Cumulative Grade Point Average (CGPA)

For Graduate Students

Undergraduate Cumulative Grade Point Average (CGPA) need not be identified if the student has completed 15 or more graduate hours and is pursuing a graduate degree. If the student has not achieved 15 hours of graduate credit, identify CGPA and credit hours for all undergraduate hours and if applicable, CGPA on credit hours for all graduate academic courses completed. For institutions that do not use numerical grades, check the N/A box and indicate whether or not the student is in Good Standing (according to standards set by the school).

For Undergraduate Students

CGPA must be computed on all post-secondary academic courses taken within past 10 years. It should not be computed only on academic courses accepted as satisfying the requirements of the degree for which the applicant is requesting a scholarship. If the applicant completed academic courses more than 10 years ago, CGPA should be computed on all courses used for admission to the program for which the scholarship is being requested.
