Placer County Authority (PCA) (collectively, the applicants) have applied for a 50-year incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicants prepared the Final Plan pursuant to section 10(a)(1)(B) of the ESA and the California Natural Community Conservation Planning Act of 2002 (NCCPA).

Background

Section 9 of the ESA (16 U.S.C. 1531–1544 *et seq.*) and Federal regulations (50 CFR 17) prohibit the taking of fish and wildlife species listed as endangered, and certain species listed as threatened under section 4 of the ESA. Regulations governing permits for endangered and threatened species are at 50 CFR 17.22 and 17.32. For more about the Federal habitat conservation plan program, go to <http://www.fws.gov/endangered/esa-library/pdf/hcp.pdf>. As cooperating agencies, NMFS may use the EIS analysis to support a decision as to whether to issue an ITP to the applicants, and the Corps may use the EIS analysis to support decisions made associated with implementing the Clean Water Act (33 U.S.C. 1251 *et seq.*).

NEPA requires Federal agencies to analyze their proposed actions to determine whether the actions may significantly affect the human environment. In these NEPA analyses, the Federal agency will identify direct, indirect, and cumulative effects, as well as possible mitigation for effects on environmental resources that could occur with implementation of the proposed action and alternatives.

Proposed Action

The FWS and NMFS would issue an ITP to the applicants for a period of 50 years for certain covered activities (listed below). The applicants have requested ITPs for 14 covered animal species (listed below), of which 7 are listed as endangered or threatened under the ESA.
