

AGRICULTURAL RESOURCE MANAGEMENT SURVEY
PHASE II
FRUIT CHEMICAL USE SURVEY
RESPONDENT BOOKLET

20XX

Dear Grower,

Every two years, USDA's National Agricultural Statistics Service (NASS) conducts a *Fruit Chemical Use Survey*. This survey helps accurately gauge farm operators' use of chemicals on fruit crops. The survey will collect information on bearing acreage, pest management practices, pesticide application, acres treated and rates applied to more than 22 fruit crops in 12 states. Current data are essential to informed decision-making by and for the industry.

Between October 1, 20XX and February 2, 20XX, a NASS representative will contact you to gather information on pesticide and fertilizer use. An interview typically lasts about 45 minutes. We recognize your time is valuable and our interviewers will schedule a time that is convenient for you. The information you provide helps show the great stewardship work of fruit growers and builds greater consumer confidence. Please plan to have your chemical use records available so that the meeting can go as quickly as possible.

Once you and your fellow fruit growers nationwide respond, NASS will publish the combined results on July 25, 20XX. Chemical use survey reports are available online free of charge at https://www.nass.usda.gov/Surveys/Guide_to_NASS_Surveys/Chemical_Use/index.php.

The results of this survey will be available in aggregate form only, ensuring that no individual operation or producer can be identified, as required by federal law.

Thank you once again for participating and for your support of our programs and U.S. agriculture.

Sincerely,

A handwritten signature in black ink, appearing to read "J. L. Parsons".

Joseph L. Parsons
Chair, Agricultural Statistics Board
U.S. Department of Agriculture

Enclosures

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0535-0218. The time required to complete this information collection is estimated to average 45 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

COMMON CONVERSIONS FOR LIQUID AND DRY MEASUREMENTS

1 Kilogram	equals	2.2046 Pounds
1 Pound	equals	0.45 Kilograms
1 Pound	equals	16 Ounces
1 Ounce	equals	0.0625 Pounds
1 Ounce	equals	28.47 Grams
1 Gallon	equals	3.785 Liters
1 Gallon	equals	4 Quarts
1 Gallon	equals	8 Pints
1 Quart	equals	2 Pints
1 Pint	equals	2 Cups
1 Pint	equals	16 Fluid Ounces
