REQ:

Notice of Benefit Determination

According to our records you do not have sufficient railroad compensation to qualify for normal benefits in the current benefit year. However, you may now receive benefits based on an extension of your previous benefit year. An extended benefit period runs for 7 consecutive 14-day claim periods having 10 days payable in each. Your extended benefit period begins and ends .

If you think our records are wrong and that you are qualified for benefits in the current benefit year, complete and return the enclosed Form UI-9.

Sincerely,

Enclosure
